Notes

AC Map accompanies a report.
CM Compilation map.
FO Map is bound in accompanying report as a fold-out figure.
GP Minor geophysical data included.
HC Historic cance route data included on map.
MO Monochrome format (black & white / red & white).
NP Not plotted on map face.
OP Map was out of print as determined from most current inventory available. This may or may not apply to the report it accompanies; verify through the current Publications Price List.
PZ Minor Paleozoic geology data included.
QU Minor Quaternary geology data included.
RE Reprinted with change to some aspect of the original format (usually typified by printing in 2 colours only), exemplifying revision.
RV Revised version, originally issued at an earlier date
SC Superceded by a more recent map.
TA Map depicts 2 or more areas and/or insets. The scale given is that of the area most prominently displayed cartographically.

WHAT THIS INDEX PROVIDES

This index consists of four sheets and shows all maps published by the Ontario Geological Survey pertaining to bedrock geology and related metallic mineral and petroleum resources. Maps on the following topics are included (abbreviations used in map listings are given in parentheses):

BEDROCK GEOLOGY
General (BEDROCK)
Precambrian (PRECAM)
Paleozoic (PALEOZ)
Geochronology (CHRON)
MINERAL DEPOSITS (excluding aggregate and industrial minerals) (MINDEP)
PETROLEUM RESOURCES (PETROL)

This index is intended to be used in conjunction with the ***1991 Geology of Ontario*** series of maps, and is published at the same scale, map projection, and sheet size.

The maps indexed here, representing 100 years of geologic mapping, have been produced by the Ontario Geological Survey and its predecessor organizations: the Ontario Bureau of Mines, the Ontario Department of Mines and the Ontario Division of Mines. The maps comprise five series as follows.

AR Series

The "AR" maps, accompanying the Annual Reports of the Ontario Bureau of Mines and Ontario Department of Mines, were issued during the period 1891–1944. Note that the "AR" prefix has been added to map numbers for the purpose of this index and does not actually appear on the maps.

1900 Series

Initially issued separately from Annual Reports, by the
