1. SURVEY DETAILS

1.1 PROJECT NAME

This project is known as the **Bradette Property**.

1.2 CLIENT

TIGER GOLD EXPLORATION CORPORATION

103 Government Road.
Kirkland Lake, Ontario
P2N 1A9

1.3 LOCATION

The Bradette Property is located approximately 165km north of Larder Lake, Ontario. Mining claims 4245988, 4245989 and 4245990 is located in Bradette Township within the Larder Lake Mining Division.

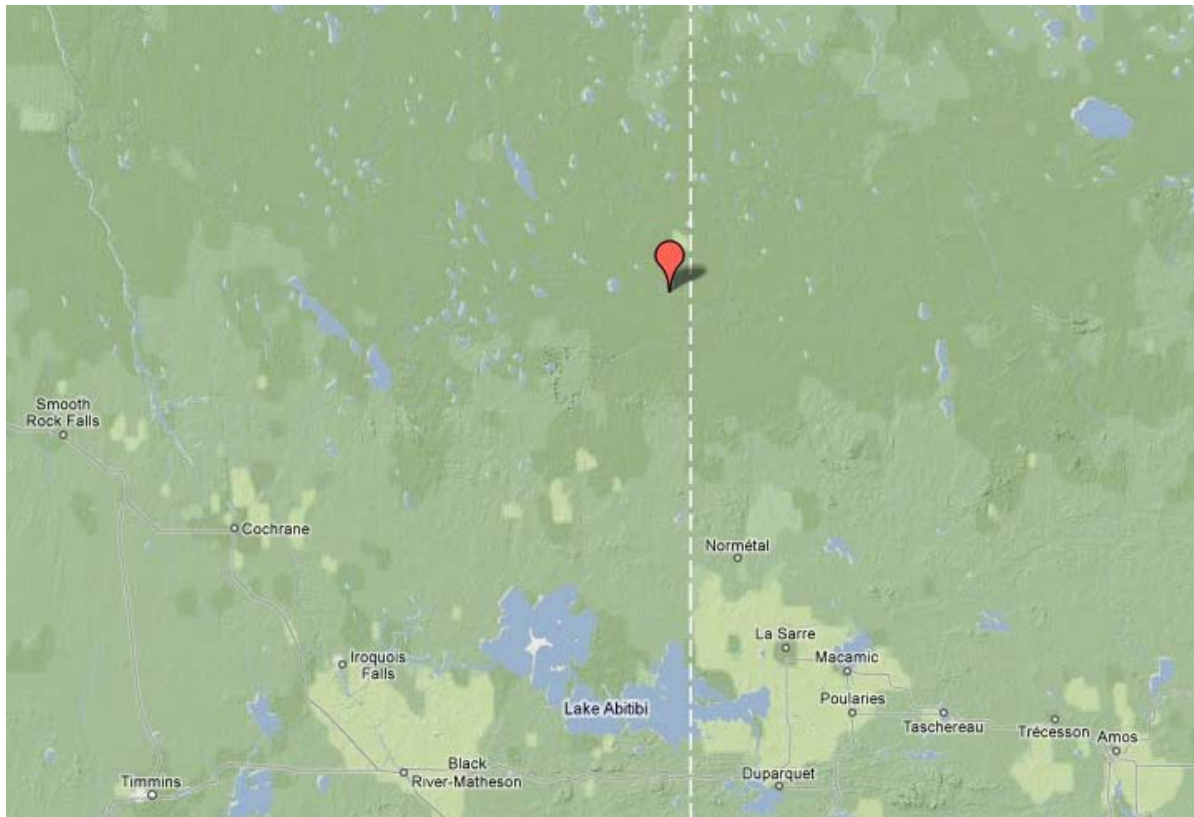

Figure 1: Location of the Bradette Property

1.4 ACCESS

The Bradette property was accessed by helicopter from the Expedition Helicopter Base in Cochrane, Ontario.

1.5 GENERAL GEOLOGY

A reconnaissance geological survey has been made in the area by R. Thompson, and published in the "Geology of the Burntbush River Area" - Ontario Department of Mines Forty-fifth Annual Report (1936) part VI, pp 49-70. Most of the outcrops were mapped along the drainage systems, and no outcrops were mapped within seven miles of the property. From his mapping to the south and west, there is a major Keewatin belt composed of acidic to basic volcanics with associated schists and gneisses which have an east-west trend. The rock formations have a vertical to steep dips. Granitic intrusive batholithic rocks lies on both sides of this Keewatin volcanic belt.

From an interpretation of the airborne magnetic maps the north contact between the granitic intrusive rocks to the north and the Keewatin basic volcanic belt lies approximately 2 miles south of Tonkin Lake. This magnetic high belt which could represent a N75E trending basic volcanic might also represent a more basic intrusive, such as diabase, gabbro or serpentinite but these would still be related to the same Keewatin belt. The isomagnetic lines trend NNE in the region around Tonkin Lake and are of lower intensity.

1.6 HISTORIC WORK

1965 – Newell – Magnetometer

1965 – Onshore Petroleums Ltd. – 2 Diamond Drill Holes

1987 – Noranda – Airborne Magnetometer

1987-1989 – Perrex Resources Ltd.- Airborne Mag/VLF with Compilation

1990 – Gwen Resources Ltd. and Perrex Resources Inc. – VLF and Geology

2011 – Tiger Gold Exploration Corporation – Magnetic/VLF

2012 – Tiger Gold Exploration Corporation – Magnetic/VLF

1.7 SURVEY AREA

The claim lines being rehabilitated are for claims numbered 4245988, 4245989 and 4245990, all located in Bradette Township, within the Larder Lake Mining Division.

2. SURVEY WORK UNDERTAKEN

2.1 PERSONNEL

Bruce Lavalley and Claudia Moraga of Britt, Ontario and Jason Ploeger of Larder Lake, Ontario, located and rehabilitated the claim boundaries.

2.2 PURPOSE

The rehabilitation was performed to further define the boundaries. Due to the harsh environment and previous forestry activities, the claim lines required rehabilitation.

2.3 SURVEY LOG

Date	Description	Total Rehabilitation (km)
May 25, 2015	Mobilize to Cochrane heli-base and mobilize to Bradette Township. Locate historic boundary and rehabilitate.	7.25
May 26, 2015	Helicopter grounded because of low ceiling. Demobilize back to Larder Lake	
May 28, 2015	Mobilize to Cochrane heli-base and mobilize to Bradette Township. Locate historic boundary and rehabilitate. Demobilize back to Larder Lake.	7.29

APPENDIX A

STATEMENT OF QUALIFICATIONS

I, C. Jason Ploeger, hereby declare that:

1. I am a professional geophysicist with residence in Larder Lake, Ontario and am presently employed as a Geophysicist and Geophysical Manager of Canadian Exploration Services Ltd. of Larder Lake, Ontario.
2. I am a Practising Member of the Association of Professional Geoscientists, with membership number 2172.
3. I graduated with a Bachelor of Science degree in geophysics from the University of Western Ontario, in London Ontario, in 1999.
4. I have practiced my profession continuously since graduation in Africa, Bulgaria, Canada, Mexico and Mongolia.
5. I am a member of the Ontario Prospectors Association, a Director of the Northern Prospectors Association and a member of the Society of Exploration Geophysicists.
6. I do not have nor expect an interest in the properties and securities of **Tiger Gold Exploration Corporation**.
7. I am responsible for the final processing and validation of the survey results and the compilation of the presentation of this report. The statements made in this report represent my professional opinion based on my consideration of the information available to me at the time of writing this report.

C. Jason Ploeger, P.Geo., B.Sc.
Geophysical Manager
Canadian Exploration Services Ltd.

Larder Lake, ON
June 5, 2015
