CLAIM # 4260097

2-57541

APR. 13-2015

MONDAY

ENTERED CLAIM # 4260097 @ 8:00 AM, cloudy day 10°
DAVE BURT AND Doug Bundy ENTERED claim AND trecked
NORTH AROUND Perimeter OF CLAIM. We were Looking AT
ROCK STRUCTURES LOCATING the QUARTZ VEINS with Minerals.
We GOT PARTWAY ACROSS the NORTH side OF the CLAIM
AND decided to head back to STARTING POINT @ 4:00.

APR. 14-2015

TUESDAY

Re-entered CLAIM # 4260097 AND cut across to the SPOT
we left yesterday AND Resumed Prospecting. We found
some outcrops with Quartz in Basalt AND gathered Sample
FOR INSPECTION.

APR. 15-2015

WED. Cloudy but NOT cold, Entered CLAIM # 4260097 AND
WENT to the N/E CORNER OF CLAIM AND RAN INTO Beaver
Flooding AND HAD to GO back thru CLAIM # 4274053 to
get to the corner. We gathered samples but found a lot
OF granite the further NORTH we WENT. came out @ 3:00

APR. 16, 2015

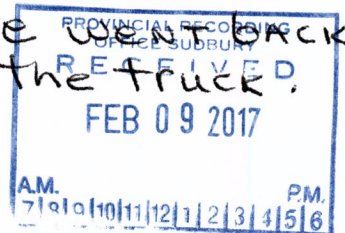

THUR. STILL Cloudy but 9°, so NOT cold. Entered CLAIM #
4260097 AND WENT ACROSS middle to the top N/W Corner
Looking AT outcrops AND QUARTZ Veins ALONG the way,
we did get the REST OF the NORTH line prospected today
AND will head South from the N/W post in the morning.

APR. 17-2015

FRI. Cloudy but warmer today, we went to the west side
OF CLAIM # 4260097 AND decided to split up with Dave
going NORTH AND Doug going South. We Agreed to meet
AT this SPOT in the AFTERNOON. DAVE RAN INTO water AGAIN
AND HAD to come back to my side. I found some nice
quartz samples from the outcrops AND we went back
to the starting point for the hike back to the truck.

APR. 18-2015

SAT. DAY OFF

DAY OFF

MON. APR. 20 2015

SUNNY DAY, Entered Claim # 4260097 AT the east side STARTING POINT AND headed South Finding many OUTCROPS IN this part with LARGE Quartz exposed, took Samples. WE GOT to the S/W Corner OF the CLAIM AND headed back before DARK.

TUE. APR. 21- 2015

SUNNY but cold wind. we entered Claim # 4260097 AND decided to go ACROSS the middle OF the CLAIM Look for Quartz AS we went, we gathered Several Samples AND decided to Continue the trek tomorrow

WED. APR. 22- 2015

Clear but colder We AGAIN entered Claim # 4260097 AT the usual STARTING POINT AND head to the spot we left OFF AT yesterday, we continued to find Quartz Veins AS we continued west. we gathered more Rock Samples AND head BACK OUT.

THURS. APR. 23- 2015

COOL 6° we decided to PARALLEL the same direction AS the Veins we had found to the NORTH to see if there are more to the South. we found more Veins AND gathered more Samples.

FRI. APR. 24 2015

COOL - we went to the spot we LEFT AT yesterday AND continued South trying to intersect the same Vein types we had found yesterday but did NOT find much ALTHOUGH we LOOK AT several OUTCROPS.

MON. 27, 2015

we went BACK to the Veins just west OF Claim # 4274053 AS they showed the most promise. we spent the day gathering rock samples just west OF the Showings AT the Stella Lake Showings.

TUES. 28 2015 (RAINY)

we continued to Criss-Cross the Claim 4260097 trying to Find A CONTINUATION OF the Stella Structure AND gathered more Samples.
