Returned claim We finally found a rock needs some overburden removed.

Sept 12th 2016 9-3
Clearing overburden off of Rock with Pick and shovel and are to cut Roots off. Is low going

2.57552

Sept 13th 9-2.

Cleaning overburden off New Showing look like a nice showing cleaned it up using Pick's tried to get a good sample. We need a chisel.

Sept 14th 9-3

Returned to site with slug Hammer and chisel we Proceeded to get some good samples -

Sept 15th 2016 9-2.

Went back to site We got a pretty nice sample. Returned to find my camp gone. Built to the ground lost everything I owned.

Sept 16th 2016.

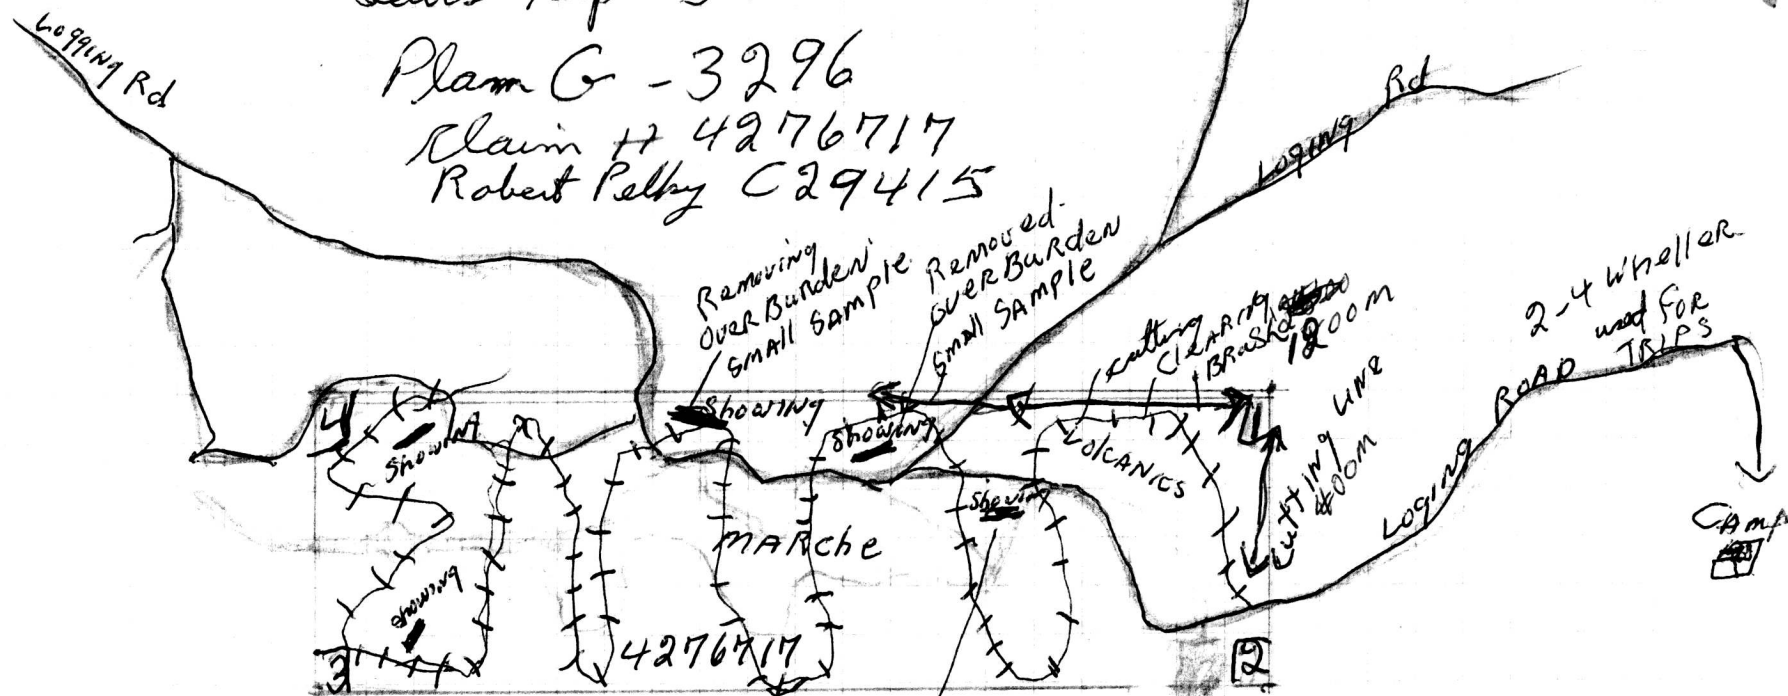

Reported to the OPP I didn't leave the camp with the stove on it blew up. Looks like someone doesn't want me here. I lost about \$200,000 in equipment. This will not stop me from Prospecting.
