2-57115

Day #1 August 9/16

Douglas Lalonde flag & compass lines for prospecting
Line #1 ON was spruce & balsam trees and swamp area
but at 8+75M north there is a shallow outcrop
took sample #1 it Tuff in Keewatin formation.
On line #1-N there was no outcrop found.
Work \$300. per day

Day #1 August 9/16

Gilles Allaire flag & compass lines for prospecting
Line #2N was spruce & balsam trees and swamp area
no outcrop was found.

Line #3N had outcrop at 7+50N it ^{Tuff} in Keewatin
formation its a large outcrop about 400' Long
and 275 ft wide and a few small outcrops near
the edge of the large outcrop. See attached maps.
Work \$300. per day Sample #2 was taken.

Day #2 August 10/16

Douglas Lalonde flag & compass lines for prospecting
Line #4 was spruce & balsam trees and swamp area
a outcrop was located at 200M north it is a qtz.
feldspar porphyry outcrop its about 200' x 250'
Sample #4 was taken very little pyrite in sample
On same line sample #3 was taken which was in
Tuff Keewatin formation few specks of pyrite
tight formation located at 7+25N see attached maps.
Worked \$300. per day

Day #2 August 10/16

Gilles Allaire flag a compass lines for prospecting line #7N was spruce & balsam trees and swamp area. no outcrops was found on this line. On line #6N outcrop was found at 200M north its 250' long and 200' wide and there is a few small outcrops on the south east end of the large outcrop. The outcrops are qtz feldspar porphyry with very little pyrite. sample #5 was taken see attached maps. for location. Work \$300. per day

Day #3 August 11/16

Douglas Lelonde flag a compass lines for prospecting line #8N flat swamp area spruce & balsam trees no outcrops was found line 9N no outcrop was found all swamp area. Work \$300. per day

Day #3 August 11/16

Gilles Allaire flag a compass lines for prospecting no outcrops was found on Lines #10, #11, #12 North its was spruce & balsam trees some cedar and all swamp area the whole claim see attached maps. Work \$300. per day

Days Work prospecting from No. 0379 - P. 10:016

Douglas Lalonde worked 3 days x \$300. per day \$900.
 Gilles Allaire worked 3 days x \$300. per day \$900.

Food & drinks at \$30. each per day \$180.00
 for 3 days each man

Travel 25 KM one way total 50 KM round
 trip from Timmins x .50 \$ KM for 3 days \$75.00

Write report and daily Log
 Make maps photo copying etc
 2 men x \$300. each man for 1 day

Total

\$600.00
 \$2,655.00

report on claims 4277637, 4270112
which was prospected from August 9-11/2016

There was outcrops located on claim #4277637.
Samples taken #1, #2, #3 was in Tuff in the
Kestwair rock formation the 3 samples had
very little pyrite. The outcrops was very tight
formation with no faulting or shearing in the
outcrops. See location sheets attached.

There was also sample #4, #5 taken which was
in a ^{Qtz P.L.} feldspar porphyry which had a few
small veins of Qtz put only few specks of
pyrite in the outcrops and the samples taken.

The 5 samples was taken to the geologist
Bill MacRae for him to look at and
he advised us not to waste money on
assaying them he said that they properly
won't carry any gold because he did work
in this area years ago and they never had any
gold in the samples they took.

Prospecting Lines compass and flag Lines
Line # 0

A photograph of a person in a forest, wearing a black cap, a black long-sleeved shirt with a red stripe on the sleeve, and grey pants. The person is leaning over, reaching into a dense thicket of branches and foliage. The ground is covered with moss and fallen leaves. The background shows more trees and a forest setting.
