Work Report on Claim #4275050

2-56460

Day #1 August 20/15

Gil Allaire did 3 lines ^{GPS} 0, 100, 200 NS Lines which was sand and gravel with plantation of pine trees about 20 years ago. No outcrop was found.

Day #1 August 20/15 ^{GPS}
Douglas did 3 lines 300, 400, 500 NS Lines which was sand and gravel with new trees about 20 years ago.

Located outcrop near Line #300 ^{GPS} rock location

it is andesite & fragmental rocks with few specks of pyrite didn't take any sample.

Line 400 ^{GPS} found a large outcrop which I took a sample ^{#3} it was the andesite & fragmental volcanics it had a few small veins and some pyrite it all sand and gravel in the area some new pine trees.
Line 500N didn't find any outcrop sand & gravel.

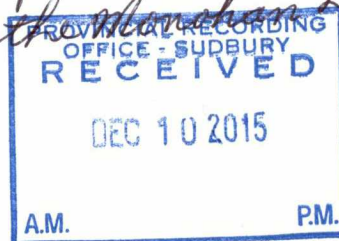

Day #2 August 21/15

^{GPS}
Gil Allaire did line #600N found 2 small outcrops they are andesite & fragmental volcanics with sand & gravel area and pine trees. Didn't take a sample.

Line 700 ^{GPS} Located outcrop with quartz and lots of sulphides took a sample ^{#2} it was in the ultra mafics ^{GPS} location on the map attached

Day #2 August 21/15

^{GPS}
Doug did line #800N took sample #1 which was in the ultra mafic and it had lots of sulphides with a few quartz veins outcrop north of the Marchan Lake ^{GPS} location on the map attached

Claim 4275050 sample report

Sample #1 was taken north of Monohan Lake from a outcrop which is a ultra mafic formation it had some pyrite small amount of Cu, Pd, Zn in it very little gold it is near the contact fault.

Sample #2 has small quartz veins lots of sulphides the rocks are ultra mixed with the volcanics it is on the contact near the fault zone which shows on the geo map. The sample carried gold copper.

Sample #3 was andesite & fragmetal lava it wasn't very interesting didn't run in gold.

(Report)
This property would need lines cut and do the mag, VLF and the IP survey it is in a very good location with a major ~~fault~~^{FLZ} fault running threw the property. It would be good to drill near this fault zone because to the South East about 1 Km there is the small gold deposit which was drilled by Placer Dome before it had 50,000 tons .30 gold and the gold zone is still open in all direction yet. It was drill about 35 years ago. Placer Dome had it they didn't do no work. It is owned by Goldcorp now. This is why I like this area for gold Douglas Lalonde.
