

Recutting of claim lines on claim 1249877

2-56608

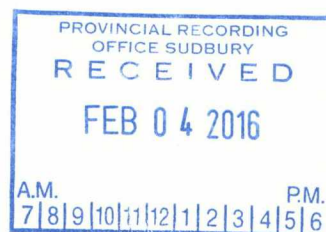

On October 25 2015 and again on November 8 2015, I performed the task of recutting the claim line of claim 1249877 located in the townships of Gervais, Olingk, Fauvult and Monestine in the district of Sudbury in Ontario. The claim is best accessed by traveling west of Sudbury on highway 17 to the town of Webbwood. From there travel north on Lake Agnew Road to what is known as the West Branch Road. Follow it approximately 85 kilometres North. At this point is the 87 kilometre marker which is the distance to Ramsey. Travel west on an old timbering road approximately 200 metres. The claim line intersects this road. The Number 2 post is approximately 50 metres north of this road. This area was mostly clear cut in 2000. It is now extensively regrown with jackpine 15 to 20 feet tall.

On October 25 2015 I started recutting at the #4 post and traveled to the #3 post and then to the #2 post. I returned on November 8 and started at the #4 post and made my way east to the #1 post and then to the #2 post. A chainsaw was used to cut a walkway through a number of large blown down trees, branches and under brush. Trees were blazed on both sides in the direction of travel and branches and obstructions removed. Approximately 1600 metres of claim line was blazed, flagged or cut. The work was performed over the two days.

Oct 25 2015 2 hours travel 330 Kilometres home to claim and return. 8 hours recutting
Nov 8 2015 2 hours travel 330 Kilometres home to claim and return 7 hours recutting
Feb 2016 1.5 hours travel 160 Kilometres home to Ministry return 2 hours complete report.

Chain saw rental \$35.00 x 1 day.

Lunch \$5.00 x 2 day.

Signed by Mark Ardiel

Sketch

Please complete sketch in ink.

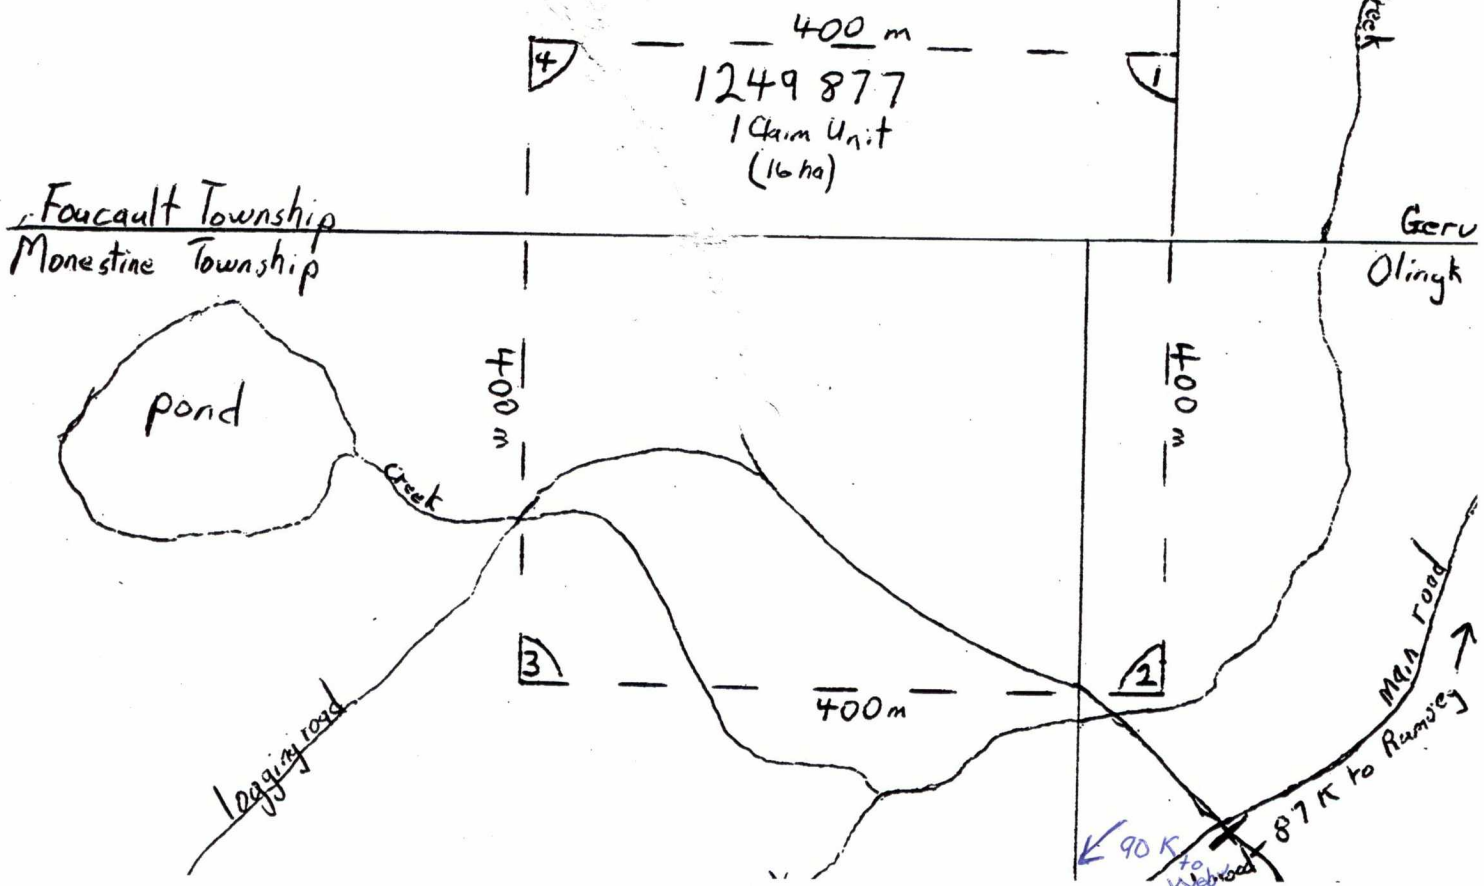

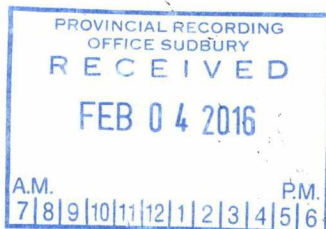

- Where applicable, the items indicated on the sample sketch on Part B must be shown.
- **Group Sketch** of claims listed on Part A. Sketch or plan of the mining claim(s) must show the corner posts, witness posts, and line posts, and the distances between the posts in metres.
- Include topographic features such as lakes, rivers, creeks, ponds, etc. and developments such as hydro lines, highways, railways, pipelines, buildings, etc. as shown on sketch in Part B.
- Refer to sample sketch on Part B.
