Summary

Prospecting of the Ashley Property was carried out between September 12th and 16th, 2015. On September 14th a site visit was accommodated by the property holders to Matachewan First Nation representatives.

Results of the prospecting program sampled a syenitic feldspar porphyry body in the northwestern extent of the property that assayed a detectable gold value. Continued investigation of this geological unit is recommended.

Location and Access

The Ashley Property is located approximately 20 kilometres west-northwest of Matachewan, Ontario (Fig. 1). It is accessed by taking all-weather gravel surface Highway 566 west from Matachewan for about 22 kilometres to a point where the east boundary of the property crosses the gravel highway proximally west of Wilson Lake. Both Hwy 566 and Wilson Lumber Road transect the property (Fig. 2).

Figure 1: Location Map

Property Description

The Ashley Property is comprised of 25 unpatented mining claims totalling 92 claim units or approximately 1,472 hectares. All but claim No. 4271249 are contiguous. The property is situated in parts of Argyle, Bannockburn and Montrose Townships. The property is jointly and equally held by David Lefort, Jacques Robert, Andrew McLellan and Randall Salo. Table 1 below provides a description of the mining claims.

Table 1: Claims Description

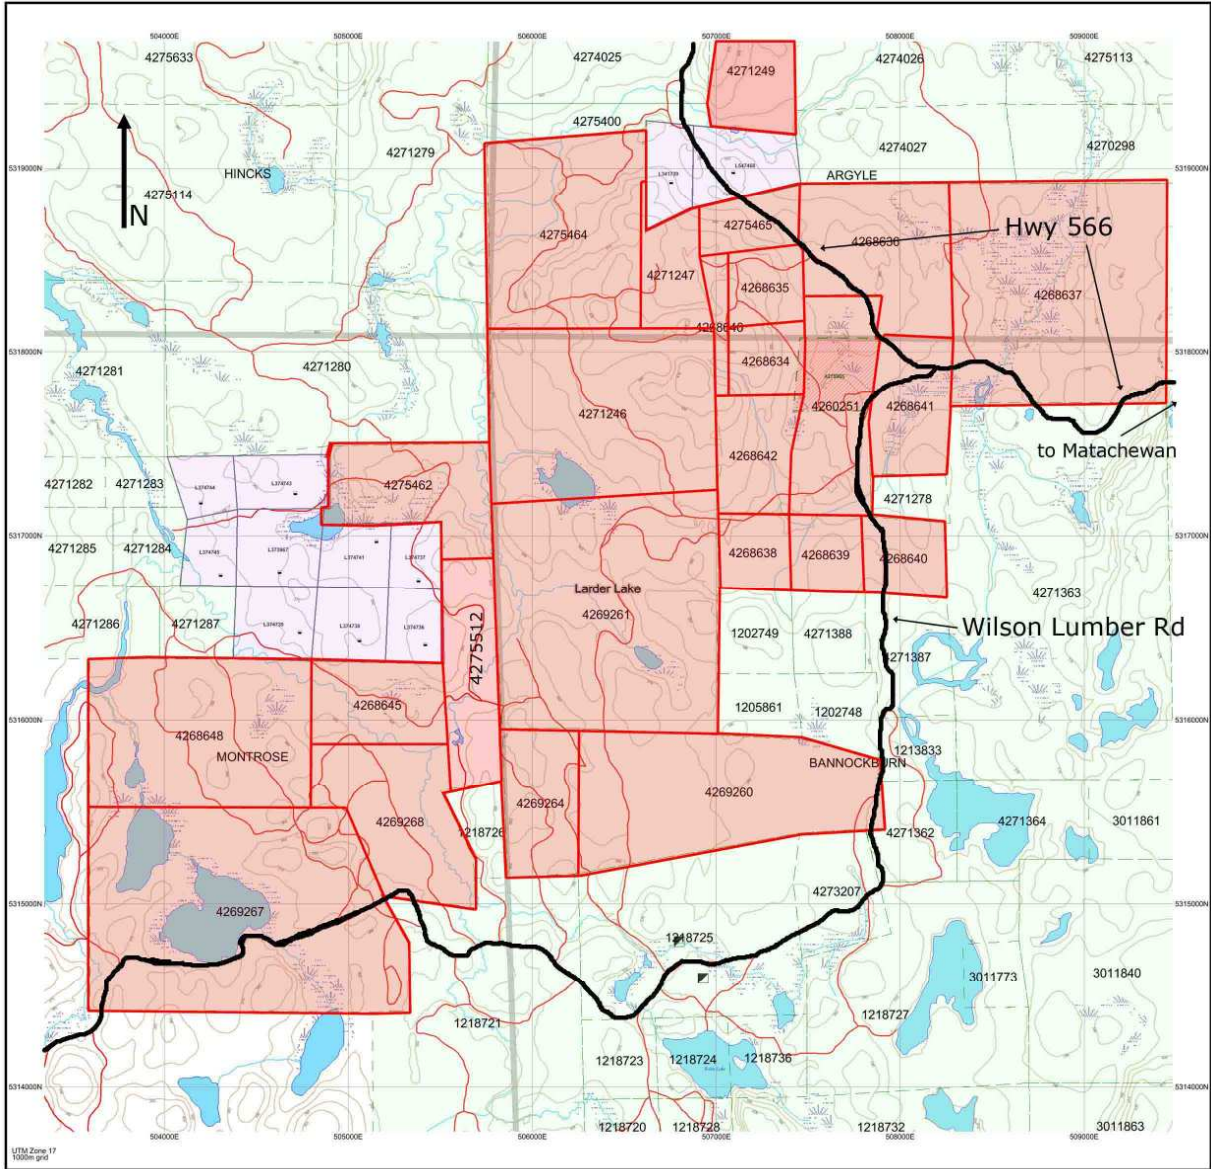

Figure 2: Property Map

First Nation Consulting and Elder Site Visit

On July 15, 2015, Cathy Yandeu, Mineral Development Advisor for Matachewan First Nation (FN) contacted the claim holders (Prospectors) to advise us that she had received our Permit application PR-15-10739. A meeting was soon after arranged for 1:00 pm on August 6th at Wabun Tribal Council (Wabun) office in Timmins. Prior to the meeting a draft Memorandum of Understanding (MOU) was emailed to the Prospectors. The Prospectors negotiated with Wabun on terms presented in their draft MOU and expressed their concerns in person on August 6th at the Wabun office.

Those present at the August 6th meeting were as follows:

Stephanie Labelle: Mineral Development Advisor, Wabun Tribal Council

Jason Batise: Advisor, Wabun Tribal Council

Andrew McLellan: Prospector, Toronto

David Lefort: Prospector, Timmins

Shelly Moretti: Prospector, Porcupine

Randall Salo: Prospector, Porcupine

Negotiations continued until September 2nd when the prospectors agreed on reasonable terms and Randall Salo met with Stephanie Labelle at Wabun office in Timmins to sign the MOU on behalf of the Prospector group. On September 4th Wabun forwarded their support letter to the Ministry of Northern Development and Mines. Chief Batise of Matachewan FN signed the MOU on September 8th and a permit was received by the Prospectors on September 15th.

On September 3rd an email was received from Cathy Yandeu asking for an Elder site visit. September 14th at 1:00 pm at Wilson Lake, Argyle Township was agreed upon.

Those present at the September 14th Elder site visit were as follows:

Cathy Yandeu: Mineral Development Advisor, Matachewan First Nation

Lilian Michaud: Elder, MFN

David Lefort: Prospector, Timmins

Shelly Moretti: Prospector, Porcupine

Jacques Robert: Prospector, Porcupine

Randall Salo: Prospector, Porcupine

The prospector's met Matachewan FN representatives at Wilson Lake on Hwy 566. Cathy and Lilian joined Randall Salo in the ATV and together the group drove through the property along tertiary roads including the historic Ashley Mine site area.

First Nation Consultation Summary

June 6 th :	Permit application submission
July 15 th :	First Nation initial contact
August 4 th :	Re-apply for permit due to claim number change
August 6 th :	First Nation Meeting
September 2 nd :	Prospectors sign MOU
September 3 rd :	Matachewan FN asks for Elder site visit
September 4 th :	Wabun Tribal Council sends support letter to MNM
September 8 th :	Chief Batise of Matachewan FN signs MOU
September 14 th :	Matachewan FN Elder site visit
September 15 th :	Permit received from MNM

First Nation Consultation Conclusions

It can only be concluded from the Permit/First Nation Consultation experience that First Nations efforts were not the impeding aspect of the process. It should be noted that the Prospector's private financier backed out due to the lengthy time period that it took to receive an Exploration Permit. The Prospector's continue to search for a suitable explorer to advance the property, although, the prospecting season is near its end.

Prospecting Program

The prospecting program subject to this report occurred from September 12th -16th, 2015. Prospecting was carried out in close proximity by Randall Salo, Jacques Robert and Shelly Moretti using Geotuls and axes. Accommodations were rented at Argyle Lake Lodge and a Polaris Ranger 6X6 was used for transportation from the lodge located northeast of the property. In total, 6.5 km of traverse was walked and 10 rock grab samples were taken and sent for assay at Bureau Veritas Laboratories in Timmins for analysis of their gold content by fire assay method. One sample was additionally assayed for platinum and palladium by ICP method.

Prospecting Results

Prospecting results displayed only two anomalous/detectable gold assays (samples 15223 and 15243-44) and one detectable palladium assay (sample 15244). Concentrations are well below economic interest, however, a detectable gold value within a feldspar porphyry body in the northwestern part of the property merits further investigation of this felsic intrusive.

Recommendations

Continued investigation in the area hosting the feldspar porphyry syenite unit is recommended.

Sincerely,

A handwritten signature in black ink that reads "Randall Salo". The signature is written in a cursive style with a large initial 'R' and a distinct 'S'.

Randall Salo, P. Geo

October 6, 2015

APPENDIX

Statement of Qualifications

I, Randall W. Salo of 800 Gervais Street North, Porcupine, Ontario do hereby certify that I:

- am a graduate of Lakehead University with an Honours Bachelor degree in Geology/Physics (1998).
- have been involved and working in mining exploration for more than 30 years in Canada, Mexico and Asia.
- am a member of the Association of Professional Geoscientists of Ontario with member number 1265.
- have included in this report all relevant data derived from both private and public sources.
- have been physically on the property and have expressed personal opinions in this report.
- hold an interest in the property that is subject to this report

Sincerely disclosed,

A handwritten signature in black ink that reads "Randall W. Salo". The signature is written in a cursive style with a large initial 'R'.

Randall W. Salo, P.Ge

October 6, 2015

DAILY LOG

September 12th:

- Mobed to Argyle Lake Lodge
- Used ATV to access claim 4275464
- Traversed south to SW corner of claim 4275464
- Sampled a "float" rock sample on east side of the Whitefish River
- No outcrop observed during traverse, mainly low lying terrain, mixed forest, sandy clay overburden

September 13th:

- Used ATV to access claim 4275464
- Crossed river and traversed NW to boundary of claim 4275464
- Collected several rock samples, mixed forest, clay overburden

September 14th:

- Matachewan First Nation Elder site visit

September 15th:

- Took ATV to a point 400 metres north of the No. 3 post of claim 4278637
- Traversed north to No. 4 post area and returned to ATV
- Spruce/jackpine forest, sandy overburden

September 16th:

- Traversed north to 400 metres south of No. 4 post of claim 4268637, traversed east through swampy area to investigate magnetic high anomaly near the centre of claim 4268637 at sample location, then south to Hwy 566, mixed forest, sandy clay glacial morain
- Demobed back to Porcupine

FIRST NATION CONSULTATION COSTS

Days Negotiating

July 15th – August 5th: Randall Salo 2 days total of negotiations by email/phone

August 6th: Randall Salo, Shelly Moretti, David Lefort, Andrew McLellan; 4 man days

August 7th – September 1st: Randall Salo 2 days total of negotiations by email/phone

September 2nd: Randall Salo 1 day – sign MOU

September 14th: Randall Salo, Shelly Moretti, David Lefort, Jacques Robert; 4 man days

Travel

August 6th: 720 km; Matachewan-Timmins return; Salo, Robert, McLellan, Lefort

September 2nd: 40 km; Porcupine-Timmins return

September 14th: 360 km Lefort to Property return, ATV for tour

Day Summary

Salo:	7 days
McLellan:	1 day
Lefort:	2 days
Moretti:	2 days
Robert:	1 day

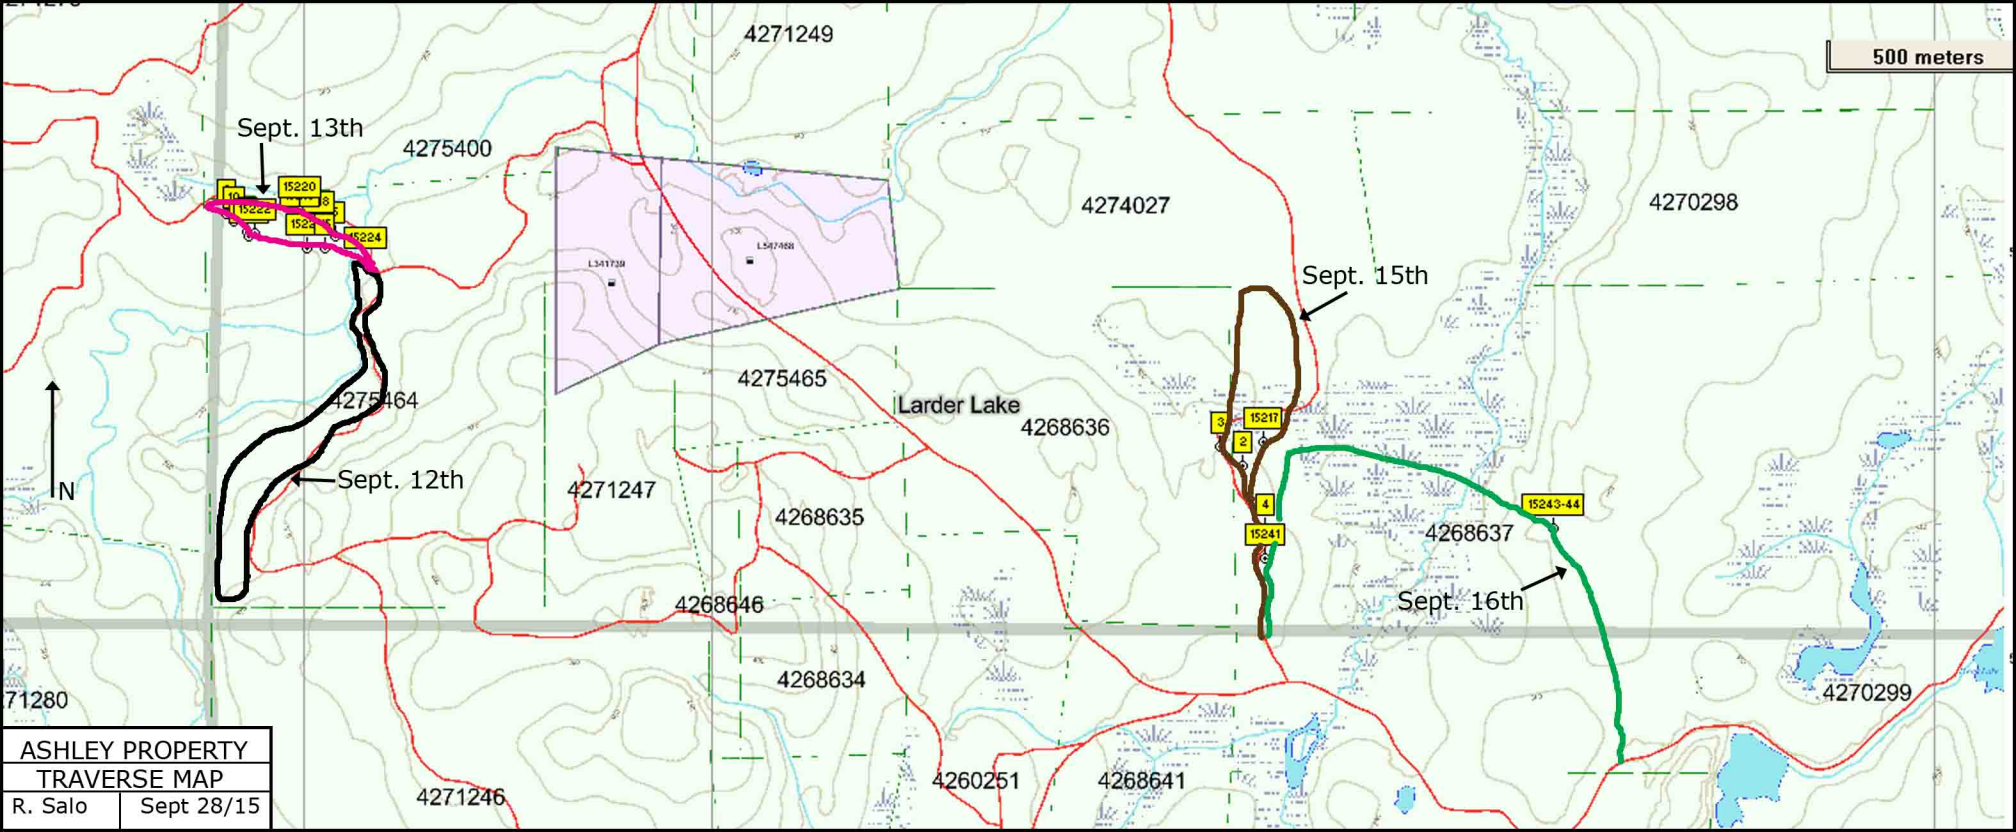

Travel Summary

Truck: 1,120 km

ATV: 1 day

Re: Prospecting Report titled "Prospecting Report on the Ashley Property, Bannockburn and Argyle Townships, Larder Lake Mining Division".

I, Shelly Moretti of 800 Gervais Street North, Porcupine, Ontario do hereby certify that I was prospecting on the Ashley property from September 12th-13th and 15th-16th, 2015 as described within the aforementioned report. I was also present during the Matachewan First Nation Elder Site Visit on September 14th, 2015.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Shelly Moretti', with a stylized flourish at the end.
