Job: Aylmer

Date: November 9, 2014

Picked up Tom in Capreol and travelled up to Aylmer to do GPS on posts for 4216910 and 4216909 and prospect out crops. Heavy snow during afternoon. Found out that logging road destroyed #4 post for 4216910 but left #3 for 4216909. Very little outcrop but ridges were of fresh gabbro – no sulphide.

Party Chief: Fred Delabbio

Preamble

We went onto claim 4216910 for two purposes, to prospect and map and take photos of claim posts. Access was via an old bush road off the main Poupore Road. Most of the outcrop was of a fresh gabbro with no sulphides visible. There is very little outcrop and the higher land is pine with mixed forest on the slopes. The swamp was grassy with little water. The outcrop on the eastern portion of the traverse was grey wacke.
