Job: Aylmer

Date: May 14, 2016

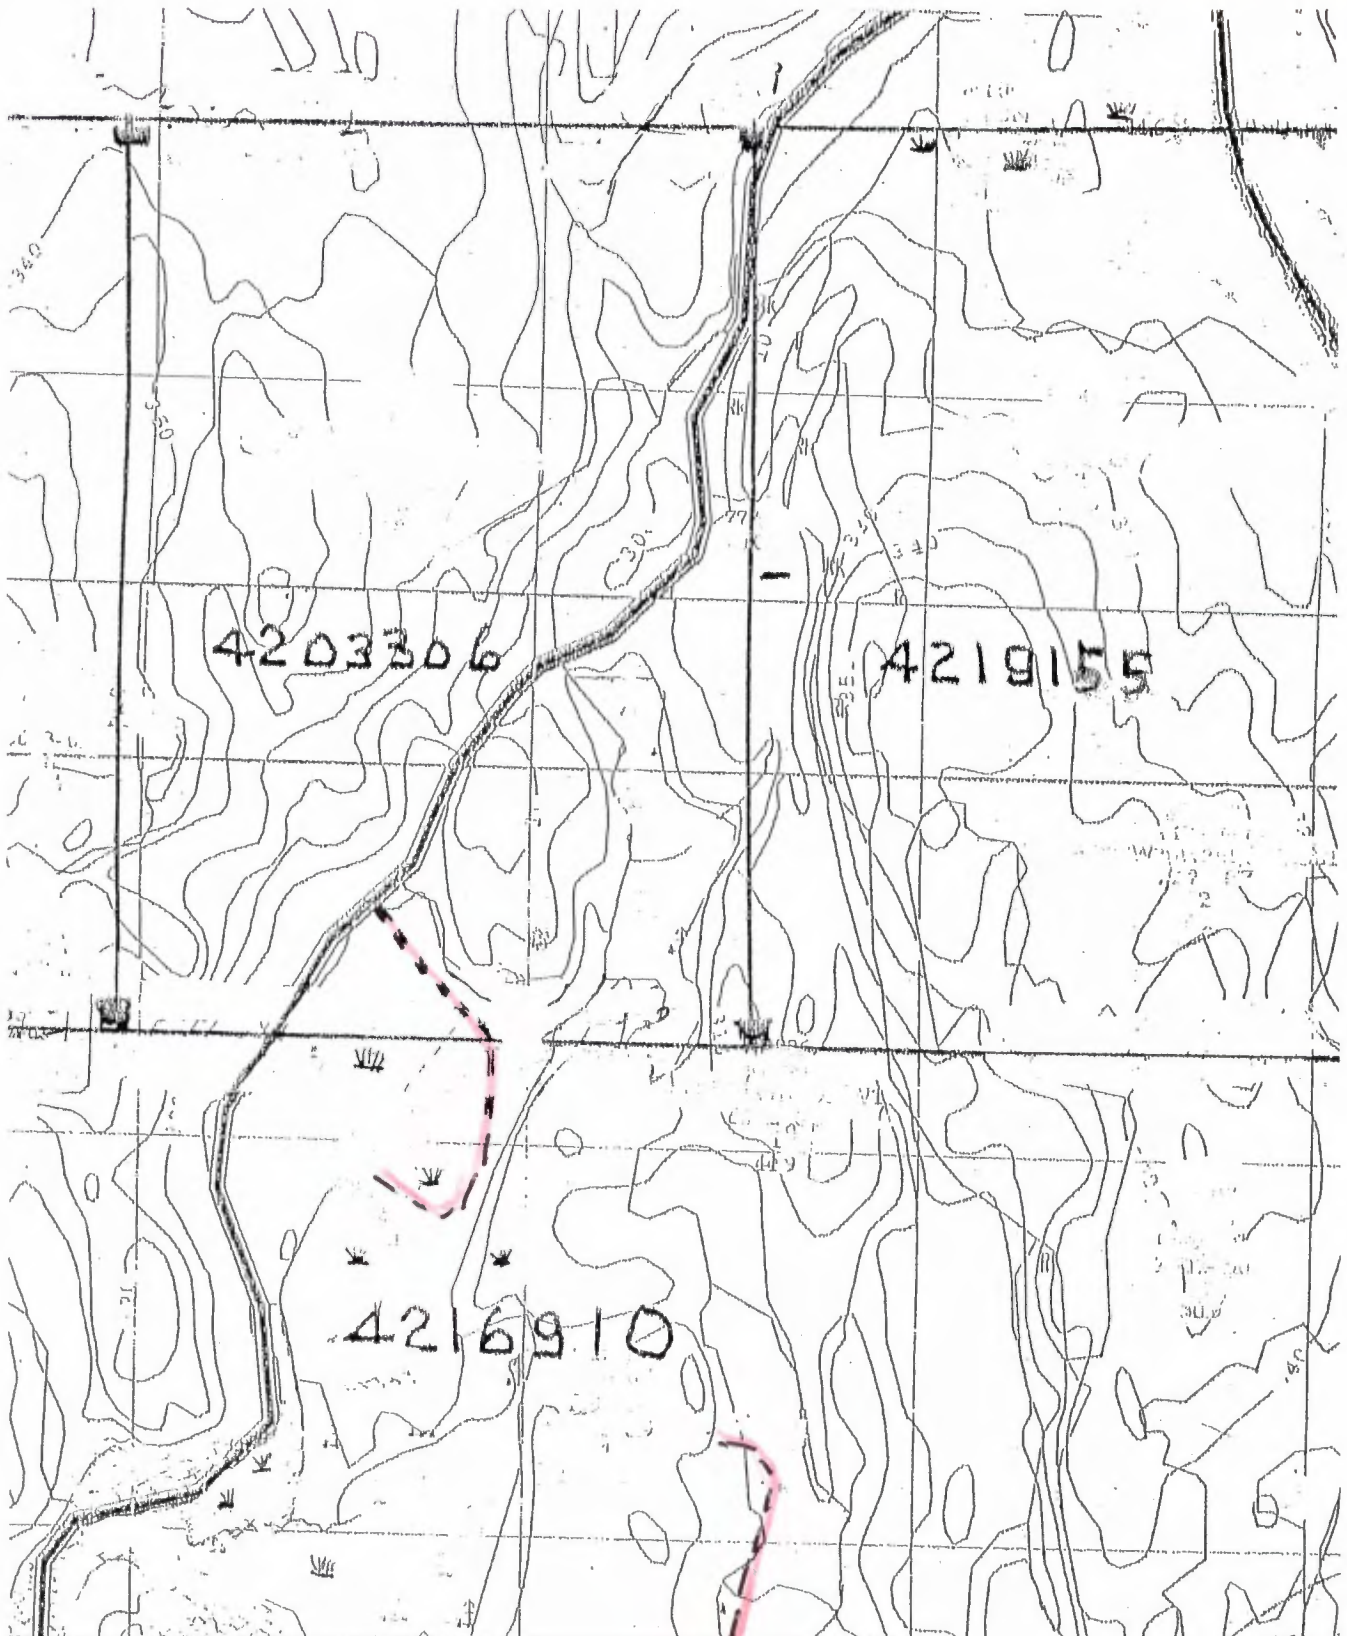

Dr. Cortin & I went up to map the new area opened up by Gervais Lumbering strip cutting in the fall of 2015. We GPS the new road in the south central part of claim 4203306 and into the north central part of claim 4216910. The road work exposed a large quartz/quartz breccia outcrop as well some large quartz erratics. I took pictures of both items. We discovered a new road from the southern area that gives us access to the middle of claim 4216910.

PREAMBLE

Cr. Cortin and I went up to Aylmer Township to GPS the cut road put onto claims 4203306 and 4216910. While mapping in the road, we discovered two large quality float pieces (pictures attached). We will return and prospect this area and see if we can determine where they came from. We also mapped in a new southern cut road to 4216910. The google maps with the cut roads are attached.
