Project and Location to Property

Location: Claim S0 3006595 is located 12.5 km. North of Tweed Ontario. Elzevir Township, Ontario, Canada. Southern Ontario District (See Claim Map 1)

Directions: The property is located 12.5 km. north of Tweed Ontario(Hwy 37) and travels north on Hwy 37 for 8.5 km. to Hwy 7, turn right going east onto Hwy 7, turn left onto the Flinton Road continue north the survey area starts, at the second bend, at the top of the hill .

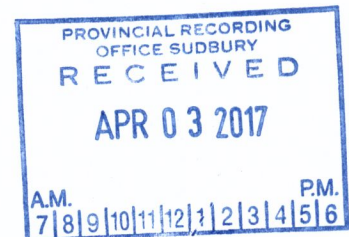

I Diane Milligan , prospected this claim # S0 3006595 from prospecting to collecting samples, from March 17/18/19, 2016 and June 6/7, 2016. Over the five days, 50 samples were collected and taken to the tweed regional mining office , for further inspection under the microscope , at this time , I have not found any samples, to contain any sulfide's and are completely lacking of important indicator minerals for testing. The entire survey area consist of several knobs of mafic intrusive rocks and a small area in the northern quarter that consisted of quartz- plagioclase- biotitic- amphibole gneiss black to dark grey weathering. At this time my effort and work on this unit recommends no further investigation of this particular claim.

Prospecting and Sampling: 5 days @ \$300.00/day = \$1500.00

Travel Expenses: 5 days @ 25 km. = 125 km. @ .50 km =\$ 62.50

Report Writing: 1/day @ \$300.00 = \$ 300.00

Total Cost = \$1862.50

Thank You

Diane Milligan

46	316055/4936886	hard/black/shiny
47	316058/4936796	hard/black/shiny
48	316975/4936900	hard/black/shiny
49	316990/4936786	hard/black/shiny
50	316110/4936716	hard/black/shiny
51	316036/4936665	hard/black/shiny

There are a lot of outcrops on this claim and although I observed many , I Diane Milligan only took 51 samples .

Thank You  
Diane Milligan
