1	Assay Certificate

INTRODUCTION

The following report will deal with the results of preliminary mapping and prospecting program carried out on the West Cobalt Properties. The properties are made up of three single cell claims located in Hyman, Nairn and McMahon Townships. This work was carried out by Vision Exploration from June 20th to June 22nd, 2019.

The purpose of this program was to locate and sample three previously reported mineral showings. Each of these showings were said to contain anomalous values in cobalt.

This report will deal with the results of the prospecting program mentioned above.

LOCATION AND ACCESS

The Cobalt West Project is made up of three separate work areas.

Access to the Nairn claim is gained by taking Hwy 17 west from the city of Sudbury to Wabagishik Lake Road, located just east of the town Nairn Centre. This road provides access to within 200m of the claims north boundary.

Access to the Hyman Twp. Claim is gained by taking Hwy 17 west from the city of Sudbury to Sand Bay Road, which located just west of the town of Nairn Centre. This road provides access to within 1km of the claim.

Access to the McMahon claim is gained by taking Hwy 17 west from the city of Sudbury to Hwy 638N. Travelling north on this Hwy, it eventually turns into Poplar Dale Road, and then Stuart Lake Road. This route provides access to the subject claim.

PERSONNEL

The following people were directly involved in carrying out the mapping and prospecting.

Steve Anderson	Geological Technologist	Timmins, Ontario
Glenda Smith	Prospector	Timmins, Ontario

PREVIOUS WORK

This is the first phase of work to be carried out by the current claim holder. A search of the assessment files provided information that anomalous values in cobalt were reported by previous operators

CLAIMS

The three unpatented, single-cell mining claims that make up the West Cobalt Project are listed below. All claims are registered in the name of Steven Anderson

<u>Recorded Holder</u>	<u>Claim#</u>	<u># of cells</u>	<u>Township</u>
Steven Anderson	318789	1	McMahon Twp.
Steven Anderson	112091	1	Hyman Twp.
Steven Anderson	214048	1	Nairn Twp.

WORK PROGRAM

The work program involved conducting preliminary prospecting traverses in the general area of the reported showing in an attempt to locate the old workings

SAMPLE LOCATIONS

2232	Nairn Twp.	456294mE/5130143mN	Gabbro with 20% sulphides
2233	Nairn Twp.	456297mE/5130420mN	Gabbro with 10% sulphides
2234	Hyman Twp.	452630mE/5135045mN	Gabbro with 10% sulphides
2235	McMahon Twp.	287950mE/5159799mN	Nippissing diabase, quart carbonate with malachite

SURVEY RESULTS

Old workings were found on all three of the subject claims. A total of 4 samples were taken from the properties. The assays can be found as an attachment to this report. Anomalous vales were obtained with values up to 756ppm Co, 7040ppmCu and 5550ppm Ni.

RECOMMENDATIONS AND CONCLUSIONS

As described under the results, this work located the old workings which were the focus of this work program.

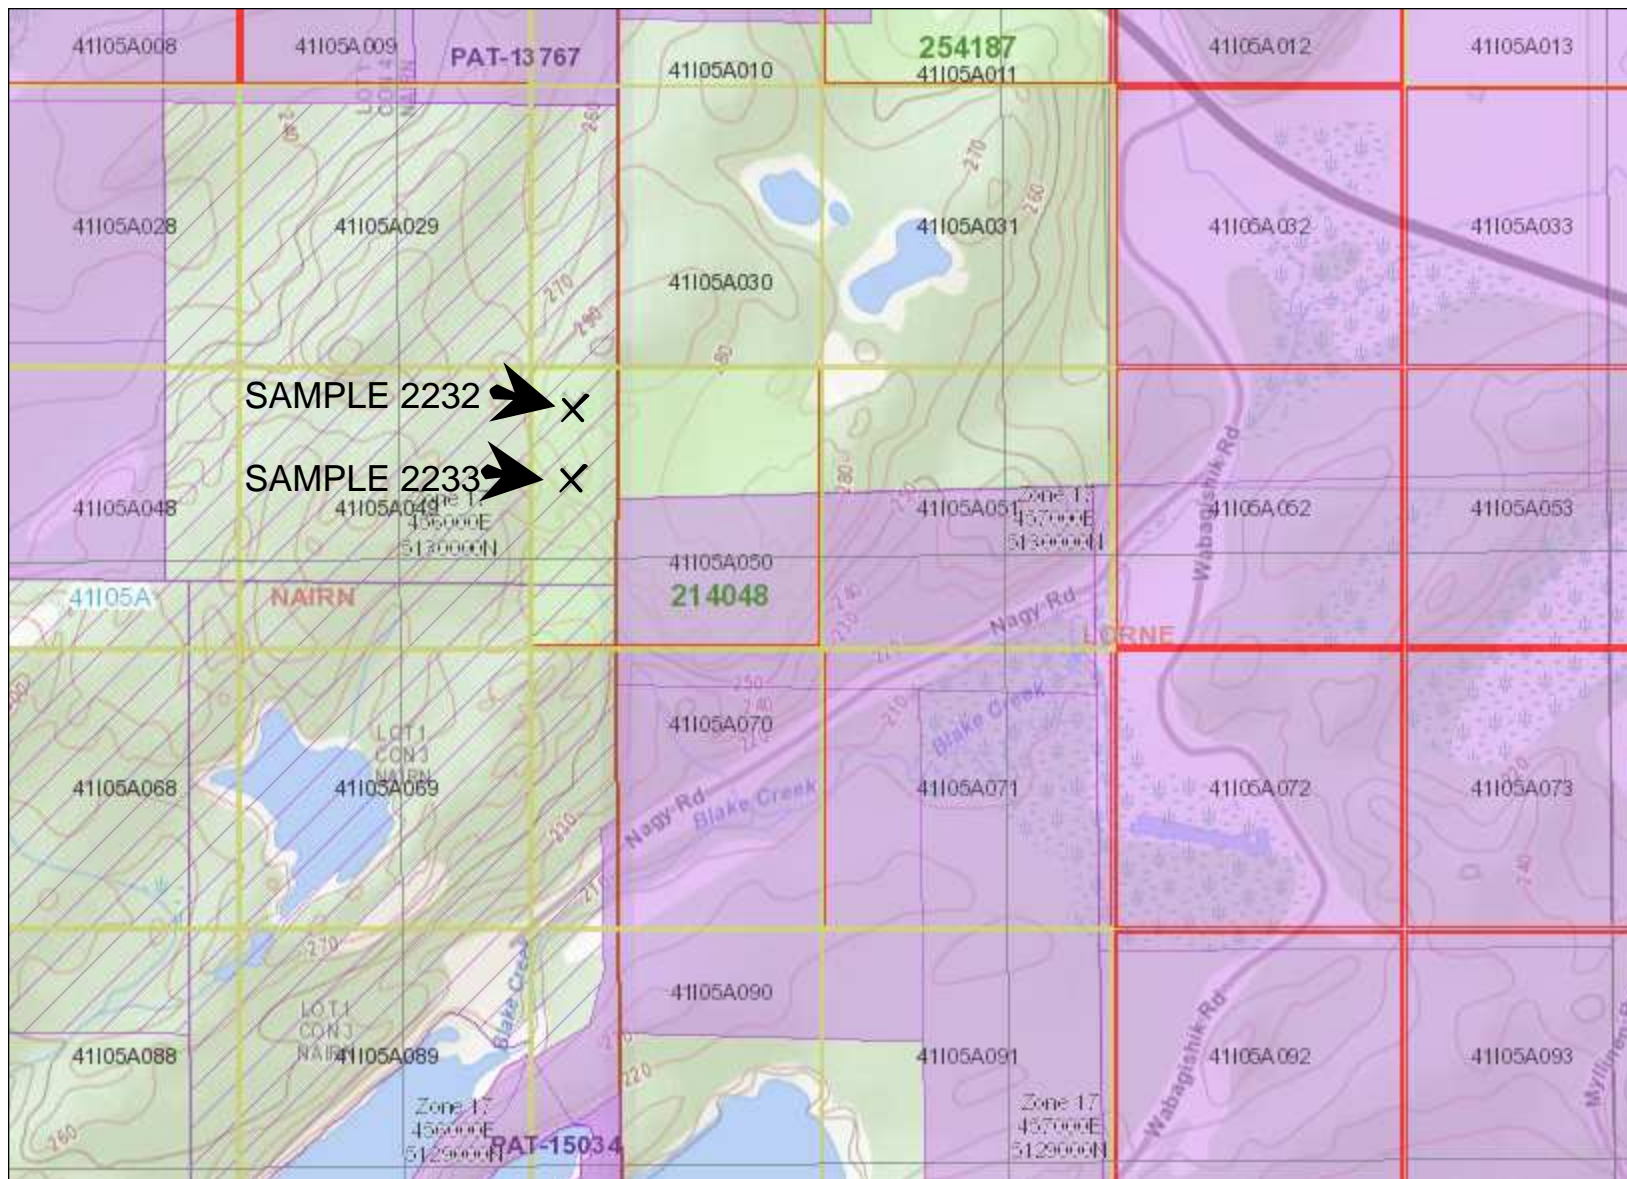

As a result of the encouraging results, additional prospections should be carried out over the remainder of the claims. Magnetometer and EM surveys should also be considered.

CERTIFICATION

I, Steve Anderson of Timmins, Ontario hereby certify that:

1. I hold a three-year Geological Technologist Diploma from Sir Sandford College, Lindsay, and Ontario, obtained in May 1981.
2. I have been practising my profession since 1979 in Ontario, Quebec, Nova Scotia, New Brunswick, Newfoundland, NWT, Manitoba, Saskatchewan and Greenland.
3. I have been employed directly with Asamera Oil Inc. Urangellschaft Canada Ltd. Nanisivik Mines Ltd., R.S. Middleton Exploration Services Ltd., Rayan Exploration Ltd and I am currently co-owner of Vision Exploration.
4. I have based conclusions and recommendations contained in this report on knowledge of the area, my previous experience and on the results of the fieldwork conducted on the property during July 2019.
5. I hold a 100% interest in the subject claims.

Dated this 15th day of October, 2019
At Red Lake, Ontario.

CERTIFICATE SD19155331

This report is for 4 Rock samples submitted to our lab in Sudbury, ON, Canada on 26-JUN-2019.

The following have access to data associated with this certificate:

STEVE ANDERSON

SAMPLE PREPARATION

ALS CODE	DESCRIPTION
WEI-21	Received Sample Weight
LOG-22	Sample login - Rcd w/o BarCode
CRU-QC	Crushing QC Test
PUL-QC	Pulverizing QC Test
DISP-01	Disposal of all sample fractions
CRU-31	Fine crushing - 70% <2mm
SPL-21	Split sample - riffle splitter
PUL-31	Pulverize split to 85% <75 um

ANALYTICAL PROCEDURES

ALS CODE	DESCRIPTION	INSTRUMENT
ME-ICP61	33 element four acid ICP-AES	ICP-AES
PGM-ICP23	Pt, Pd, Au 30g FA ICP	ICP-AES

This is the Final Report and supersedes any preliminary report with this certificate number. Results apply to samples as submitted. All pages of this report have been checked and approved for release.
