**CERTIFICATE TM19303431**

Project: Golden Perimeter  
 P.O. No.: GP-280A-6  
 This report is for 9 Drill Core samples submitted to our lab in Timmins, ON, Canada on 29-NOV-2019.  
 The following have access to data associated with this certificate:

|                |              |              |
|----------------|--------------|--------------|
| IAN DUNLOP     | DARWIN GREEN | NEAL MAGUIRE |
| CONOR MCKINLEY |              |              |

| SAMPLE PREPARATION |                               |
|--------------------|-------------------------------|
| ALS CODE           | DESCRIPTION                   |
| FND-02             | Find Sample for Addn Analysis |

| ANALYTICAL PROCEDURES |                                 |            |
|-----------------------|---------------------------------|------------|
| ALS CODE              | DESCRIPTION                     | INSTRUMENT |
| ME-XRF26              | Whole Rock By Fusion/XRF        | XRF        |
| OA-GRA05x             | LOI for XRF                     | WST-SEQ    |
| ME-MS42               | Up to 34 elements by ICP-MS     | ICP-MS     |
| S-IR08                | Total Sulphur (IR Spectroscopy) | LECO       |
| C-IR07                | Total Carbon (IR Spectroscopy)  | LECO       |
| ME-MS81               | Lithium Borate Fusion ICP-MS    | ICP-MS     |
| ME-4ACD81             | Base Metals by 4-acid dig.      | ICP-AES    |

This is the Final Report and supersedes any preliminary report with this certificate number. Results apply to samples as submitted. All pages of this report have been checked and approved for release.

**QC CERTIFICATE TM19303431**

Project: Golden Perimeter  
 P.O. No.: GP-280A-6  
 This report is for 9 Drill Core samples submitted to our lab in Timmins, ON, Canada on 29-NOV-2019.  
 The following have access to data associated with this certificate:

|                |              |              |
|----------------|--------------|--------------|
| IAN DUNLOP     | DARWIN GREEN | NEAL MAGUIRE |
| CONOR MCKINLEY |              |              |

| SAMPLE PREPARATION |                               |
|--------------------|-------------------------------|
| ALS CODE           | DESCRIPTION                   |
| FND-02             | Find Sample for Addn Analysis |

| ANALYTICAL PROCEDURES |                                 |            |
|-----------------------|---------------------------------|------------|
| ALS CODE              | DESCRIPTION                     | INSTRUMENT |
| ME-XRF26              | Whole Rock By Fusion/XRF        | XRF        |
| OA-GRA05x             | LOI for XRF                     | WST-SEQ    |
| ME-MS42               | Up to 34 elements by ICP-MS     | ICP-MS     |
| S-IR08                | Total Sulphur (IR Spectroscopy) | LECO       |
| C-IR07                | Total Carbon (IR Spectroscopy)  | LECO       |
| ME-MS81               | Lithium Borate Fusion ICP-MS    | ICP-MS     |
| ME-4ACD81             | Base Metals by 4-acid dig.      | ICP-AES    |

This is the Final Report and supersedes any preliminary report with this certificate number. Results apply to samples as submitted. All pages of this report have been checked and approved for release.

**QC CERTIFICATE TM19313315**

Project: Golden Perimeter

This report is for 7 Drill Core samples submitted to our lab in Timmins, ON, Canada on 10-DEC-2019.

The following have access to data associated with this certificate:

|                              |              |              |
|------------------------------|--------------|--------------|
| IAN DUNLOP<br>CONOR MCKINLEY | DARWIN GREEN | NEAL MAGUIRE |
|------------------------------|--------------|--------------|

| SAMPLE PREPARATION |                               |
|--------------------|-------------------------------|
| ALS CODE           | DESCRIPTION                   |
| FND-02             | Find Sample for Addn Analysis |

| ANALYTICAL PROCEDURES |                                 |            |
|-----------------------|---------------------------------|------------|
| ALS CODE              | DESCRIPTION                     | INSTRUMENT |
| ME-XRF26              | Whole Rock By Fusion/XRF        | XRF        |
| OA-GRA05x             | LOI for XRF                     | WST-SEQ    |
| ME-MS42               | Up to 34 elements by ICP-MS     | ICP-MS     |
| S-IR08                | Total Sulphur (IR Spectroscopy) | LECO       |
| C-IR07                | Total Carbon (IR Spectroscopy)  | LECO       |
| ME-MS81               | Lithium Borate Fusion ICP-MS    | ICP-MS     |
| ME-4ACD81             | Base Metals by 4-acid dig.      | ICP-AES    |

This is the Final Report and supersedes any preliminary report with this certificate number. Results apply to samples as submitted. All pages of this report have been checked and approved for release.

**CERTIFICATE TM19302406**

Project: Golden Perimeter  
 P.O. No.: GP-280A-19  
 This report is for 147 Drill Core samples submitted to our lab in Timmins, ON, Canada on 28-NOV-2019.  
 The following have access to data associated with this certificate:

|                              |              |              |
|------------------------------|--------------|--------------|
| IAN DUNLOP<br>CONOR MCKINLEY | DARWIN GREEN | NEAL MAGUIRE |
|------------------------------|--------------|--------------|

| SAMPLE PREPARATION |                                 |
|--------------------|---------------------------------|
| ALS CODE           | DESCRIPTION                     |
| WEI-21             | Received Sample Weight          |
| LOG-21             | Sample logging - ClientBarCode  |
| CRU-31             | Fine crushing - 70% <2mm        |
| LOG-23             | Pulp Login - Rcvd with Barcode  |
| CRU-QC             | Crushing QC Test                |
| PUL-QC             | Pulverizing QC Test             |
| SPL-21             | Split sample - riffle splitter  |
| PUL-31             | Pulverize up to 250g 85% <75 um |

| ANALYTICAL PROCEDURES |                               |            |

**QC CERTIFICATE TM19302406**

Project: Golden Perimeter  
 P.O. No.: GP-280A-19  
 This report is for 147 Drill Core samples submitted to our lab in Timmins, ON, Canada on 28-NOV-2019.  
 The following have access to data associated with this certificate:

|                |              |              |
|----------------|--------------|--------------|
| IAN DUNLOP     | DARWIN GREEN | NEAL MAGUIRE |
| CONOR MCKINLEY |              |              |

| SAMPLE PREPARATION |                                 |
|--------------------|---------------------------------|
| ALS CODE           | DESCRIPTION                     |
| WEI-21             | Received Sample Weight          |
| LOG-21             | Sample logging - ClientBarCode  |
| CRU-31             | Fine crushing - 70% <2mm        |
| LOG-23             | Pulp Login - Rcvd with Barcode  |
| CRU-QC             | Crushing QC Test                |
| PUL-QC             | Pulverizing QC Test             |
| SPL-21             | Split sample - riffle splitter  |
| PUL-31             | Pulverize up to 250g 85% <75 um |

| ANALYTICAL PROCEDURES |                               |            |
|-----------------------|-------------------------------|------------|
| ALS CODE              | DESCRIPTION                   | INSTRUMENT |
| Au-AA26               | Ore Grade Au 50g FA AA finish | AAS        |
| ME-ICP61              | 33 element four acid ICP-AES  | ICP-AES    |

This is the Final Report and supersedes any preliminary report with this certificate number. Results apply to samples as submitted. All pages of this report have been checked and approved for release.

**CERTIFICATE TM19303449**

Project: Golden Perimeter  
 P.O. No.: GP-280A-19  
 This report is for 5 Drill Core samples submitted to our lab in Timmins, ON, Canada on 29-NOV-2019.  
 The following have access to data associated with this certificate:

|                |              |              |
|----------------|--------------|--------------|
| IAN DUNLOP     | DARWIN GREEN | NEAL MAGUIRE |
| CONOR MCKINLEY |              |              |

| SAMPLE PREPARATION |                               |
|--------------------|-------------------------------|
| ALS CODE           | DESCRIPTION                   |
| FND-02             | Find Sample for Addn Analysis |

| ALS CODE              | DESCRIPTION                     | INSTRUMENT |
| ME-XRF26              | Whole Rock By Fusion/XRF        | XRF        |
| OA-GRA05x             | LOI for XRF                     | WST-SEQ    |
| ME-MS42               | Up to 34 elements by ICP-MS     | ICP-MS     |
| S-IR08                | Total Sulphur (IR Spectroscopy) | LECO       |
| C-IR07                | Total Carbon (IR Spectroscopy)  | LECO       |
| ME-MS81               | Lithium Borate Fusion ICP-MS    | ICP-MS     |
| ME-4ACD81             | Base Metals by 4-acid dig.      | ICP-AES    |

This is the Final Report and supersedes any preliminary report with this certificate number. Results apply to samples as submitted. All pages of this report have been checked and approved for release.

**CERTIFICATE TM19309133**

Project: Golden Perimeter  
 P.O. No.: GP-280A-21  
 This report is for 100 Drill Core samples submitted to our lab in Timmins, ON, Canada on 5-DEC-2019.  
 The following have access to data associated with this certificate:

|                |              |              |
|----------------|--------------|--------------|
| IAN DUNLOP     | DARWIN GREEN | NEAL MAGUIRE |
| CONOR MCKINLEY |              |              |

| SAMPLE PREPARATION |                                 |
|--------------------|---------------------------------|
| ALS CODE           | DESCRIPTION                     |
| WEI-21             | Received Sample Weight          |
| LOG-21             | Sample logging - ClientBarCode  |
| CRU-QC             | Crushing QC Test                |
| PUL-QC             | Pulverizing QC Test             |
| CRU-31             | Fine crushing - 70% <2mm        |
| SPL-21             | Split sample - riffle splitter  |
| PUL-31             | Pulverize up to 250g 85% <75 um |
| LOG-23             | Pulp Login - Rcvd with Barcode  |

| ANALYTICAL PROCEDURES |                               |            |
|-----------------------|-------------------------------|------------|
| ALS CODE              | DESCRIPTION                   | INSTRUMENT |
| ME-ICP61              | 33 element four acid ICP-AES  | ICP-AES    |
| Au-AA26               | Ore Grade Au 50g FA AA finish | AAS        |

This is the Final Report and supersedes any preliminary report with this certificate number. Results apply to samples as submitted. All pages of this report have been checked and approved for release.

**CERTIFICATE TM19313212**

Project: Golden Perimeter

This report is for 6 Drill Core samples submitted to our lab in Timmins, ON, Canada on 10-DEC-2019.

The following have access to data associated with this certificate:

|                |              |              |
|----------------|--------------|--------------|
| IAN DUNLOP     | DARWIN GREEN | NEAL MAGUIRE |
| CONOR MCKINLEY |              |              |

| SAMPLE PREPARATION |                               |
|--------------------|-------------------------------|
| ALS CODE           | DESCRIPTION                   |
| FND-02             | Find Sample for Addn Analysis |

| ANALYTICAL PROCEDURES |                                 |            |
|-----------------------|---------------------------------|------------|
| ALS CODE              | DESCRIPTION                     | INSTRUMENT |
| ME-XRF26              | Whole Rock By Fusion/XRF        | XRF        |
| OA-GRA05x             | LOI for XRF                     | WST-SEQ    |
| ME-MS42               | Up to 34 elements by ICP-MS     | ICP-MS     |
| S-IR08                | Total Sulphur (IR Spectroscopy) | LECO       |
| C-IR07                | Total Carbon (IR Spectroscopy)  | LECO       |
| ME-MS81               | Lithium Borate Fusion ICP-MS    | ICP-MS     |
| ME-4ACD81             | Base Metals by 4-acid dig.      | ICP-AES    |

This is the Final Report and supersedes any preliminary report with this certificate number. Results apply to samples as submitted. All pages of this report have been checked and approved for release.

\*\*\*\*\* See Appendix Page for comments regarding this certificate \*\*\*\*\*

Comments: ME-XRF26:High total was obtained due to sulphides being calculated twice (in the LOI value and retained in the fusion adding to the XRF total).The sulfur-free total calculation is the Total minus SO3. SF-Total less than or equal to 100%.

Comments: ME-XRF26:High total was obtained due to sulphides being calculated twice (in the LOI value and retained in the fusion adding to the XRF total).The sulfur-free total calculation is the Total minus SO3. SF-Total less than or equal to 100%.

Comments: ME-XRF26: High total was obtained due to sulphides being calculated twice (in the LOI value and retained in the fusion adding to the XRF total). The sulfur-free total calculation is the Total minus SO3. SF-Total less than or equal to 100%.

Comments: ME-XRF26:High total was obtained due to sulphides being calculated twice (in the LOI value and retained in the fusion adding to the XRF total).The sulfur-free total calculation is the Total minus SO3. SF-Total less than or equal to 100%.

Comments: ME-XRF26:High total was obtained due to sulphides being calculated twice (in the LOI value and retained in the fusion adding to the XRF total).The sulfur-free total calculation is the Total minus SO3. SF-Total less than or equal to 100%.

Comments: ME-XRF26:High total was obtained due to sulphides being calculated twice (in the LOI value and retained in the fusion adding to the XRF total).The sulfur-free total calculation is the Total minus SO3. SF-Total less than or equal to 100%.

Comments: ME-XRF26:High total was obtained due to sulphides being calculated twice (in the LOI value and retained in the fusion adding to the XRF total).The sulfur-free total calculation is the Total minus SO3. SF-Total less than or equal to 100%.

Comments: ME-XRF26:High total was obtained due to sulphides being calculated twice (in the LOI value and retained in the fusion adding to the XRF total).The sulfur-free total calculation is the Total minus SO3. SF-Total less than or equal to 100%.

Comments: ME-XRF26: High total was obtained due to sulphides being calculated twice (in the LOI value and retained in the fusion adding to the XRF total). The sulfur-free total calculation is the Total minus SO3. SF-Total less than or equal to 100%.

Comments: ME-XRF26: High total was obtained due to sulphides being calculated twice (in the LOI value and retained in the fusion adding to the XRF total). The sulfur-free total calculation is the Total minus SO3. SF-Total less than or equal to 100%.

Comments: ME-XRF26:High total was obtained due to sulphides being calculated twice (in the LOI value and retained in the fusion adding to the XRF total).The sulfur-free total calculation is the Total minus SO3. SF-Total less than or equal to 100%.

Comments: ME-XRF26:High total was obtained due to sulphides being calculated twice (in the LOI value and retained in the fusion adding to the XRF total).The sulfur-free total calculation is the Total minus SO3. SF-Total less than or equal to 100%.

**CERTIFICATE TM19309102**

Project: Golden Perimeter  
 P.O. No.: GP-280A-22  
 This report is for 78 Drill Core samples submitted to our lab in Timmins, ON, Canada on 5-DEC-2019.  
 The following have access to data associated with this certificate:

|                |              |              |
|----------------|--------------|--------------|
| IAN DUNLOP     | DARWIN GREEN | NEAL MAGUIRE |
| CONOR MCKINLEY |              |              |

| SAMPLE PREPARATION |                                 |
|--------------------|---------------------------------|
| ALS CODE           | DESCRIPTION                     |
| WEI-21             | Received Sample Weight          |
| LOG-21             | Sample logging - ClientBarCode  |
| CRU-QC             | Crushing QC Test                |
| PUL-QC             | Pulverizing QC Test             |
| CRU-31             | Fine crushing - 70% <2mm        |
| SPL-21             | Split sample - riffle splitter  |
| PUL-31             | Pulverize up to 250g 85% <75 um |
| LOG-23             | Pulp Login - Rcvd with Barcode  |

| ANALYTICAL PROCEDURES |                               |            |
|-----------------------|-------------------------------|------------|
| ALS CODE              | DESCRIPTION                   | INSTRUMENT |
| ME-ICP61              | 33 element four acid ICP-AES  | ICP-AES    |
| Au-AA26               | Ore Grade Au 50g FA AA finish | AAS        |

This is the Final Report and supersedes any preliminary report with this certificate number. Results apply to samples as submitted. All pages of this report have been checked and approved for release.

**QC CERTIFICATE TM19309102**

Project: Golden Perimeter  
 P.O. No.: GP-280A-22  
 This report is for 78 Drill Core samples submitted to our lab in Timmins, ON, Canada on 5-DEC-2019.  
 The following have access to data associated with this certificate:

|                              |              |              |

**CERTIFICATE TM19309119**

Project: Golden Perimeter  
 P.O. No.: GP-280A-30  
 This report is for 69 Drill Core samples submitted to our lab in Timmins, ON, Canada on 5-DEC-2019.  
 The following have access to data associated with this certificate:

|                              |              |              |
|------------------------------|--------------|--------------|
| IAN DUNLOP<br>CONOR MCKINLEY | DARWIN GREEN | NEAL MAGUIRE |
|------------------------------|--------------|--------------|

| SAMPLE PREPARATION |                                 |
|--------------------|---------------------------------|
| ALS CODE           | DESCRIPTION                     |
| WEI-21             | Received Sample Weight          |
| LOG-21             | Sample logging - ClientBarCode  |
| CRU-QC             | Crushing QC Test                |
| PUL-QC             | Pulverizing QC Test             |
| CRU-31             | Fine crushing - 70% <2mm        |
| SPL-21             | Split sample - riffle splitter  |
| PUL-31             | Pulverize up to 250g 85% <75 um |
| LOG-23             | Pulp Login - Rcvd with Barcode  |

| ANALYTICAL PROCEDURES |                               |            |

**CERTIFICATE TM19313172**

Project: Golden Perimeter

This report is for 6 Drill Core samples submitted to our lab in Timmins, ON, Canada on 10-DEC-2019.

The following have access to data associated with this certificate:

|                |              |              |
|----------------|--------------|--------------|
| IAN DUNLOP     | DARWIN GREEN | NEAL MAGUIRE |
| CONOR MCKINLEY |              |              |

| SAMPLE PREPARATION |                               |
|--------------------|-------------------------------|
| ALS CODE           | DESCRIPTION                   |
| FND-02             | Find Sample for Addn Analysis |

| ANALYTICAL PROCEDURES |                                 |            |
|-----------------------|---------------------------------|------------|
| ALS CODE              | DESCRIPTION                     | INSTRUMENT |
| ME-XRF26              | Whole Rock By Fusion/XRF        | XRF        |
| OA-GRA05x             | LOI for XRF                     | WST-SEQ    |
| ME-MS42               | Up to 34 elements by ICP-MS     | ICP-MS     |
| S-IR08                | Total Sulphur (IR Spectroscopy) | LECO       |
| C-IR07                | Total Carbon (IR Spectroscopy)  | LECO       |
| ME-MS81               | Lithium Borate Fusion ICP-MS    | ICP-MS     |
| ME-4ACD81             | Base Metals by 4-acid dig.      | ICP-AES    |

This is the Final Report and supersedes any preliminary report with this certificate number. Results apply to samples as submitted. All pages of this report have been checked and approved for release.

\*\*\*\*\* See Appendix Page for comments regarding this certificate \*\*\*\*\*

Comments: ME-XRF26:High total was obtained due to sulphides being calculated twice (in the LOI value and retained in the fusion adding to the XRF total).The sulfur-free total calculation is the Total minus SO3. SF-Total less than or equal to 100%.

Comments: ME-XRF26: High total was obtained due to sulphides being calculated twice (in the LOI value and retained in the fusion adding to the XRF total). The sulfur-free total calculation is the Total minus SO3. SF-Total less than or equal to 100%.

**QC CERTIFICATE TM19313172**

Project: Golden Perimeter

This report is for 6 Drill Core samples submitted to our lab in Timmins, ON, Canada on 10-DEC-2019.

The following have access to data associated with this certificate:

|                |              |              |
|----------------|--------------|--------------|
| IAN DUNLOP     | DARWIN GREEN | NEAL MAGUIRE |
| CONOR MCKINLEY |              |              |

| SAMPLE PREPARATION |                               |
|--------------------|-------------------------------|
| ALS CODE           | DESCRIPTION                   |
| FND-02             | Find Sample for Addn Analysis |

| ANALYTICAL PROCEDURES |                                 |            |
|-----------------------|---------------------------------|------------|
| ALS CODE              | DESCRIPTION                     | INSTRUMENT |
| ME-XRF26              | Whole Rock By Fusion/XRF        | XRF        |
| OA-GRA05x             | LOI for XRF                     | WST-SEQ    |
| ME-MS42               | Up to 34 elements by ICP-MS     | ICP-MS     |
| S-IR08                | Total Sulphur (IR Spectroscopy) | LECO       |
| C-IR07                | Total Carbon (IR Spectroscopy)  | LECO       |
| ME-MS81               | Lithium Borate Fusion ICP-MS    | ICP-MS     |
| ME-4ACD81             | Base Metals by 4-acid dig.      | ICP-AES    |

This is the Final Report and supersedes any preliminary report with this certificate number. Results apply to samples as submitted. All pages of this report have been checked and approved for release.

Comments: ME-XRF26:High total was obtained due to sulphides being calculated twice (in the LOI value and retained in the fusion adding to the XRF total).The sulfur-free total calculation is the Total minus SO3. SF-Total less than or equal to 100%.

Comments: ME-XRF26:High total was obtained due to sulphides being calculated twice (in the LOI value and retained in the fusion adding to the XRF total).The sulfur-free total calculation is the Total minus SO3. SF-Total less than or equal to 100%.

Comments: ME-XRF26:High total was obtained due to sulphides being calculated twice (in the LOI value and retained in the fusion adding to the XRF total).The sulfur-free total calculation is the Total minus SO3. SF-Total less than or equal to 100%.

Comments: ME-XRF26:High total was obtained due to sulphides being calculated twice (in the LOI value and retained in the fusion adding to the XRF total).The sulfur-free total calculation is the Total minus SO3. SF-Total less than or equal to 100%.

Comments: ME-XRF26:High total was obtained due to sulphides being calculated twice (in the LOI value and retained in the fusion adding to the XRF total).The sulfur-free total calculation is the Total minus SO3. SF-Total less than or equal to 100%.

Comments: ME-XRF26: High total was obtained due to sulphides being calculated twice (in the LOI value and retained in the fusion adding to the XRF total). The sulfur-free total calculation is the Total minus SO3. SF-Total less than or equal to 100%.

Comments: ME-XRF26:High total was obtained due to sulphides being calculated twice (in the LOI value and retained in the fusion adding to the XRF total).The sulfur-free total calculation is the Total minus SO3. SF-Total less than or equal to 100%.

Comments: ME-XRF26:High total was obtained due to sulphides being calculated twice (in the LOI value and retained in the fusion adding to the XRF total).The sulfur-free total calculation is the Total minus SO3. SF-Total less than or equal to 100%.

Comments: ME-XRF26:High total was obtained due to sulphides being calculated twice (in the LOI value and retained in the fusion adding to the XRF total).The sulfur-free total calculation is the Total minus SO3. SF-Total less than or equal to 100%.

Comments: ME-XRF26:High total was obtained due to sulphides being calculated twice (in the LOI value and retained in the fusion adding to the XRF total).The sulfur-free total calculation is the Total minus SO3. SF-Total less than or equal to 100%.

Comments: ME-XRF26:High total was obtained due to sulphides being calculated twice (in the LOI value and retained in the fusion adding to the XRF total).The sulfur-free total calculation is the Total minus SO3. SF-Total less than or equal to 100%.

**CERTIFICATE TM19313259**

Project: Golden Perimeter

This report is for 9 Drill Core samples submitted to our lab in Timmins, ON, Canada on 10-DEC-2019.

The following have access to data associated with this certificate:

|                              |              |              |
