ALGOMA STEEL COMPANY
BLAIRTON IRON MINE
D D H . SECTIONS
MAY HTH , 1908

Information for this map furnished to R.W. Seelye by Wm Brock who was in charge of drilling at time of Mr Seelye's visit April 25th 1908. Cores were sampled by Mr Seelye and analyzed at Algona Steel Company's laboratory. Cores were supposed to rest in boxes just as they had come from ground.

BLAIRTON MINE.

Lines intersecting section of drill holes at an angle simply indicate that drill holes cut the ore at some angle at present unknown.
