INTRODUCTION

Claims E0572483, E0592199, E0740470 and E0740472 were acquired by Mono Gold Mines of Vancouver, British Columbia as part of a gold exploration program near the village of Bannockburn in Madoc Township, Hastings County, Ontario. Linecutting and a geochemical survey were carried out by Beavon Consulting Limited of Richmond, British Columbia from October 28th to December 1, 1985. This report details the work performed during this period.

LOCATION AND ACCESS

The claims occupy the eastern half of Lot 27, Concession V; the southern quarter (east of the railway right of way) of the western half of Lot 28, Concession VI; and a narrow strip of the western quarter of the northern half of Lot 27, Concession VI in Madoc Township, Hastings County, Ontario (NTS Ref. 13 C/12). The claims occur along the southern outskirts of the village of Bannockburn.

Access to the property is via Highway 62, north 18 kilometers from Madoc to Bannockburn. Highway 62 passes through the centre of the claims. The eastern portion of the claims can also be accessed by automobile along an old railway right of way which passes through Bannockburn.

PHYSIOGRAPHY AND VEGETATION

The topography of the claims is relatively flat with moderate outcrop exposure and numerous small swamps.

The overburden is fairly thin with well developed podzol soils in the better drained areas and organic rich soils in the poorly drained areas.

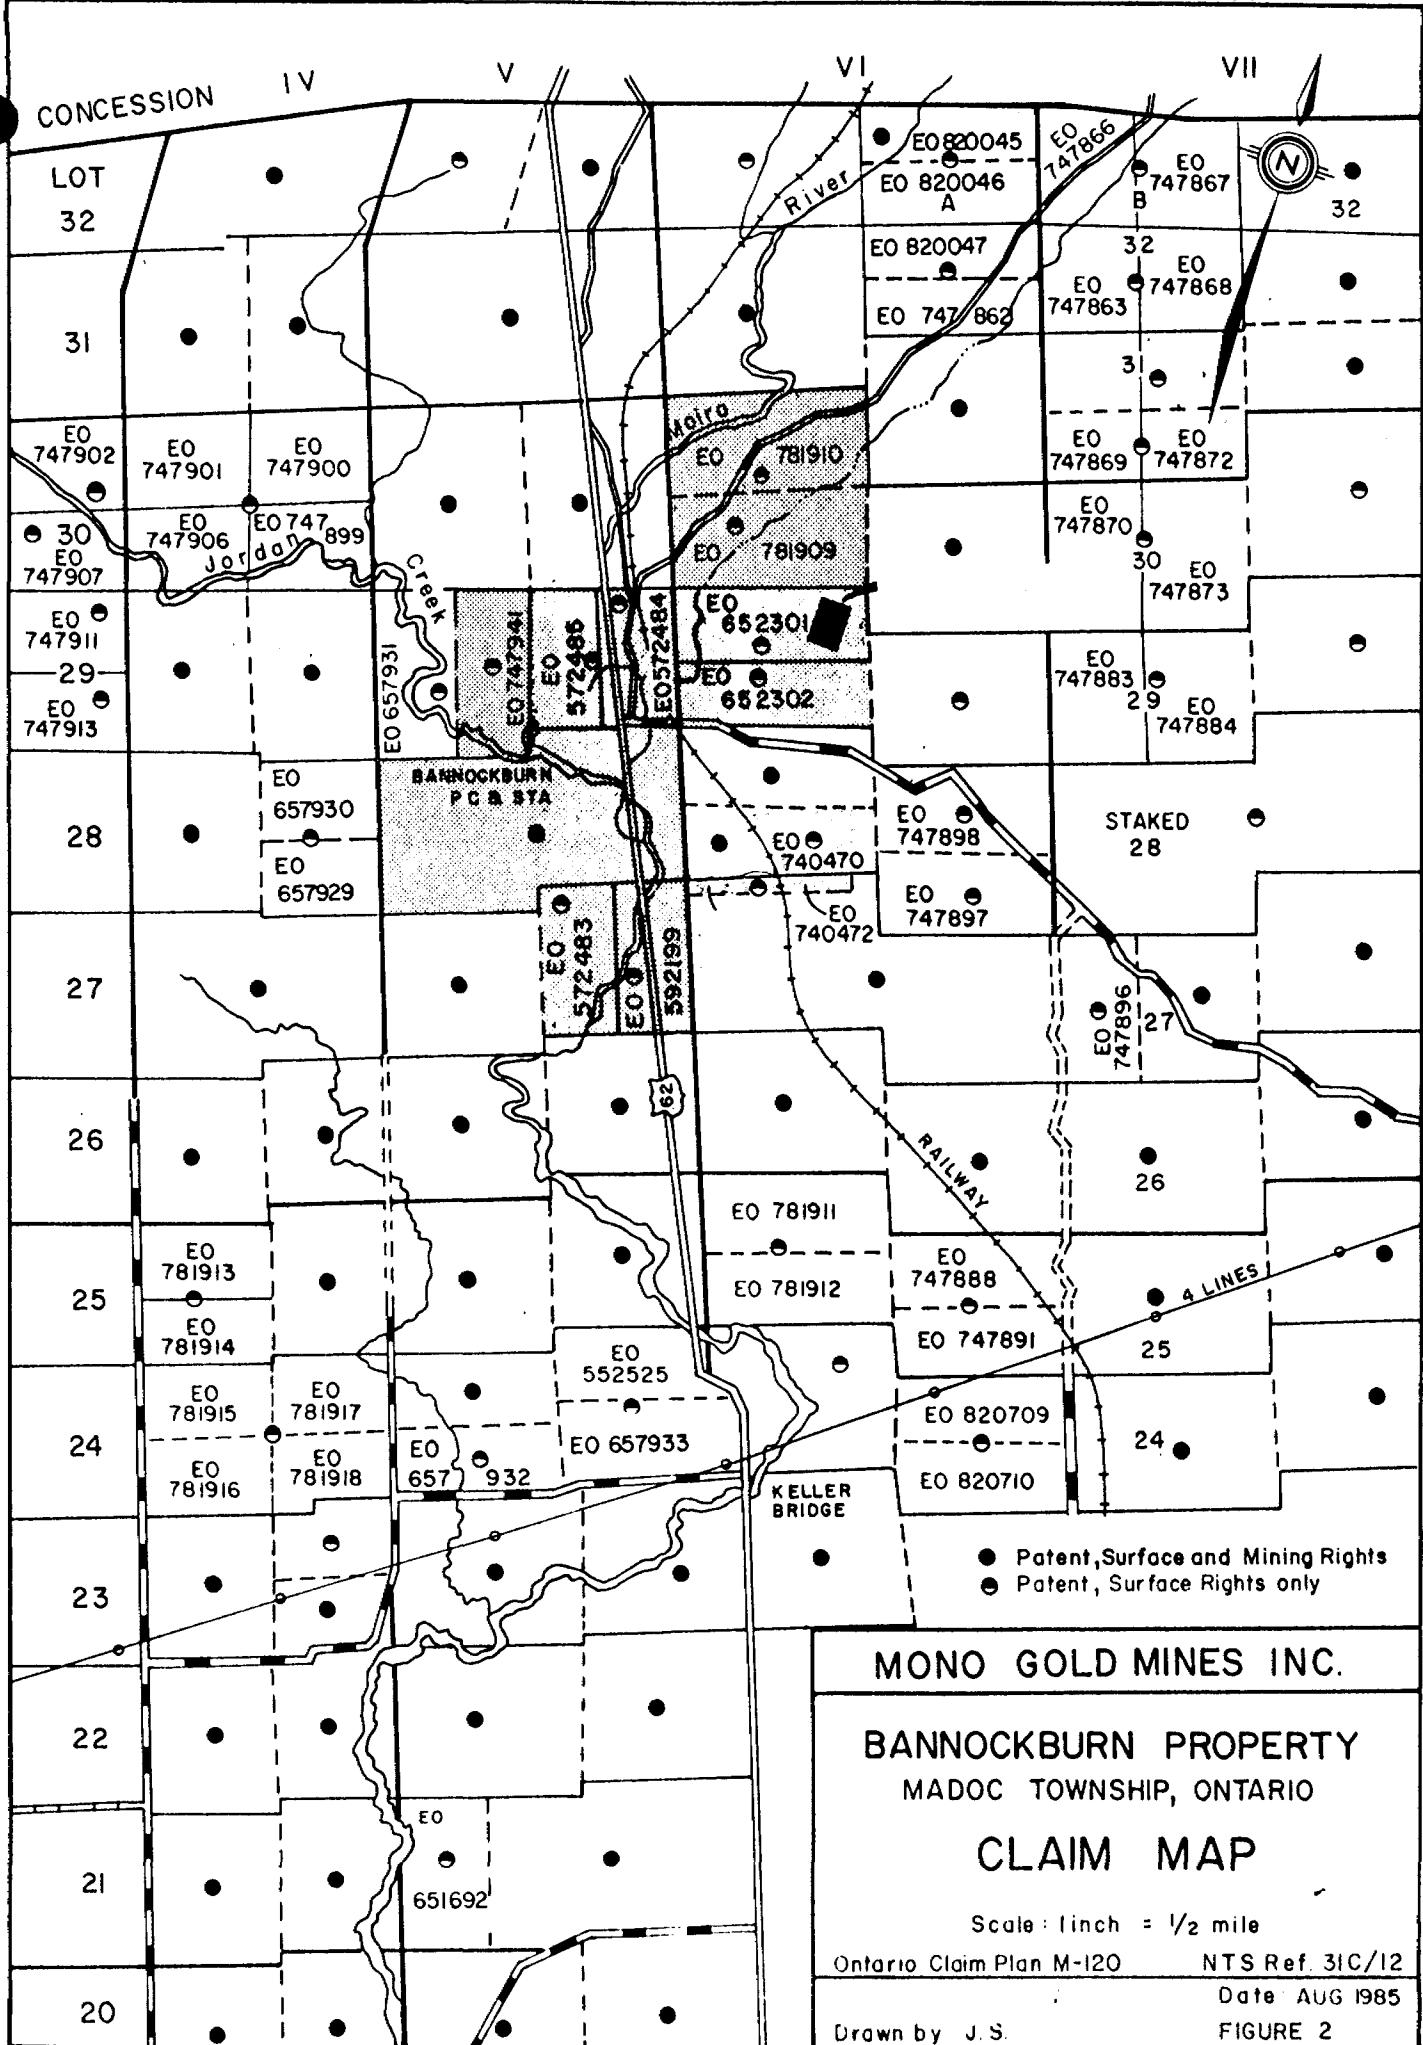

The vegetation is mixed consisting mostly of poplar, maple, spruce, cedar and fir. Some of the claims have been selectively lumbered.

PREVIOUS WORK

Geological mapping, max.min. electromagnetic and magnetic surveys were carried out over claims E0522483 and E0592199 west of the Moira River by

**MONO GOLD MINES INC.
BANNOCKBURN PROPERTY
MADOC TOWNSHIP
EASTERN ONTARIO MINING DIVISION
GENERAL LOCATION MAP**

Mono Gold Mines in 1984. Two diamond drill holes have also been drilled by Mono Gold Mines in 1981 and 1985 on claim E0 572483 as part of a larger gold exploration program around the old Bannockburn Mine. The old mine is located in lot 28 of Concession V. Gold assays in these two holes were negligible.

LINECUTTING

In total, 37,650 feet of line were cut and chained on the claims. Three linecutters were employed for a period of 6 days between the dates of October 28 and November 28, 1985 to complete this work. Three grids were cut with separate baselines to cover each part of the claims. West of the Moira River, the baseline is oriented at 345° (astronomic). East of the Moira River, the baseline was cut parallel to Highway 62 at 334° (astronomic). On claim E0 740470, the baseline was established at 070° astronomic. Lines were cut at 200 foot spacings and stations were chained at 100 foot intervals on all the grids.

GEOCHEMISTRY

In total, 401 B-horizon soil samples were collected on November 1 and from November 27 to December 1, 1985. Samples were taken at 50 foot intervals on a line spacing of 200 feet at an average depth of 16" using a soil auger. (Fig. 3)

All samples were submitted for geochemical analysis for bismuth to Chemex Labs in Mississauga, Ontario. Analysis procedures included drying, sieving to -80 mesh and then digesting a 2 gram sample in HCl and KC1O₃. A TOPO-MIBK extraction was used and then the sample was analyzed using Atomic Absorbtion with a background correction. (Fig. 4)

The results of the survey were generally low with most of the results varying from 0.1 to 0.8 ppm bismuth. Two spot highs of 1.0 ppm bismuth were found through the soil geochemistry survey. (Fig. 4)

CONCLUSIONS AND RECOMMENDATIONS

The soil geochemistry survey of the claims yielded low results. No further work is recommended at the present time.

CERTIFICATE OF QUALIFICATION

I, Kenneth Kryklywy, hereby certify that:

I am a Geological Engineer working for Beavon Consulting Limited of Richmond, British Columbia.

1. I have a B.A.Sc. (1979) from the University of Toronto.
2. I am a Registered Professional Engineer (1983) with the Association of Professional Engineers of Ontario.
3. The work undertaken for this report was under my supervision.

Kryklywy
M. Kenneth Kryklywy, P. Eng.

Report of Work #86-34
(Geophysical, Geological,
Geochemical and Expenditures)

31C12NE0043 2.9048 MADOC

900

Mining Act

— Do not use shaded areas below.

Type of Survey(s) GEOCHEMICAL	Township or Area 1 MADOC TOWNSHIP M-120
Claim Holder(s) MONO GOLD MINES INC.	Prospector's Licence No. T1194

Address
709-837 WEST HASTINGS ST. VANCOUVER, B.C.

Survey Company BEAVON CONSULTING LTD. RICHMOND, BC	Date of Survey (from & to) Day Mo. Yr. Day Mo. Yr. 1851 12 85	Total Miles of line Cut 7.1 MILES
--	--	---

Name and Address of Author (of Geo-Technical report) M. KENNETH KRYKLYWY, 8 BRAMPTON RD., WESTON, ONT. M4R 3J1
--

Credits Requested per Each Claim in Columns at right

Special Provisions	Geophysical	Days per Claim
For first survey: Enter 40 days. (This includes line cutting)	- Electromagnetic	
	- Magnetometer	
	- Radiometric	
	- Other	
For each additional survey: using the same grid: Enter 20 days (for each)	Geological	
	Geochemical	40

Man Days	Geophysical	Days per Claim
Complete reverse side and enter total(s) here	- Electromagnetic	
	- Magnetometer	
	- Radiometric	
	- Other	
	Geological	
	Geochemical	

Airborne Credits	Days per Claim
Note: Special provisions credits do not apply to Airborne Surveys.	Electromagnetic
	Magnetometer
	Radiometric

Expenditures (excludes power stripping)

Type of Work Performed ASSAYING SECT. 77(4)

Performed on Claim(s) E0572483, E0740470
--

Calculation of Expenditure Days Credits

Total Expenditures \$ 1784.45	+ 15	= 118
---	-------------	--------------

Instructions

Total Days Credits may be apportioned at the claim holder's choice. Enter number of days credits per claim selected in columns at right.

Date 1st March 1986	Recorded Holder or Agent (Signature) John D. Gino (R.N.W.)
-------------------------------	--

Certification Verifying Report of Work

I hereby certify that I have a personal and intimate knowledge of the facts set forth in the Report of Work annexed hereto, having performed the work or witnessed same during and/or after its completion and the annexed report is true.

Dear Madam:

RE: Notice of Intent dated April 30, 1986
Geochemical Survey and Data for Assaying
on Mining Claims E0 572483, et al, in
Madoc Township

The assessment work credits, as listed with the
above-mentioned Notice of Intent, have been approved
as of the above date.

Please inform the recorded holder of these mining
claims and so indicate on your records.

Yours sincerely,

Dear Madam:

Enclosed are two copies of a Notice of Intent with statements listing a reduced rate of assessment work credits to be allowed for a technical survey. Please forward one copy to the recorded holder of the claims and retain the other. In approximately fifteen days from the above date, a final letter of approval of these credits will be sent to you. On receipt of the approval letter, you may then change the work entries on the claim record sheets.

For further information, if required, please contact Mr. R.J. Pichette at (416) 965-4888.

Yours sincerely,

Notice of Intent
for Technical Reports

April 30, 1986

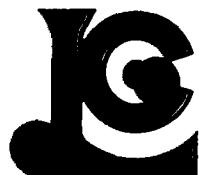

2.9048/86-34

An examination of your survey report indicates that the requirements of The Ontario Mining Act have not been fully met to warrant maximum assessment work credits. This notice is merely a warning that you will not be allowed the number of assessment work days credits that you expected and also that in approximately 15 days from the above date, the mining recorder will be authorized to change the entries on the record sheets to agree with the enclosed statement. Please note that until such time as the recorder actually changes the entry on the record sheet, the status of the claim remains unchanged.

If you are of the opinion that these changes by the mining recorder will jeopardize your claims, you may during the next fifteen days apply to the Mining and Lands Commissioner for an extension of time. Abstracts should be sent with your application.

If the reduced rate of credits does not jeopardize the status of the claims then you need not seek relief from the Mining and Lands Commissioner and this Notice of Intent may be disregarded.

If your survey was submitted and assessed under the "Special Provision-Performance and Coverage" method and you are of the opinion that a re-appraisal under the "Man-days" method would result in the approval of a greater number of days credit per claim, you may, within the said fifteen day period, submit assessment work breakdowns listing the employees names, addresses and the dates and hours they worked. The new work breakdowns should be submitted directly to the Land Management Branch, Toronto. The report will be re-assessed and a new statement of credits based on actual days worked will be issued.
