

REPORT of Prospecting, stripping, drilling for Block removal, BLOCKS
to be cut in to Tile samples.

Please note my activities outlined in the detailed daily reports.
We concentrated mostly on establishing the "Black Granit":

Sample No.30A, a black Amphibolite, Ca,Mg,Fe composition,
with Quartz veins and grains, cut by pink and salmon red veinlets of
Albite and Microcline.

Sample No.92 and 96, a dark green to black Amphibolite,
Ca,Fe,Mg composition, with Quartz veinlets and grains. Light reflections
from the numerous oriented cleavage surfaces of the crystals produce a
sparkling silky luster.

The main showing consists of a hillock, 15 feet in height, 90 feet wide
by 180 feet long, 480 feet west of Post No.2 of Claim SO 1092177.
We stripped away more overburden (average depth of 2 feet) along the
east side of the hillock (also off the top) this year. We used a rubber-
tired backhoe, cutter, pick and shovels, hoe and Duro-Pump and high-
pressure waterhose. This was perhaps time-consuming, but well worth it,
as we are now in a better position to avoid certain fine cracks, that we
were not aware of before. We have now exposed a vertical cliff about 12
feet high on the north/east side of the hillock, approx. 40' in length.
The joint-sets are far enough apart (about 10 feet) to permit removal
of large building blocks.

We were able to loosen and remove two 4x4x3' Blocks of Sample No.92 and
No.96, using a "Pionjar" portable, handheld gasoline driven drill. The
vertical and horizontal holes drilled were spaced 4 inches apart; we
used "Primacord" detonating cord every second hole to loosen these Blocks.

We had these Blocks trucked to Processors, Khouri Granit Ltd., Sudbury,
and Owen Sound Ledge Rock, Owen Sound to have 1cm and 2cm sample slabs
cut. Also some 3/8" 12x12" and 12x24" floor and wall tile samples.
The fine, hard to detect fissures, caused by using too strong measures
of explosives in the beginning, prevented us from obtaining good slabs.
We were however, able to salvage some good samples of this attractive
material in smaller sizes, 6x6", 12x12" and 12x24", to be made available
to interested Quarriers and Processors, to put us into a better position
to obtain an option.

After visits from the area geologist office and much needed advice, we
drilled and partially loosened a Block 4x4x6' of Sample 30A. But more
cutting is needed here and we are waiting for (to rent) a wire saw, as
we were advised not to use any Primacord on this Block.

We widened and gravelled the existing old skid-road after obtaining a
work permit from MNR, using a rubber tired backhoe and pick and shovel.
A truck can drive right up to the stripped area now to pick up a Block.

Please see Page II

out 15/92

October 15/1992

Samples of white Albite No.5 were removed from a partially stripped showing on Claim No.SO 1092177 and submitted for identification to the Geoscience Laboratories.

On Claim No.SO 1092178, No.8 we stripped a showing of pink to red fine to medium grained Orthoclase Feldspar with pick and shovel. We removed a sample to be sawn and polished. This material was previously analysed by the Geoscience Laboratories, and found to be suitable for inside and outside tiles. This showing needs much more attention next year.

On Claim No.SO 1092177 No.44A we stripped, washed and prepared a showing of a pink, fine to medium grained Microcline Feldspar. We then removed a small Block for testing. This material is very attractive and takes a high polish. Much more stripping is necessary to establish an area where the cracks are far enough apart, and commercial size quarry blocks could be extracted.

Sample No.26 , Claim No.SO 1092177, continues on the north side of the fault, approx. 500 feet north of the partially stripped hillock 30A/92,96 the same dark green to black Amphibolite, Ca,Fe,Mg composition with white Quartz veinlets and grains, (Assay sheet enclosed). A large exposure was discovered here, a vertical cliff about 10 to 16 feet high by about 110 feet in length, running from the south/west to north/east. Joints are at a lower density here, with favourable saddle cracks, (Photos enclosed). We should be able to extract some commercial size Blocks here.

V. SIGNIFICANT RESULTS (please complete)

Project Area	New Showings and/or Anomalies	Commodity	Best Analyses
Ryerson TWP. Claim S01092177, Sample No.92, small Block cut yielded an attractive, textured, decorative architectural Building Tile.			
Also Claim S01092177, another small Block cut produced a "Black Granite" with a wavy, Quartz texture (Sample No.96) decorative Tile, which takes a high polish. Another Block (Sample No.444), is being sawn now.			

VI. CLAIMS STAKED DURING/AFTER PROSPECTING ACTIVITY (please complete)

Project Area	Claim Numbers	Number of Claim Units
_____	_____	_____
_____	_____	_____

VII. OPTION AGREEMENTS RESULTING FROM OPAP PROJECT (please complete)

Optionee	Property/Claims	Dollar Value of Work Commitment
<u>Samples are being made available to interested Granite Processors now.</u>		

The Ministry of Northern Development and Mines may verify all statements related to and made herein this application.

1. I am the person named in the Application for Grant under the Ontario Prospectors Assistance Program.
2. I am ordinarily a resident of Canada.
3. I have complied with all the requirements of the said program.
4. I understand that it is an offence under the Ontario Mineral Exploration Act, 1989, to make a false or misleading statement and that all statements and all other information submitted in support of the said application are true and correct.
5. I was not employed by the Ministry while in receipt of the OPAP grant.
6. I am not the spouse, child, sibling or parent of a Ministry employee.
7. I am aware that any other Provincial or Federal Government financial assistance received for said application will be deducted from the amount of incurred "Total Eligible Expenses".

It is an Offence under subsection 8(1)(A) of the Ontario Mineral Exploration Act, 1989 to knowingly furnish false or misleading information.

Personal information on this form is obtained under the authority of the Ontario Mineral Exploration Act, 1989, sections 2, 3 and 4 and the Ontario Prospectors Assistance Program Regulation, sections 4, 5 and 6. The financial and technical information will be used for the purpose of determining the eligibility of the applicant to

have a program designated for financial assistance and the amount of such assistance. Other information, such as statistical information about the individual projects will be used for the purpose of determining the overall effectiveness of the program. It may be disclosed for those purposes and I consent to its disclosure for such

purposes. Questions about this collection should be directed to Supervisor, Incentives Office, Mineral Development and Rehabilitation, Ministry of Northern Development and Mines, 4th Floor, 159 Cedar Street, Sudbury, Ontario P3E 6A5, Toll free 1-800-465-3880.

IDENTIFICATION

One sample, #96 was submitted for mineral identification. X-ray powder diffraction analysis was carried out.

SAMPLE # 96: The sample is a metamorphic amphibolite rock. The main minerals there are dark-green to black **AMPHIBOLE** with Ca-Fe-Mg composition, intergrown with **MICA** and fine grained **QUARTZ**. The pink grains are Fe, Mg-rich **GARNET** (almandine-pyrope series).

This material could be suitable for outside and inside tiles and for floors and steps as well. The amphibolites are more slip-resistant when wet comparing with other materials such as marbles.

This completes all analytical work on sample entered in your name on MAY 18, 1992.

Fee received: No charge.

IDENTIFICATION

One sample, #92 was submitted for mineral identification. X-ray powder diffraction analysis was carried out.

SAMPLE # 92: The sample is a basic metamorphic amphibolite rock. The main minerals there are dark-green to black **AMPHIBOLES** with a complex Na-Ca-Fe-Mn composition, intergrown with **MICA**. The pink grains are Mn-rich **GARNET** (almandine-spessartine series). There are also **FELDSPARS** (andesine) and **CARBONATES** (fluorapatite). The small bright grains content **PYRITE** and **CORUNDUM**.

This completes all analytical work on sample entered in your name on APRIL 10, 1992.

Fee received: No charge.

PETER LIGHTFOOT, ACTING CHIEF ANALYST

Issued to

B. WICKERN
APT-706, 1305 WILSON AVE.
TORONTO, ONTARIO
M3M 1J2

IDENTIFICATION

Six samples were submitted for mineral identification. X-ray powder diffraction analyses were carried out.

SAMPLE # 50: The main bluish-grey mineral is *max.* ordered microcline intergrown with some albite, known as a variety of the "moon stone".

SAMPLE # 51: The rock is composed mainly from the same *max.* microcline as in sample # 50. There are some graphite intergrown with chlorite and some large grains of titanite.

SAMPLE # 51-A: The rock sample is composed by large pink and white grains of feldspar (mainly albite). The fine-grained minerals are quartz, amphibole (Mg-hornblende), chlorite and biotite.

SAMPLE # 44-A: The sample is composed by large grains of feldspars - pink microcline and white albite. The main mineral in dark veins is hematite together with Ca-amphibole and chlorite.

SAMPLE # 52: The dark mineral is amphibole (Ca-amphibole, hornblend composition).

SAMPLE # 53: The main mineral is dark green amphibole, Ca-subgroup).

This completes all analytical work on samples entered in your name on NOVEMBER, DECEMBER 1991 and JANUARY 1992.

Fee received: No charge.

Report

Issued to:

**MR. B. WICKERN
1305 WILSON AVE. APT.706
TORONTO, ONTARIO
M3M 1J2**

FURTHER TO CERTIFICATE #0046-91

IDENTIFICATION

Four samples were submitted for mineral identification. X-ray diffraction and optical analyses were carried out and the following minerals were found:

Sample #2: The sample consists of fine grained quartz and feldspars intergrown with biotite.

Sample #3: This consists mainly of a massive quartz vein. Some mica and feldspars are also present.

Sample #5: The sample consists of fine grained quartz, mica and feldspars.

Sample #8: This is a massive sample composed mainly of well-crystallized pink orthoclase intergrown with quartz veins. The hardness of the sample is about 7.0. It is nicely colored and could be suitable for tiles (outside and inside covering).

This completes all analytical work on samples entered in your name on MARCH 13,1991.

Fee received: NO CHARGE.

PETER LIGHTFOOT, Chief

IDENTIFICATION

Five samples were submitted for mineral identification. X-ray powder diffraction analyses were carried out.

Sample #93: Consists mainly of quartz and feldspar. There is also some grains of titanite and graphite. No any sulphides were identified.

Sample #94: The main minerals are quartz and feldspars. The large metallic-coloured parts of the sample are Fe,Ti-rich oxides: hematite, ilmenite and ilmenorutile. No sulphides are found.

Sample #95: The sample is amphibolite rock, composed mainly of Ca,Fe,Mg- amphibole and quartz.

Sample #97: The sample is almost pure quartz. No any sulphides were found.

Sample #98: The sample consists of QUARTZ and SCAPOLITE. The dark green to black veins is a PYROXENE with Ca(Mg,Fe)- composition. No sulphides were identified.

This completes all analytical work on samples entered in your name on MAY 20, 1992.

Fee received: No charge.

PETER LIGHTFOOT, Chief

SREBRI PETROV, XRD Scientist.

JULY 10, 1992.

Except by special permission reproduction of these results must include any qualifying remarks made by this ministry with reference to any sample.

The Ministry of Northern Development and Mines may verify all statements related to and made herein this application.

1. I am the person named in the Application for Grant under the Ontario Prospectors Assistance Program.
2. I am ordinarily a resident of Canada.
3. I have complied with all the requirements of the said program.
4. I understand that it is an offence under the Ontario Mineral Exploration Act, 1989, to make a false or misleading statement and that all statements and all other information submitted in support of the said application are true and correct.
5. I was not employed by the Ministry while in receipt of the OPAP grant.
6. I am not the spouse, child, sibling or parent of a Ministry employee.
7. I am aware that any other Provincial or Federal Government financial assistance received for said application will be deducted from the amount of incurred "Total Eligible Expenses".

It is an Offence under subsection 8(1)(A) of the Ontario Mineral Exploration Act, 1989 to knowingly furnish false or misleading information.

Personal information on this form is obtained under the authority of the Ontario Mineral Exploration Act, 1989, sections 2, 3 and 4 and the Ontario Prospectors Assistance Program Regulation, sections 4, 5 and 6. The financial and technical information will be used for the purpose of determining the eligibility of the applicant to

have a program designated for financial assistance and the amount of such assistance. Other information, such as statistical information about the individual projects will be used for the purpose of determining the overall effectiveness of the program. It may be disclosed for those purposes and I consent to its disclosure for such

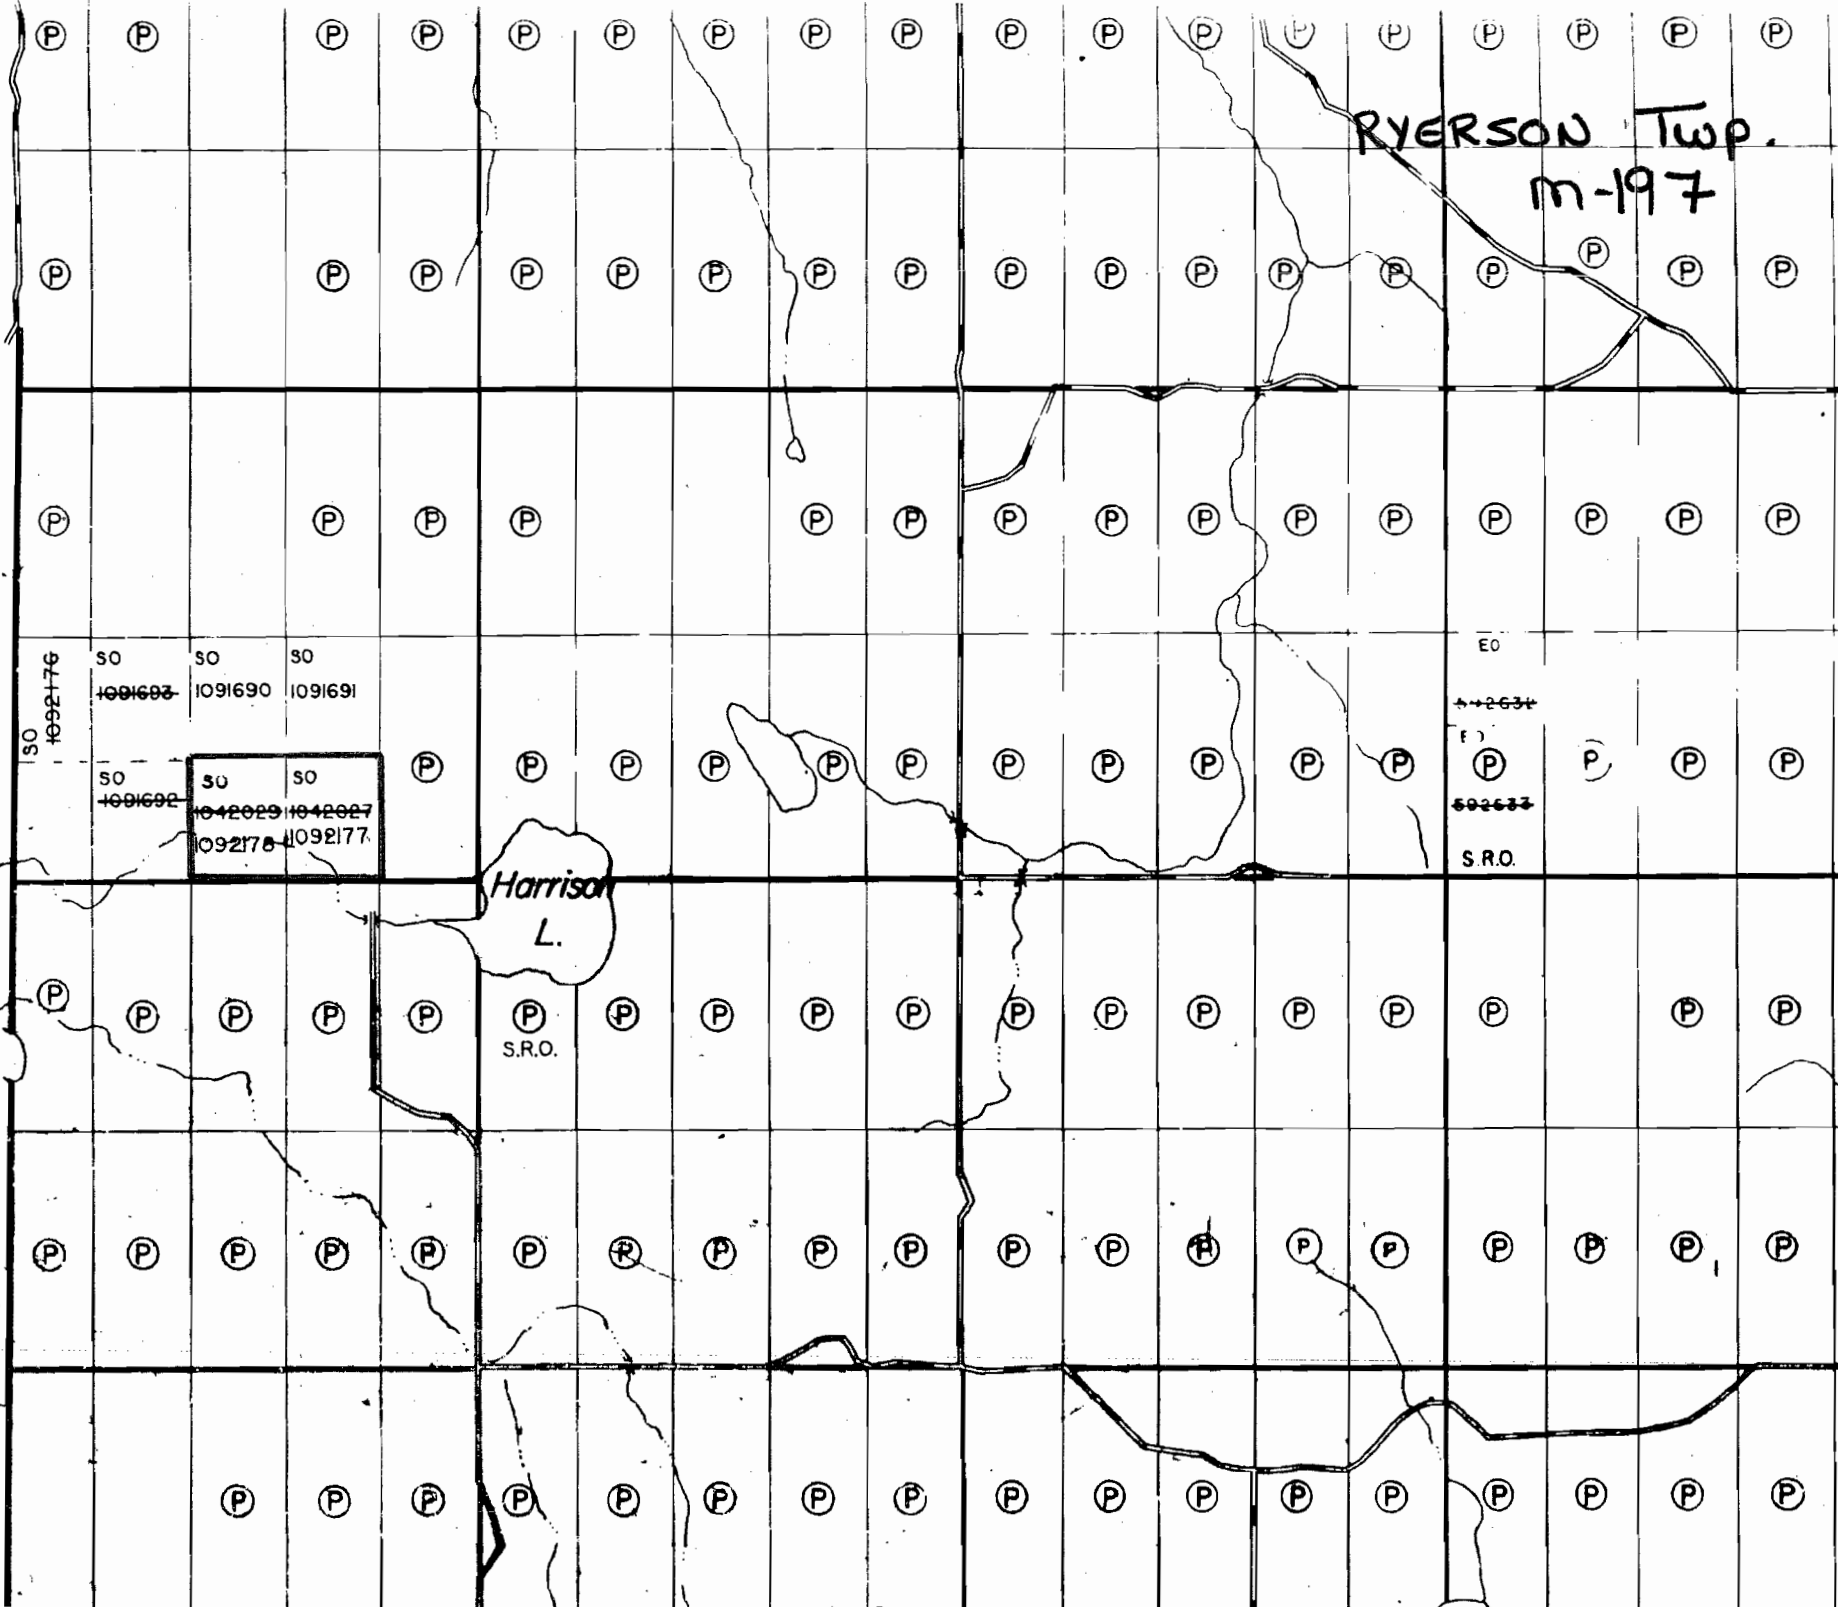

purposes. Questions about this collection should be directed to Supervisor, Incentives Office, Mineral Development and Rehabilitation, Ministry of Northern Development and Mines, 4th Floor, 159 Cedar Street, Sudbury, Ontario P3E 6A5, Toll free 1-800-465-3880.

Total Direct Costs Total des coûts directs			750

2. Indirect Costs/Coûts indirects

** Note: When claiming Rehabilitation work Indirect costs are not allowable as assessment work. Pour le remboursement des travaux de réhabilitation, les coûts indirects ne sont pas admissibles en tant que travaux d'évaluation.

Type	Description	Amount Montant	Totals Total global
Transportation Transport	Type		
Food and Lodging Nourriture et hébergement			
Mobilization and Demobilization Mobilisation et démoblisation			
Sub Total of Indirect Costs Total partiel des coûts indirects			—
Amount Allowable (not greater than 20% of Direct Costs) Montant admissible (n'excédant pas 20 % des coûts directs)			—
Total Value of Assessment Credit (Total of Direct and Allowable Indirect costs)		Valeur totale du crédit d'évaluation (Total des coûts directs et indirects admissibles)	750

Note: The recorded holder will be required to verify expenditures claimed in this statement of costs within 30 days of a request for verification. If verification is not made, the Minister may reject for assessment work all or part of the assessment work submitted.

Note : Le titulaire enregistré sera tenu de vérifier les dépenses demandées dans le présent état des coûts dans les 30 jours suivant une demande à cet effet. Si la vérification n'est pas effectuée, le ministre peut rejeter tout ou une partie des travaux d'évaluation présentés.

Filing Discounts

- Work filed within two years of completion is claimed at 100% of the above Total Value of Assessment Credit.
- Work filed three, four or five years after completion is claimed at 50% of the above Total Value of Assessment Credit. See calculations below:

Total Value of Assessment Credit	Total Assessment Claimed
	× 0.50 =

Remises pour dépôt

- Les travaux déposés dans les deux ans suivant leur achèvement sont remboursés à 100 % de la valeur totale susmentionnée du crédit d'évaluation.
- Les travaux déposés trois, quatre ou cinq ans après leur achèvement sont remboursés à 50 % de la valeur totale du crédit d'évaluation susmentionné. Voir les calculs ci-dessous.

Valeur totale du crédit d'évaluation	Évaluation totale demandée
	× 0,50 =

Certification Verifying Statement of Costs

I hereby certify: that the amounts shown are as accurate as possible and these costs were incurred while conducting assessment work on the lands shown on the accompanying Report of Work form.

that as RECORDED HOLDER I am authorized (Recorded Holder, Agent, Position in Company)

to make this certification

Attestation de l'état des coûts

J'atteste par la présente : que les montants indiqués sont le plus exact possible et que ces dépenses ont été engagées pour effectuer les travaux d'évaluation sur les terrains indiqués dans la formule de rapport de travail ci-joint.

Et qu'à titre de _____ je suis autorisé (titulaire enregistré, représentant, poste occupé dans la compagnie)

à faire cette attestation.

Mining Act/Loi sur les mines

Transaction No./N° de transaction
W9290.00063

Personal information collected on this form is obtained under the authority of the **Mining Act**. This information will be used to maintain a record and ongoing status of the mining claim(s). Questions about this collection should be directed to the Provincial Manager, Minings Lands, Ministry of Northern Development and Mines, 4th Floor, 159 Cedar Street, Sudbury, Ontario P3E 6A5, telephone (705) 670-7264.

Les renseignements personnels contenus dans la présente formule sont recueillis en vertu de la **Loi sur les mines** et serviront à tenir à jour un registre des concessions minières. Adresser toute question sur la collecte de ces renseignements au chef provincial des terrains miniers, ministère du Développement du Nord et des Mines, 159, rue Cedar, 4^e étage, Sudbury (Ontario) P3E 6A5, téléphone (705) 670-7264.

1. Direct Costs/Coûts directs

Type	Description	Amount Montant	Totals Total global

Total Value of Assessment Credit (Total of Direct and Allowable Indirect costs)			18817
Valeur totale du crédit d'évaluation (Total des coûts directs et Indirects admissibles)			

Note: The recorded holder will be required to verify expenditures claimed in this statement of costs within 30 days of a request for verification. If verification is not made, the Minister may reject for assessment work all or part of the assessment work submitted.

Note : Le titulaire enregistré sera tenu de vérifier les dépenses demandées dans le présent état des coûts dans les 30 jours suivant une demande à cet effet. Si la vérification n'est pas effectuée, le ministre peut rejeter tout ou une partie des travaux d'évaluation présentés.

Filing Discounts

1. Work filed within two years of completion is claimed at 100% of the above Total Value of Assessment Credit.
2. Work filed three, four or five years after completion is claimed at 50% of the above Total Value of Assessment Credit. See calculations below:

Total Value of Assessment Credit	Total Assessment Claimed
	× 0.50 =

Remises pour dépôt

1. Les travaux déposés dans les deux ans suivant leur achèvement sont remboursés à 100 % de la valeur totale susmentionnée du crédit d'évaluation.
2. Les travaux déposés trois, quatre ou cinq ans après leur achèvement sont remboursés à 50 % de la valeur totale du crédit d'évaluation susmentionné. Voir les calculs ci-dessous.

Valeur totale du crédit d'évaluation	Évaluation totale demandée
	× 0,50 =

Certification Verifying Statement of Costs

I hereby certify:
that the amounts shown are as accurate as possible and these costs were incurred while conducting assessment work on the lands shown on the accompanying Report of Work form.

that as RECORDED HOLDER I am authorized
(Recorded Holder, Agent, Position in Company)

to make this certification

Attestation de l'état des coûts

J'atteste par la présente :
que les montants indiqués sont le plus exact possible et que ces dépenses ont été engagées pour effectuer les travaux d'évaluation sur les terrains indiqués dans la formule de rapport de travail ci-joint.

Et qu'à titre de _____ je suis autorisé
(titulaire enregistré, représentant, poste occupé dans la compagnie)

à faire cette attestation.

Signature Patricia A. Nicholson Date DEC 15 1992
