The purpose of the bulldozer stripping was to expose the graphite bearing horizon on claims 1000265 and 1000266. Disseminated graphite mineralization was present within the meta-quartzite formation, across the full exposed areas.

The equipment used was a D-8 bulldozer which was owned and operated by Neville Beachey of Trout Creek on August 2, 1994, for a period of 6 hours. The hourly rate was \$15.00 for the operator and \$40.00 per hour for the machine.

No assays were taken as yet, and no recutting of claim lines was undertaken.
