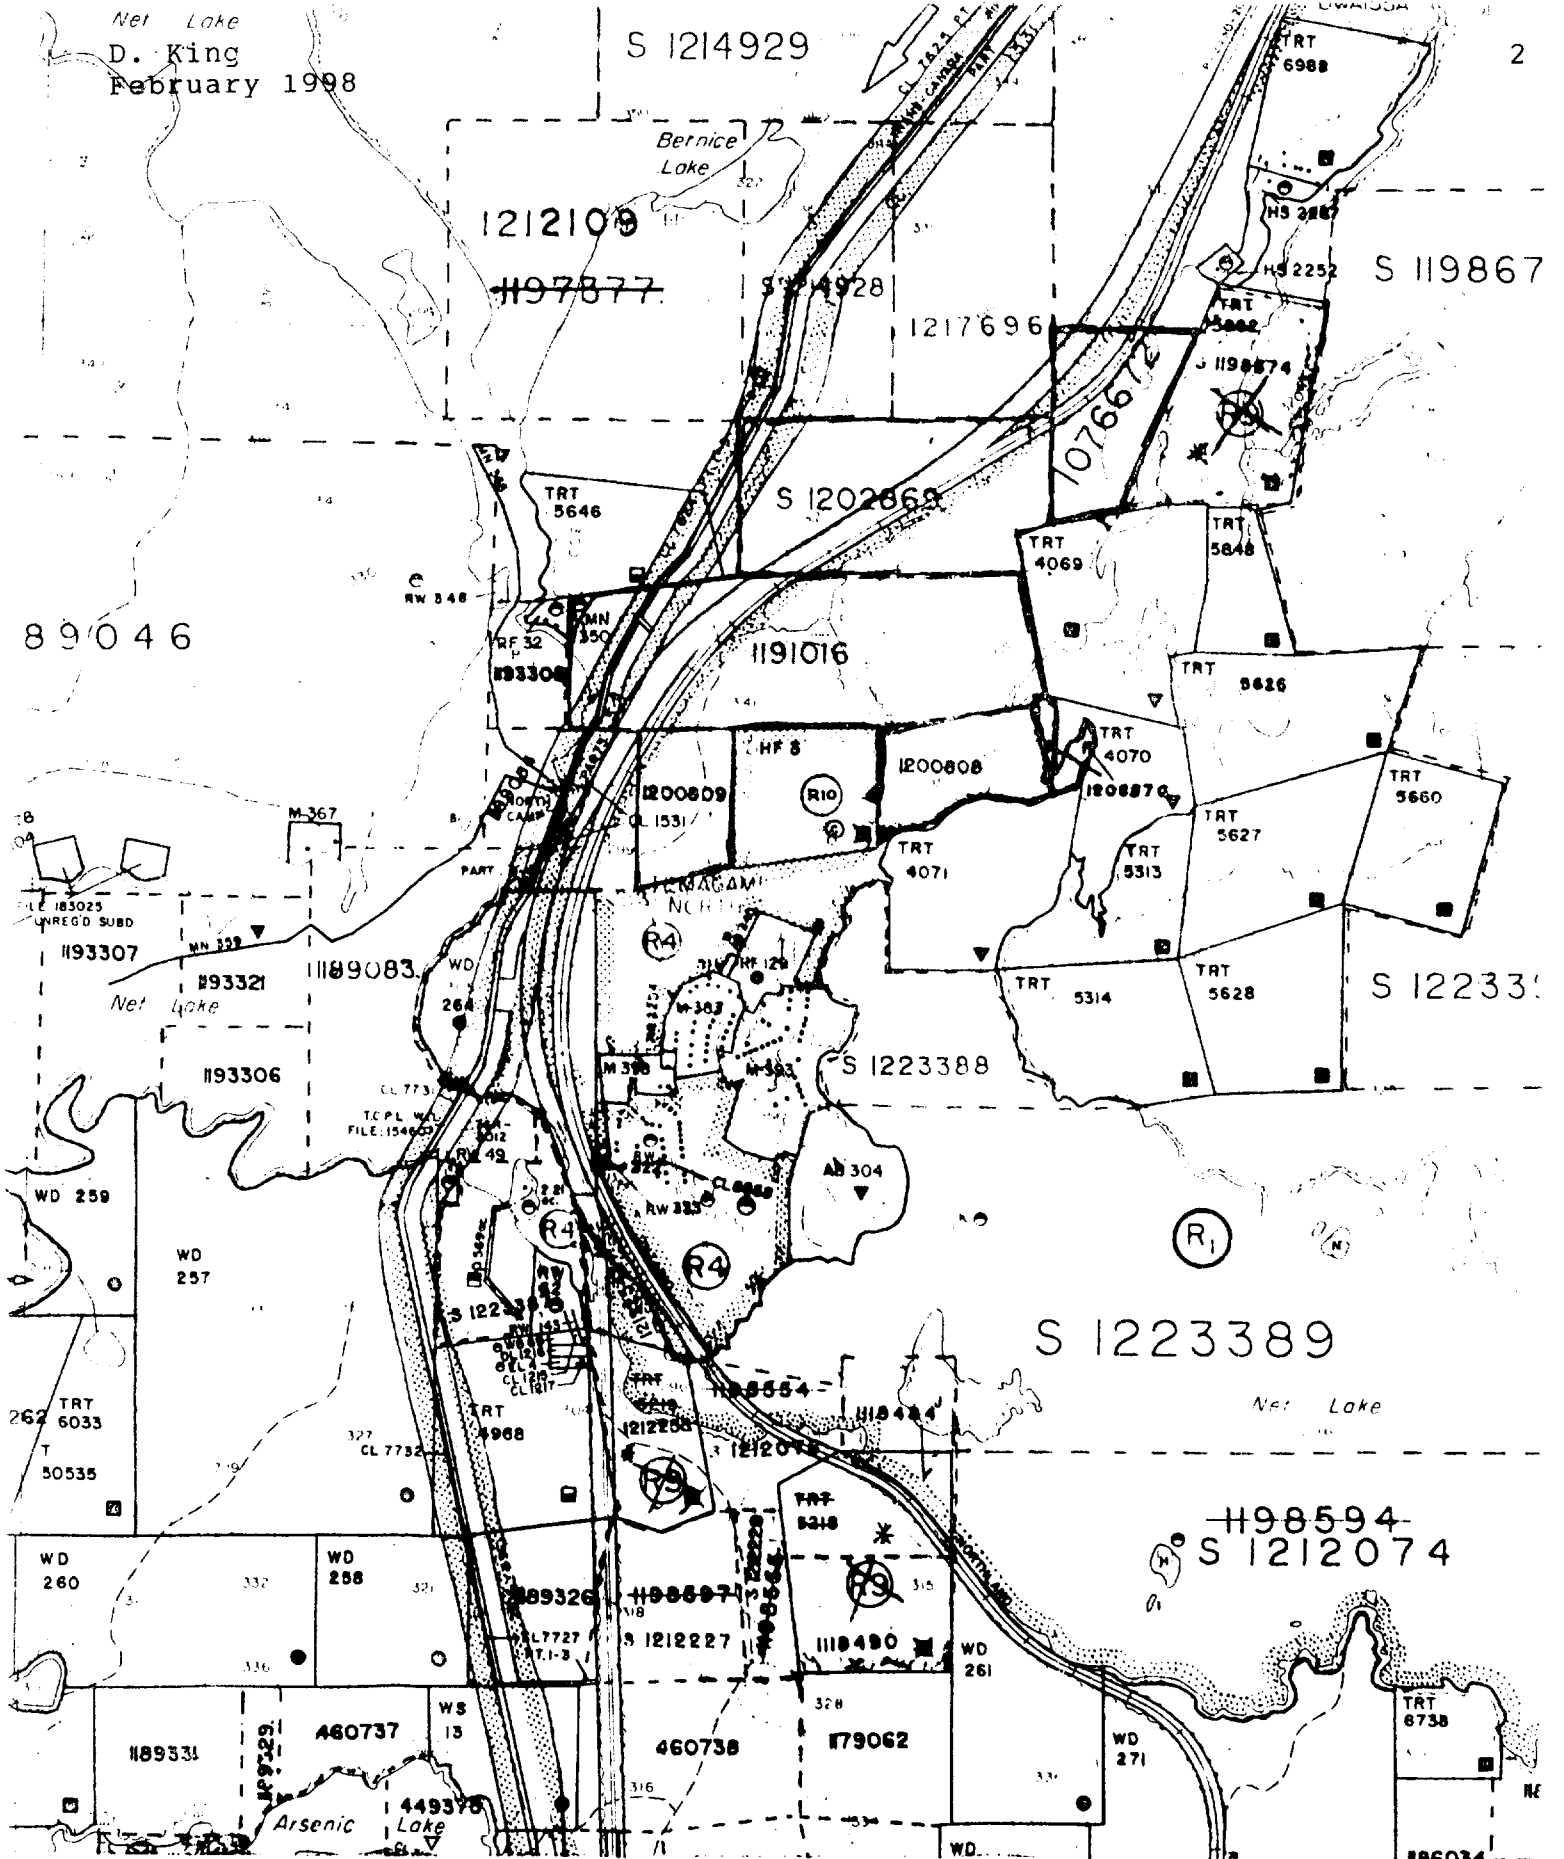

FIGURE 2. Location of Claims 1200808, 1202870, Strathy Township, taken from Claim Map G 3451. Scale: 2 cm to 400 m.

INTRODUCTION

Claims 1200808, 1202870 are single unit claims adjoining 1191016 to the north, claim 1200809 and Lease HF3 on the west, in the north-east corner of Strathy Township. (See Regional and Claim map locations, Figures 1, 2.)

Ownership of claims: Douglas King  
254 Eighth Ave.  
Kitchener, Ontario, N2C 1S7

Previous work was mentioned in the King's Barton Report, July 19, 1995. A drill program was performed in Claim 1202870 by S. Ciglen, 1956-58.

Reference: Earth Resources and Land Information System (ERLIS) assessment file index report.

GENERAL GEOLOGY

The O. G. S. Report 165, titled Geology of North Eastern Temagami Area, by G. Bennett, 1978, indicates on the geological map 2323, Chambers and Strathy townships, a tongue of mafic to intermediate metavolcanic rocks extends into the northeast part of Strathy township and into claims 1200808-9 and the southern three-quarters of claim 1191016, intruded by the Strathy-Chambers batholith in the north and the south.

PRESENTATION OF FIELD OBSERVATIONS

The field data is presented on a map at a horizontal scale of 1 cm to 25 m (Figure 4, back pocket).

The dates compiling, prospecting, traversing, sampling and working on claims 1200808, 1202870 are as follows:

1996

August 10:

In the north central part of Claim 1200808, from the trail, traverse and prospect south on an exposed ridge of contaminated phases of rocks to the shore line of Net Lake, thence east along the shore to a gossanous zone in mafic metavolcanics. Prospect area and collect samples for assay.

August 11:

Back to gossanous zone and traverse and prospect north to another gossanous zone in mafic metavolcanics with quartz stringers. Strip area 2 m by 2 m. Discover visible mo, cu. Collect samples for assay.

August 13:

In the north central part of Claim 1200808, from trail, traverse and prospect east to a high rocky area with a high, 7 m cliff of contaminated phases of rocks. Thence south along the lowest edge of the cliff face to a contact zone of mafic metavolcanics. Prospect area and collect samples.

August 22:

Traverse and prospect Claim 1202870. Discover old pits and trenches. Collect samples for assay.

1997

August 8:

Back to 1202870. Prospect and clean out some of the old pits and trenches. Collect samples for assay.

October 3:

Back to the metavolcanic contact zone (gossanous and mo, cu, mineralized area) in claim 1200808. Prospect and collect samples for assay.

Field survey conducted by D. King.

## MINERALIZATION

### Claim 1200808:

Molybdenite and chalcopyrite was discovered in the east central part.

### Claim 1202870:

The pits and trenches discovered are very gossanous. The use of pick and hammer exposed massive sulphide mineralization consisting of pyrite, chalcopyrite, and pyrrhotite which attracts the magnetic needle.

CONCLUSIONS AND RECOMMENDATIONS

1. Investigate further the mineralized area mo, cu, and 82 ppb au discovered in claim 1200808.
2. In claim 1202870, investigate the drill program previously done here. Clean out the pits and trenches and further test for copper, nickel and platinum group metals.

Respectfully submitted,

A handwritten signature in cursive script that reads "Douglas King". The signature is written in dark ink and is positioned above the typed name.

I, Douglas King (Print Full Name), do hereby certify that the above work credits are eligible under subsection 7 (1) of the Assessment Work Regulation 6/96 for assignment to contiguous claims or for application to the claim where the work was done.

Signature of Recorded Holder or Agent Authorized in Writing: Douglas King Date: February 19, 1998

6. Instructions for cutting back credits that are not approved.

Some of the credits claimed in this declaration may be cut back. Please check (✓) in the boxes below to show how you wish to prioritize the deletion of credits:

- 1. Credits are to be cut back from the Bank first, followed by option 2 or 3 or 4 as indicated.
- 2. Credits are to be cut back starting with the claims listed last, working backwards; or
- 3. Credits are to be cut back equally over all claims listed in this declaration; or
- 4. Credits are to be cut back as prioritized on the attached appendix or as follows (describe):

Note: If you have not indicated how your credits are to be deleted, credits will be cut back from the Bank first, followed by option number 2 if necessary.

For Office Use Only

Received Stamp	Deemed Approved Date	Date Notification Sent
	Date Approved	Total Value of Credit Approved
Approved for Recording by Mining Recorder (Signature)		

Personal information collected on this form is obtained under the authority of subsection 6 (1) of the Assessment Work Regulation 6/96. Under section 8 of the Mining Act, this information is a public record. This information will be used to review the assessment work and correspond with the mining land holder. Questions about this collection should be directed to a Provincial Mining Recorder, Ministry of Northern Development and Mines, 3rd Floor, 933 Ramsey Lake Road, Sudbury, Ontario, P3E 6B5.

Table with 4 columns: Work Type, Units of work, Cost Per Unit of work, Total Cost. Rows include Prospecting, geological sampling traverses, collect samples for assay, Assays, Associated Costs, Transportation Costs, Food and Lodging Costs, and Total Value of Assessment Work.

Calculations of Filing Discounts:

- 1. Work filed within two years of performance is claimed at 100% of the above Total Value of Assessment Work.
2. If work is filed after two years and up to five years after performance, it can only be claimed at 50% of the Total Value of Assessment Work.

TOTAL VALUE OF ASSESSMENT WORK x 0.50 = Total \$ value of worked claimed.

Note:

- Work older than 5 years is not eligible for credit.
- A recorded holder may be required to verify expenditures claimed in this statement of costs within 45 days of a request for verification and/or correction/clarification.

Certification verifying costs:

I, Douglas King, do hereby certify, that the amounts shown are as accurate as may reasonably be determined and the costs were incurred while conducting assessment work on the lands indicated on the accompanying

Declaration of Work form as Douglas King I am authorized to make this certification.

Dear Sir or Madam:

**Submission Number:** 2.18505

**Status**

**Subject: Transaction Number(s):** W9870.00251 Deemed Approval

---

We have reviewed your Assessment Work submission with the above noted Transaction Number(s). The attached summary page(s) indicate the results of the review. **WE RECOMMEND YOU READ THIS SUMMARY FOR THE DETAILS PERTAINING TO YOUR ASSESSMENT WORK.**

If the status for a transaction is a 45 Day Notice, the summary will outline the reasons for the notice, and any steps you can take to remedy deficiencies. The 90-day deemed approval provision, subsection 6(7) of the Assessment Work Regulation, will no longer be in effect for assessment work which has received a 45 Day Notice. Allowable changes to your credit distribution can be made by contacting the Geoscience Assessment Office within this 45 Day period, otherwise assessment credit will be cut back and distributed as outlined in Section #6 of the Declaration of Assessment work form.

Please note any revisions must be submitted in **DUPLICATE** to the Geoscience Assessment Office, by the response date on the summary.

If you have any questions regarding this correspondence, please contact Steve Beneteau by e-mail at [benetest@epo.gov.on.ca](mailto:benetest@epo.gov.on.ca) or by telephone at (705) 670-5855.

Yours sincerely,
