MINING LANDS SECTION

S. A. Gamble  
June, 1985

## Introduction

This report contains the results of rock grab sample gold analysis on M.C. L 532869, Catharine Township, District of Timiskaming. Quartz vein material was collected by B. G. Cook and submitted for gold assay.

## Location and Access ( see Map. 1 )

M. C. L 532869 is located in the Township of Catharine and consists of the S.W.  $\frac{1}{4}$  of the N $\frac{1}{2}$ , Lot 6 Con.III. The property is reached by travelling 22km. south from Larder Lake on Highway 624 where a bush road leads westerly for a distance of approximately 3kms. where an old logging trail leads 1.7 kms. to the property.

## Topography and Vegetation

The topography of the area is generally flat with local relief rarely exceeding 10 meters. The foliage is generally mixed evergreen and deciduous typical of northern Ontario bush. Some swampy ground occurs on the West boundary of the claim, and extends eastward into the central portion of the claim.

## Rock Sampling and Analysis

A total of 17 rock grab samples were collected from exposed quartz veins in old pits and trenches and from the dump near the old shaft. See accompanying plan for the sample locations.

The samples were submitted to Swastika Laboratories Ltd. for gold assaying.

The assay results vary from nil to 0.02 oz./ton as indicated on the certificate of Analysis enclosed within this report.

Recommendations

It is recommended that detailed sampling be carried out on all the exposed  
veins and altered wall rockes on the property.

Dear Sir:

RE: Mining Claim L 822574 in Catharine Township

I have not received the data (in duplicate) for the Assaying of Rock Samples on the above-mentioned claim.

As the assessment "Report of Work" was recorded by the Mining Recorder on June 24, 1985 the 60 day period allowed by Section 77 of the Mining Act for the submission of the technical reports and maps to this office will expire on August 22, 1985.

If the material is not submitted to this office by August 22, 1985, I will have no alternative but to instruct the Mining Recorder to delete the work credits from the claim record sheets.

For further information, please contact Mr. Arthur Barr at (416)965-4888.

Dear Sir:

RE: Report of Work # 235, Mining Claim L 532869 and  
Mining Claim L 822574, Catharine Township

In regard to your letter of August 12, 1985, and subsequent phone conversation with B. G. Cook in Kirkland Lake concerning the loss of two reports sent to your office by Purolator in June, 1985, I am enclosing two duplicate reports plus my original letter to your office dated June 7, 1985.

The work was performed on L 532869 but should be credited to the adjoining claim L 822574.

I trust this material will be received well in advance of the September 6, 1985 extension date you granted under the circumstances.

Yours truly,

*S. A. Gamble*

Dear Sir:

RE: Geochemical Survey on Mining Claim  
L 532869 in Catherine Township

Enclosed are two extra copies of the report and plans for the above-mentioned survey. We have duplicate copies in the above-mentioned file.

In order to complete your submission, please complete the enclosed man-days breakdown form and return to this office.

In addition this is to inform you that geochemical work can only be approved from claims on which the work was actually performed. Therefore when this survey is finally assessed, mining claim L 532869 and not L 822574 will be receiving the assessment credit.

For further information, please contact Mr. Dennis Kinvig at (416)965-4888.

Yours sincerely,
