REPORT ON DIAMOND DRILLING
 Claim L799965
 McElroy Township, Ontario
 by
 R.A. MacGregor, P. Eng.

GENERAL

A diamond drill hole was put down on claim L799965 in McElroy Township, District of Timiskaming, Ontario to test a VLF-EM conductor and potential sulphide zone outcropping on surface.

The hole cut a volcanic-wacke sequence of rocks showing in situ brecciation and an agglomerate-conglomerate (possibly debris flow) unit with sulphide clasts. No obvious economic mineralization was noted, however the environment remains potentially favourable for base metal deposition.

The hole was drilled by ^{Mr (Bud) Harrington 66 4th Ave. Kirkland Lake Ont.} ~~XXXXXXXXXXXX~~ments, with hole spotting and supervision by G. Bastarache the claim owner. The core was logged by the author.

Respectfully submitted

Robert A. MacGregor, P. Eng.

Table of Information/Attachments Required by the Mining Recorder

Type of Work	Specific information per type	Other information (Common to 2 or more types)	Attachments
Manual Work	Nil	Names and addresses of men who performed manual work/operated equipment, together with dates and hours of employment.	Work Sketch: these are required to show the location and extent of work in relation to the nearest claim post.
Shaft Sinking, Drifting or other Lateral Work			
Compressed air, other power driven or mechanical equip.	Type of equipment	Names and addresses of owner or operator together with dates when drilling/stripping done.	Work Sketch (as above) in duplicate
Power Stripping	Type of equipment and amount expended. Note: Proof of actual cost must be submitted within 30 days of recording.		
Diamond or other core drilling	Signed core log showing; footage, diameter of core, number and angles of holes.	Nil	Nil
Land Survey	Name and address of Ontario land surveyor.
