Mr. Arnold Allsopp,
111 Woods St.
Kirkland Lake, Ontario

Dear Mr. Allsopp:

As promised, please find enclosed a copy of Swastika Laboratories certificate of analysis for the samples you allowed us to collect on your Clifford Twp. property.

The Au Zone samples #1, 2, 3 are not continuous chip samples but are representative chip samples over the widths indicated.

The Cu Zone sample represents a large composite sample of mineralized material found in the vicinity of the copper zone trench.

The two pieces of pyritized material were grab samples collected in the vicinity of the gold zone trench.

Once again, I thank you for bringing the property to the attention of St. Joe Canada. I regret to say that we have no interest in it at this time.

Yours very truly,

Mr. Ernie Croxall,
77 - 3rd Street,
Kirkland Lake, Ontario.
P2N 1S6.

Dear Ernie:

Enclosed are the assays for the samples I collected from your Clifford-Ben Nevis property. Samples 33401-04 are a composite sample, probably biased toward a higher than average pyrite content, that I arbitrarily divided into four separate samples. As you can see there is a sampling problem so that the best way to evaluate the showing will be to strip the overburden and channel sample across the exposed areas.

Samples from the "Starter Pit" 33405-07 are uniformly disappointing and I would not recommend much more work on this particular area.

Sincerely yours,

Jim,
Enclosed are the assay certificate and invoice which you may use for assessment credit. You will have to draw up a sketch map for the location on your claim.

#2649 - matrix only -

quartz-carbonate - copy - 79

#2650 - pyritic fragment -

From these results, it's obvious that the matrix carries the gold.

You should hear from me by the end of June again.

Cheers,

Mini.

To Wit:

I, James E. Croxall

SOLEMNLY DECLARE, that

The expenditure credits on assaying that I am submitting, based on fees charged by Swastika Resources Laboratories Limited are true and exact to the best of my knowledge.

Proof of expenditures are very difficult to obtain from the field representatives who had the assaying performed.

To the best of my knowledge all of the costs incurred have been paid in full and I personally owe no money in connection with the assays to any of the companies mentioned in this report.

and I make this solemn Declaration conscientiously believing it to be true, and knowing that it is of the same force and effect as if made under oath.

Declared before me
