

41109SE0003 63.5976 CRERAR

010

³
Three holes were drilled on South Zone.

It was originally planned to drilled two holes on this zone but because of mineralized sections in hole # 901 + 902 it was decided to drill another on this zone, and post pone the ~~5~~ Five 100' holes on the North zone. till 1991

Although there is nothing definite at this time. INCO Has shown an interest and may look at this property in the spring of 1991.
