

## WORK REPORT ON THE VERMILION RIVER PROPERTY

Hutton Township Sudbury District, Ontario

FOR THE PERIOD UP TO AND INCLUDING SEPTEMBER 30, 1987

OREVCO INC.

RECEIVED

0.01 1987

MINING LANDS SECTION

#### INTRODUCTION

The 30 claims forming the Vermilion River Property (Appendix A) were optioned from the original staker, Oliver Maki, in June 1987. The claims were optioned in order to assess the placer gold potential, as this area has been known to contain gold bearing gravels, sands and clays.

### WORK PERFORMED

This portion of the work program consisted of mapping and sampling for assay the western portion of the claim block. This mapping, performed on claims 894727, 894728,943428, 943429 and 943430 is subsequent to and in addition to mapping done by Sandex Developments Ltd. in 1975, where all ground had not been covered. Work credits are being assigned through expenditure reporting, to claims 809450, 809451 and 864799.

### RESULTS and DISCUSSION

The resultant map shows small Pleistocene channel sequences, which have been assayed for gold and silver, and some for platinum. Traversing has identified topographical features which may be indicative of further possible channel sequences. Such features, over which past surveys have shown magnetic anomalies, may be candidates for vibracore drilling. A drilling program is anticipated to begin early this fall.

## APPENDIX A (see attached map)

The Vermilion River property is comprised of the following 30 claims in Hutton, Parkin, Norman and Wisner Townships, Sudbury District, Ontario:

TOWNSHIP	CLAIM #
Hutton	864642
	864643
	864644
	864645
