REPORT ON PHYSICAL WORK

Gordon Salo Claim # S 1198473 on Meteor Lake in Beulah Township.

Digging Pits

In an effort to confirm the presents of placer gold within the gravel deposits of Meteor lake it was necessary to excavate sample material from the reported mining location of the Onaping mining companies operations of 1899 to 1901.

Nature of rocks and mineralization exposed

No bedrock was observed on the claim as the gold bearing deposit would appear to be a glacial Esker composed of sand, gravel and boulders within the center of Meteor lake running in a more or less southerly direction. The sample material was excavated from a large old trench on the south end of the Esker in the center of the lake. The sample pitting covered an area approximately 1 meter wide extending from the top ridge of the workings down its face and into the bottom for a distance of about 10 meters with depths of no more than .25 meters. It was found that only extremely fine gold particles visible only with a hand lens could be found in the finer sands on the top of the excavation. More abundant and larger gold particles were found at depth in the courser gravel and sand materials at the bottom of the excavation. The gravel and sand materials were screened, panned and sluiced on site. Black sand and gold concentrate were carefully examined on site and recovered for future microscopic study work.

Assays

No material was collected for assay purposes.

Type of equipment used

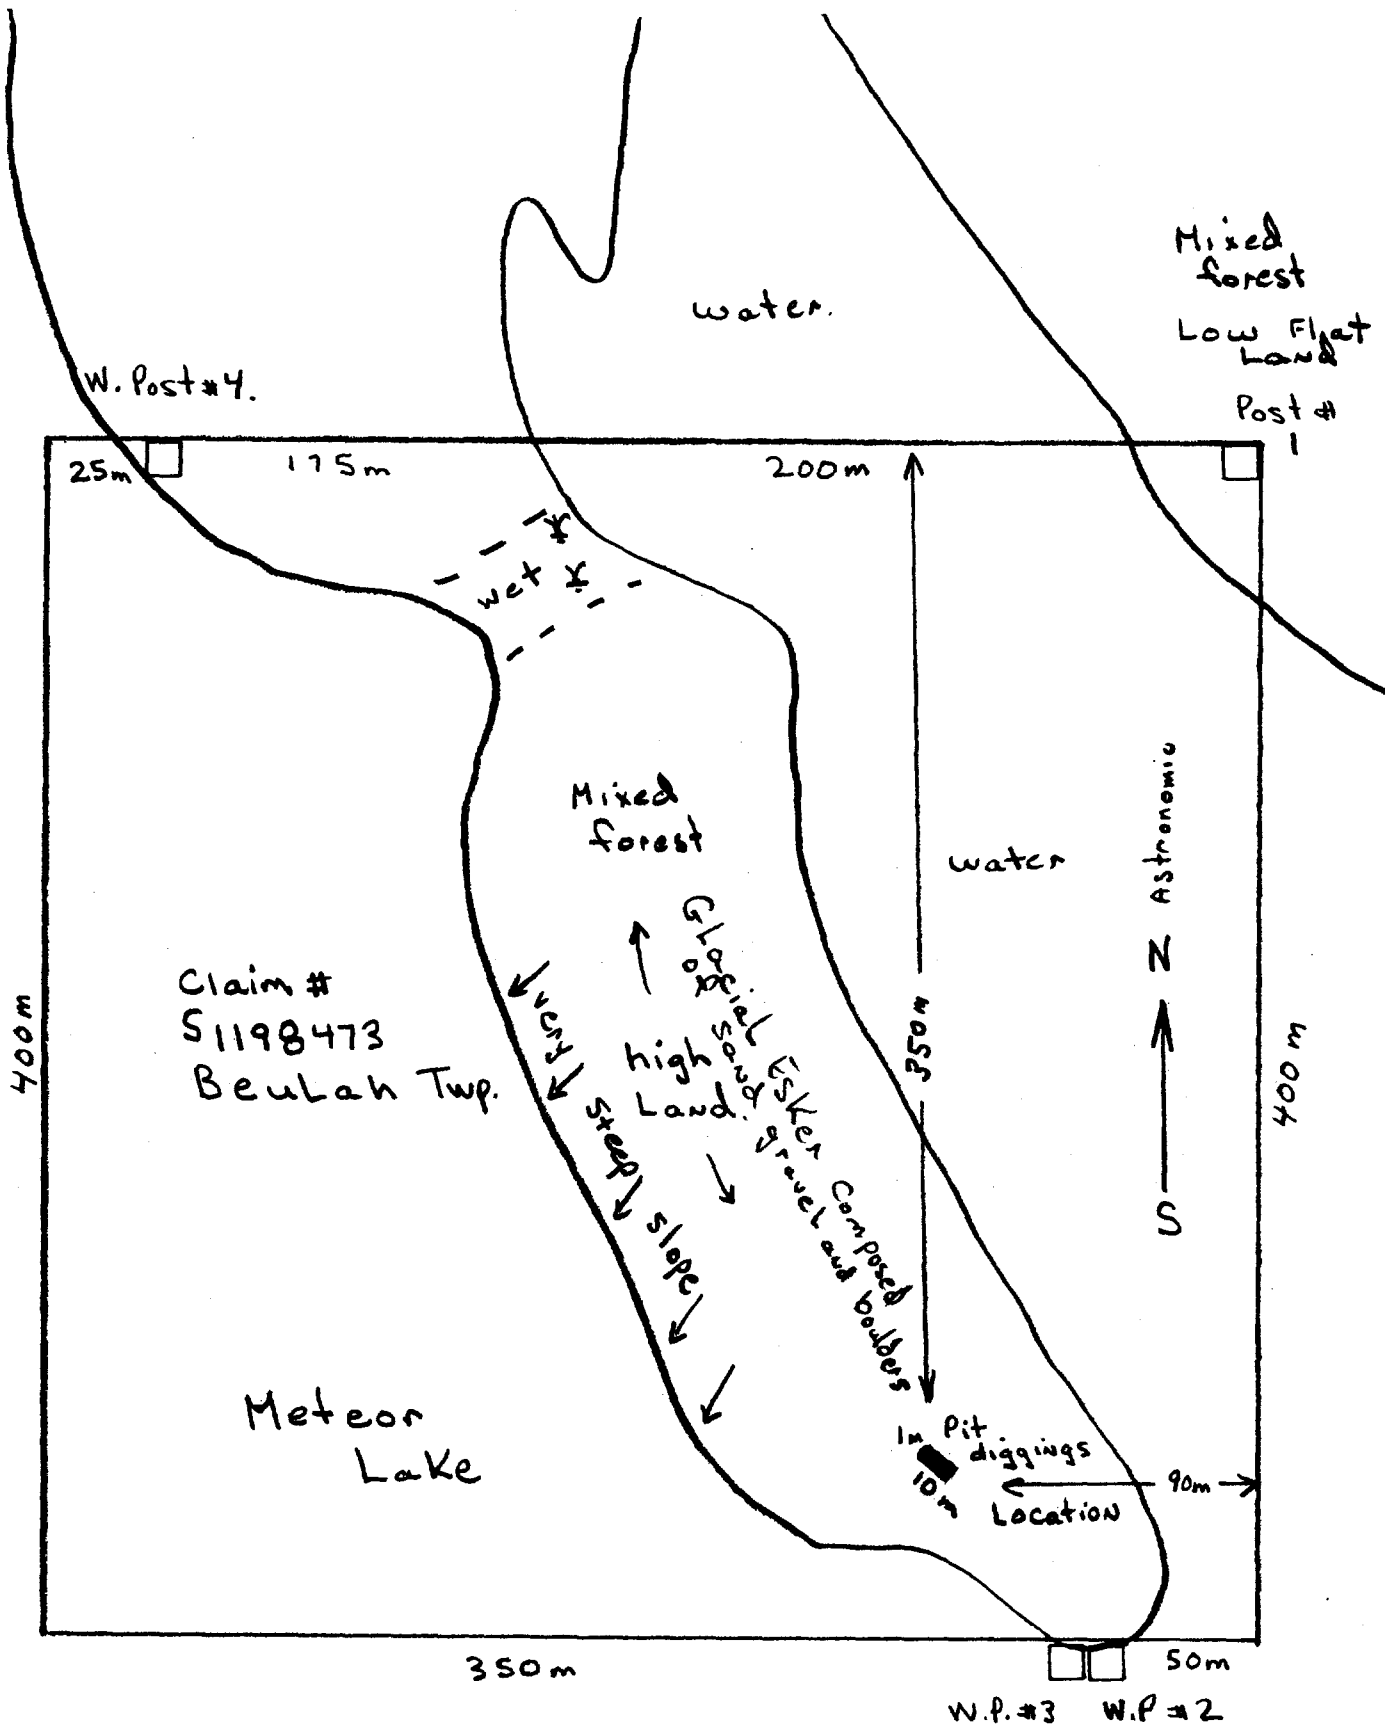

Shovel, Grubhoe, brush axe, gold pans, 1/20, 1/8, 1/2 inch screens, 20 liter pails, Micron gold finder sluice, mini water pump and hoses, hand lens, 10' aluminum boat with 8 hp. outboard, 3/4 ton 4x4 pickup truck.

M or G-Plan Number G-954	Resident Geologist District Sudbury

Please remember to: - obtain a work permit from the Ministry of Natural Resources as required;
- provide proper notice to surface rights holders before starting work;
- complete and attach a Statement of Costs, form 0212;
- provide a map showing contiguous mining lands that are linked for assigning work;
- include two copies of your technical report.

3. Person or companies who prepared the technical report (Attach a list if necessary)

6. Instructions for cutting back credits that are not approved.

Some of the credits claimed in this declaration may be cut back. Please check (✓) in the boxes below to show how you wish to prioritize the deletion of credits:

- 1. Credits are to be cut back from the Bank first, followed by option 2 or 3 or 4 as indicated.
- 2. Credits are to be cut back starting with the claims listed last, working backwards; or
- 3. Credits are to be cut back equally over all claims listed in this declaration; or
- 4. Credits are to be cut back as prioritized on the attached appendix or as follows (describe):

Note: If you have not indicated how your credits are to be deleted, credits will be cut back from the Bank first, followed by option number 2 if necessary.

Dear Sir or Madam:

Submission Number: 2.18201

Status

Subject: Transaction Number(s): W9870.00022 Approval

We have reviewed your Assessment Work submission with the above noted Transaction Number(s). The attached summary page(s) indicate the results of the review. **WE RECOMMEND YOU READ THIS SUMMARY FOR THE DETAILS PERTAINING TO YOUR ASSESSMENT WORK.**

If the status for a transaction is a 45 Day Notice, the summary will outline the reasons for the notice, and any steps you can take to remedy deficiencies. The 90-day deemed approval provision, subsection 6(7) of the Assessment Work Regulation, will no longer be in effect for assessment work which has received a 45 Day Notice.

Please note any revisions must be submitted in DUPLICATE to the Geoscience Assessment Office, by the response date on the summary.

If you have any questions regarding this correspondence, please contact Lucille Jerome by e-mail at jerome12@epo.gov.on.ca or by telephone at (705) 670-5858.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Blair Kite".
