Type of Survey and number of  
Assessment Days Credits per claim

## GEOPHYSICAL

Electromagnetic ..... days

Magnetometer ..... days

Radiometric ..... days

Induced Polarization ..... days

SECTION 86(18, 19 &amp; 20) see across

GEOLOGICAL ..... days

GEOCHEMICAL ..... days

Man days Airborne Special Provision Ground NOTICE OF INTENT TO BE ISSUED

- Credits have been reduced because of partial coverage of claims.
  - Credits have been reduced because of corrections to work dates and figures of applicant.
  - NO CREDITS have been allowed for the following mining claims as they were not sufficiently covered by the survey:
- 
- 
- 

## ASSAYING

## - Diamond Drilling -

## Location of (21) Drill Holes:

L. 213399

265417 to 19 inclusive

265436 - 37

Amount expended on assaying (399) core samples = \$798.00

Total assessment days credit allowed = 53

The above six mining claims may be grouped under Section 85 (6) for the purposes of recording the work credits of 53 days.

Approved - October 5, 1973
