## THE MINING ACT REPORT OF WORK

required for each type of work to be recorded.

The Recorder of Andrew Services of the Services of the Recorder of Andrews Services of the Ser	Co the Records	or of Linder	Jesti	TECK	T.P.	Mining Division
hereby report the performance of the member of the performance of the before reported to be applied on the following contiguous claims and the case of geological and/or geophysical survey (s) where more than 18 claims dre involved attach a schedul net case of geological and/or geophysical survey (s) where more than 18 claims dre involved attach a schedul that are the case of geological and/or geophysical survey (s) where more than 18 claims dre involved attach a schedul that are the case of geological and/or geophysical survey (s) where more than 18 claims dre involved attach a schedul that are the case of different and the case of different and the case of different and the dates and hours of their employment.  For Manual Work, Stripping or Opening up of Mines, Sinking Shafts or Other Actual Mining Operations — Names and addresses of the men who performed the work and the dates and hours of their employment. The power private or correct and angle of holes and diameter of care. Name and address ware or operator of drill. Dates when drilling was done. Signed core log and sketch in duplicate. For Power Stripping - Type of equipment. Names and addresses of the men and sketch in duplicate. For Power Stripping - Type of equipment. Names and addresses of the energy expended. Dates and hours work was done. Proof of schuel case must be submitted within 30 days of recording. With school the above types of work sketches are required to show the location and extent of the work in relative to the nearest claim poest. In the case of dismond or other core drilling the sketch must be submitted in duplic to the nearest claim poest. In the case of dismond or other core drilling the sketch must be submitted in duplic to the nearest claim poest. In the case of dismond or other core drilling the sketch must be submitted in duplic to the nearest claim poest. In the case of dismond or oth	Don	nis Dulle			15.1	3916
hereby report the performance of the member of the performance of the before reported to be applied on the following contiguous claims and the case of geological and/or geophysical survey (s) where more than 18 claims dre involved attach a schedul net case of geological and/or geophysical survey (s) where more than 18 claims dre involved attach a schedul that are the case of geological and/or geophysical survey (s) where more than 18 claims dre involved attach a schedul that are the case of geological and/or geophysical survey (s) where more than 18 claims dre involved attach a schedul that are the case of different and the case of different and the case of different and the dates and hours of their employment.  For Manual Work, Stripping or Opening up of Mines, Sinking Shafts or Other Actual Mining Operations — Names and addresses of the men who performed the work and the dates and hours of their employment. ior Manual Work, Stripping or Opening up of Mines, Sinking Shafts or Other Actual Mining Operations — Names and addresses of the men who performed the work and the dates and hours of their employment. For Diamond and other Core Drilling — Footage, No. and angle of holes and diameter of core. Name and addresses or operator of drill. Dates when drilling was done. Signed core log and sketch in duplicate. For Compressed Air or Other Power Driven or Mechanical Equipment Type of drill or equipment. Names and addresses of men engaged in operating equipment and the dates and hours heir employment. Type of equipment. Name and addresses of bwner or operator. Amount expended. Dates on which was done. Proof of ectual cest must be submitted within 30 days of recording. Work was done. Proof of ectual cest must be submitted within 30 days of recording. Work was done. Proof of ectual cest must be submitted within 30 days of recording. Work the above types of work sketches are required to show the location and extent of the work in relation to the nearest claim past. In the case of diamond or other core drilling the sketch must be submitted in duplicate to the case of geophysical survey. The names and addresses of men employed as well as dates. Type For Geological and Geophysical Survey. Reports and maps in duplicate must be filed with the Minis within 60 days of recording.  For Land Survey - the name and address of Ontario Land surveyor.  The Required Information is as Follows:  (Attach a list if this space is insufficient)  24.2.7.24.23.3.3.3.4.4.4.4.4.4.4.4.4.4.4.4.4.4				******	Lech. I.wf	1/2
