FINAL SUBMISSION

O.P.A.P- 96-296

*CURRIE TOWNSHIP
DENIS CRITES PROPERTY*

DECEMBER 1996

LOCATION

The Denis Crites, Currie Township Property consists of one-four unit claim block numbered L.1212691 , in the south half of Lot 6 Concession 2, Currie Township, Larder Lake Mining Division, District of Cochrane.

The property has a longitude and latitude of 48 35', 80 50'.

ACCESS

Access to this property is via Highway 101 east from Timmins, to Currie Road 4. At the end of the gravel road is an ATV (dry weather)/skidoo(winter) trail that leads to the lot 5/6 line. Travelling down the line for one and three quarter miles bring you to a drill road. Following the drill road for one quarter mile puts you on the east centre boundary of the claim.

PREVIOUS HISTORY

Work was reported as early as 1931 by Samuel Reid. As the regulations at the time did not require one to report the complete nature of the work, the detail are sketchy.

In 1967, Midrim Mining Company Ltd., filed two surveys. The first a Crone J. E. M. Electromagnetic and a McPhar Fluxgate Survey done by S. Guimond. The second being a Crone Randem Survey by L. Cunningham in 1976.

In 1984, Dore Explorations Inc., performed a Barringer Proton Magnetometer Survey by R. S. Middleton and a V.L.F. EM 16 with a geological survey by B. Keen.

In 1991, J. Salo held part of this property and filed a report for plugger work and drilling. A 102.5 foot drill hole was drilled with 15 feet overburden. These claims have since lapsed.

The property was then staked by Denis Crites, who performed a magnetometer and V.L.F. EM 16 survey followed by three diamond drill holes.

REGIONAL GEOLOGY

The gold deposits in the immediate area are found in the Kenojevis group of volcanics. The belt of mafic volcanics extends onto this property.

The Crites Property is in a favourable geological setting with good location in respect to other producing mines and the existence of several gold occurrences in the surrounding townships.

The Reid showing has been discussed by several authors in reports on the area. H. C. Laird (1931), E. J. Leahy (1965), and S. Ferguson et al (1973). The showing is located in the SE 1/4 of Lot 6 Con 2 with values of .12opt AU by Reid and .2opt reported by Ferguson in the form of quartz stringers in highly altered basalts. The sheared host rocks associate with sphalerite, chalcopyrite and pyrite.

PROPERTY GEOLOGY

Outcrop is abundant on the east side of the property for approximately fifty percent. It is in the form of large mafic volcanics with diabase dykes intruding throughout.

The western side of the property is lowland and swamp with the Grindstone Creek running north-south throughout.

The outcrop on the property is mostly light grey mafic volcanics intersected by diabase dykes. Quartz veinlets and feldspar stringers run throughout the volcanics.

The diabase dykes are of different textures from fine grained to coarse grained. Very fine disseminated pyrite is visible in the diabase.

From previous core logs on this property it is mainly basalts and gabbros. All data is characteristic of the Kenjevis type rock.

WORK PERFORMED

The Crites Currie Property was the subject of a diamond drill program which consisted of two drill holes.

The holes were spotted by Denis Crites using data from surveys performed in 1995.

Drill hole C96 was located at 0+75S 50 m west at a 45 degree angle for 407 feet in a south direction.

Drill hole C1-96 was located at 1+75s at a 45 degree angle for 382 feet in a south direction.

The core was logged in Timmins by Ken Lapierre and samples were sent to Swastika Laboratories for assays.

The Ministry of Northern Development and Mines may verify all statements related to and made herein this application.

I am the person named in the Final Submission Form under the Ontario Prospectors Assistance Program.

2. I am ordinarily a resident of Canada.
3. I have complied with all the requirements of the said program.
4. I understand that it is an offence under the Ontario Mineral Exploration Act, R.S.O. 1990, to make a false or misleading statement and that all statements and all other information submitted in support of the said application are true and correct.
5. I was not employed by the Mines and Minerals Division of the Ministry while in receipt of the OPAP grant.
6. I am aware that any other Provincial or Federal Government financial assistance received for said application will be deducted from the amount of incurred "Total Eligible Expenses".

It is an Offence under subsection 8(1)(A) of the Ontario Mineral Exploration Act, R.S.O. 1990 to knowingly furnish false or misleading information.

Personal information on this form is obtained under the authority of the Ontario Mineral Exploration Act, R.S.O. 1990, sections 2, 3 and 4 and the Ontario Prospectors Assistance Program Regulation, sections 4, 5 and 6. The financial and technical information will be used for the purpose of determining the eligibility of the applicant to

have a program designated for financial assistance and the amount of such assistance. Other information, such as statistical information about the individual projects will be used for the purpose of determining the overall effectiveness of the program. It may be disclosed for those purposes and I consent to its disclosure for such

purposes. Questions about this collection should be directed to Supervisor, Incentives Office, Mining and Land Management Branch, Ministry of Northern Development and Mines, 5th Floor, 933 Ramsey Lake Road, Sudbury, Ontario P3E 6B5, Toll free 1-800-265-0834.

Personal information collected on this form is obtained under the authority of subsection 6(1) of the Assessment Work Regulation 6/96. Under section 8 of the Mining Act, the information is a public record. This information will be used to review the assessment work and correspond with the mining land holder. Questions about this collection should be directed to the Chief Mining Recorder, Ministry of Northern Development and Mines, 6th Floor, 933 Ramsey Lake Road, Sudbury, Ontario, P3E 6B5.

Work Type	Units of Work <small>Depending on the type of work, list the number of hours/days worked, metres of drilling, kilometres of grid line, number of samples, etc.</small>	Cost Per Unit of work	Total Cost
Drilling	2-holes 793'		4000. ⁰⁰
Associated Costs (e.g. supplies, mobilization and demobilization).			
Mob & de Mob			2000. ⁰⁰
Supplies			3260. ⁰⁰
Rentals			2000. ⁰⁰
Transportation Costs			
Road			522. ⁰⁰
Food and Lodging Costs			
Total Value of Assessment Work			11782.⁰⁰

Stamp: JUN 28 1997
10:45 Z.

Calculations of Filing Discounts:

1. Work filed within two years of performance is claimed at 100% of the above Total Value of Assessment Work.
2. If work is filed after two years and up to five years after performance, it can only be claimed at 50% of the Total Value of Assessment Work. If this situation applies to your claims, use the calculation below:

TOTAL VALUE OF ASSESSMENT WORK × 0.50 = Total \$ value of worked claimed.

Note:
 - Work older than 5 years is not eligible for credit.
 - A recorded holder may be required to verify expenditures claimed in this statement of costs within 45 days of a request for verification and/or correction/clarification. If verification and/or correction/clarification is not made, the Minister may reject all or part of the assessment work submitted.

Certification verifying costs:

I, J. C. SALO (please print full name), do hereby certify, that the amounts shown are as accurate as may reasonably be determined and the costs were incurred while conducting assessment work on the lands indicated on the accompanying Declaration of Work form as agent I am authorized (recorded holder, agent, or state company position with signing authority) to make this certification.
