

OVERBURDEN DRILLING REPORT

This overburden drilling report of work refers to a diamond drill hole R-2 which was lost in overburden at a depth of 243 feet. The total cost of drilling this hole was \$5,597 and signed receipts will accompany this report.

The property consists of six claims (P381221 to P381224 incl., P410847 to P410848 incl.) in Sheraton Township, approximately 20 miles E.S.E. of Timmins, Ontario.

Lat. 80°45' Long. 48°25'

N.T.S. 42-A-7

The property may be reached by car, by travelling approximately 10 miles south of the Gibson Lake road, then turning east to follow a bush road for about one and one half miles. The remaining half mile of bush road must be travelled by foot due to swampy conditions.

Standard wire line diamond drilling equipment was used to drill the hole.

No samples were taken of the overburden.

For the hole location with respect to the claim boundaries, please refer to the attached map.
