

Report on Assessment Work Done in
1996 on the Maki Claim Group

Our work consisted of keeping previously made trenches and stripping areas clean of winter debris and water.

Some cobra work and blasting was done on a new showing (Pond Showing) as well as considerable work on the Key Claim.

As noted in my last years report a major mining company finally visited our property and took samples as shown on accompanying maps. While they liked the showings they felt they did not want to option the property on a "stand alone" situation. Another junior mining company visited our property and at present we are in negotiations for an option.

The Moosehorn, Line 20, KM Vein and AM Vein were all worked on to keep the showings fresh for examination by interested parties. The Pond Showing is a rusty type quartz iron formation with chalco, pyrite and magnetite and is about 7 feet wide and traced for 200 feet. Several pop holes were put in and sampled with a low gold value.

Considerable work consisting of drilling and blasting was done on the Key Claim. We broke down bigger blown rocks by hand and sorted the vein material for crushing at a later date, as we want to verify possibilities of a small scale operation, pending on our bulk sampling.

Respectfully submitted,

Neil R. Maki

6. **Instructions for cutting back credits that are not approved.**

Some of the credits claimed in this declaration may be cut back. Please check (✓) in the boxes below to show how you wish to prioritize the deletion of credits:

- 1. Credits are to be cut back from the Bank first, followed by option 2 or 3 or 4 as indicated.
- 2. Credits are to be cut back starting with the claims listed last, working backwards; or
- 3. Credits are to be cut back equally over all claims listed in this declaration; or
- 4. Credits are to be cut back as prioritized on the attached appendix or as follows (describe):

Note: If you have not indicated how your credits are to be deleted, credits will be cut back from the Bank first, followed by option number 2 if necessary.

Calculations of Filing Discounts:

1. Work filed within two years of performance is claimed at 100% of the above Total Value of Assessment Work.
2. If work is filed after two years and up to five years after performance, it can only be claimed at 50% of the Total Value of Assessment Work. If this situation applies to your claims, use the calculation below:

TOTAL VALUE OF ASSESSMENT WORK × 0.50 = Total \$ value of worked claimed.

Note:

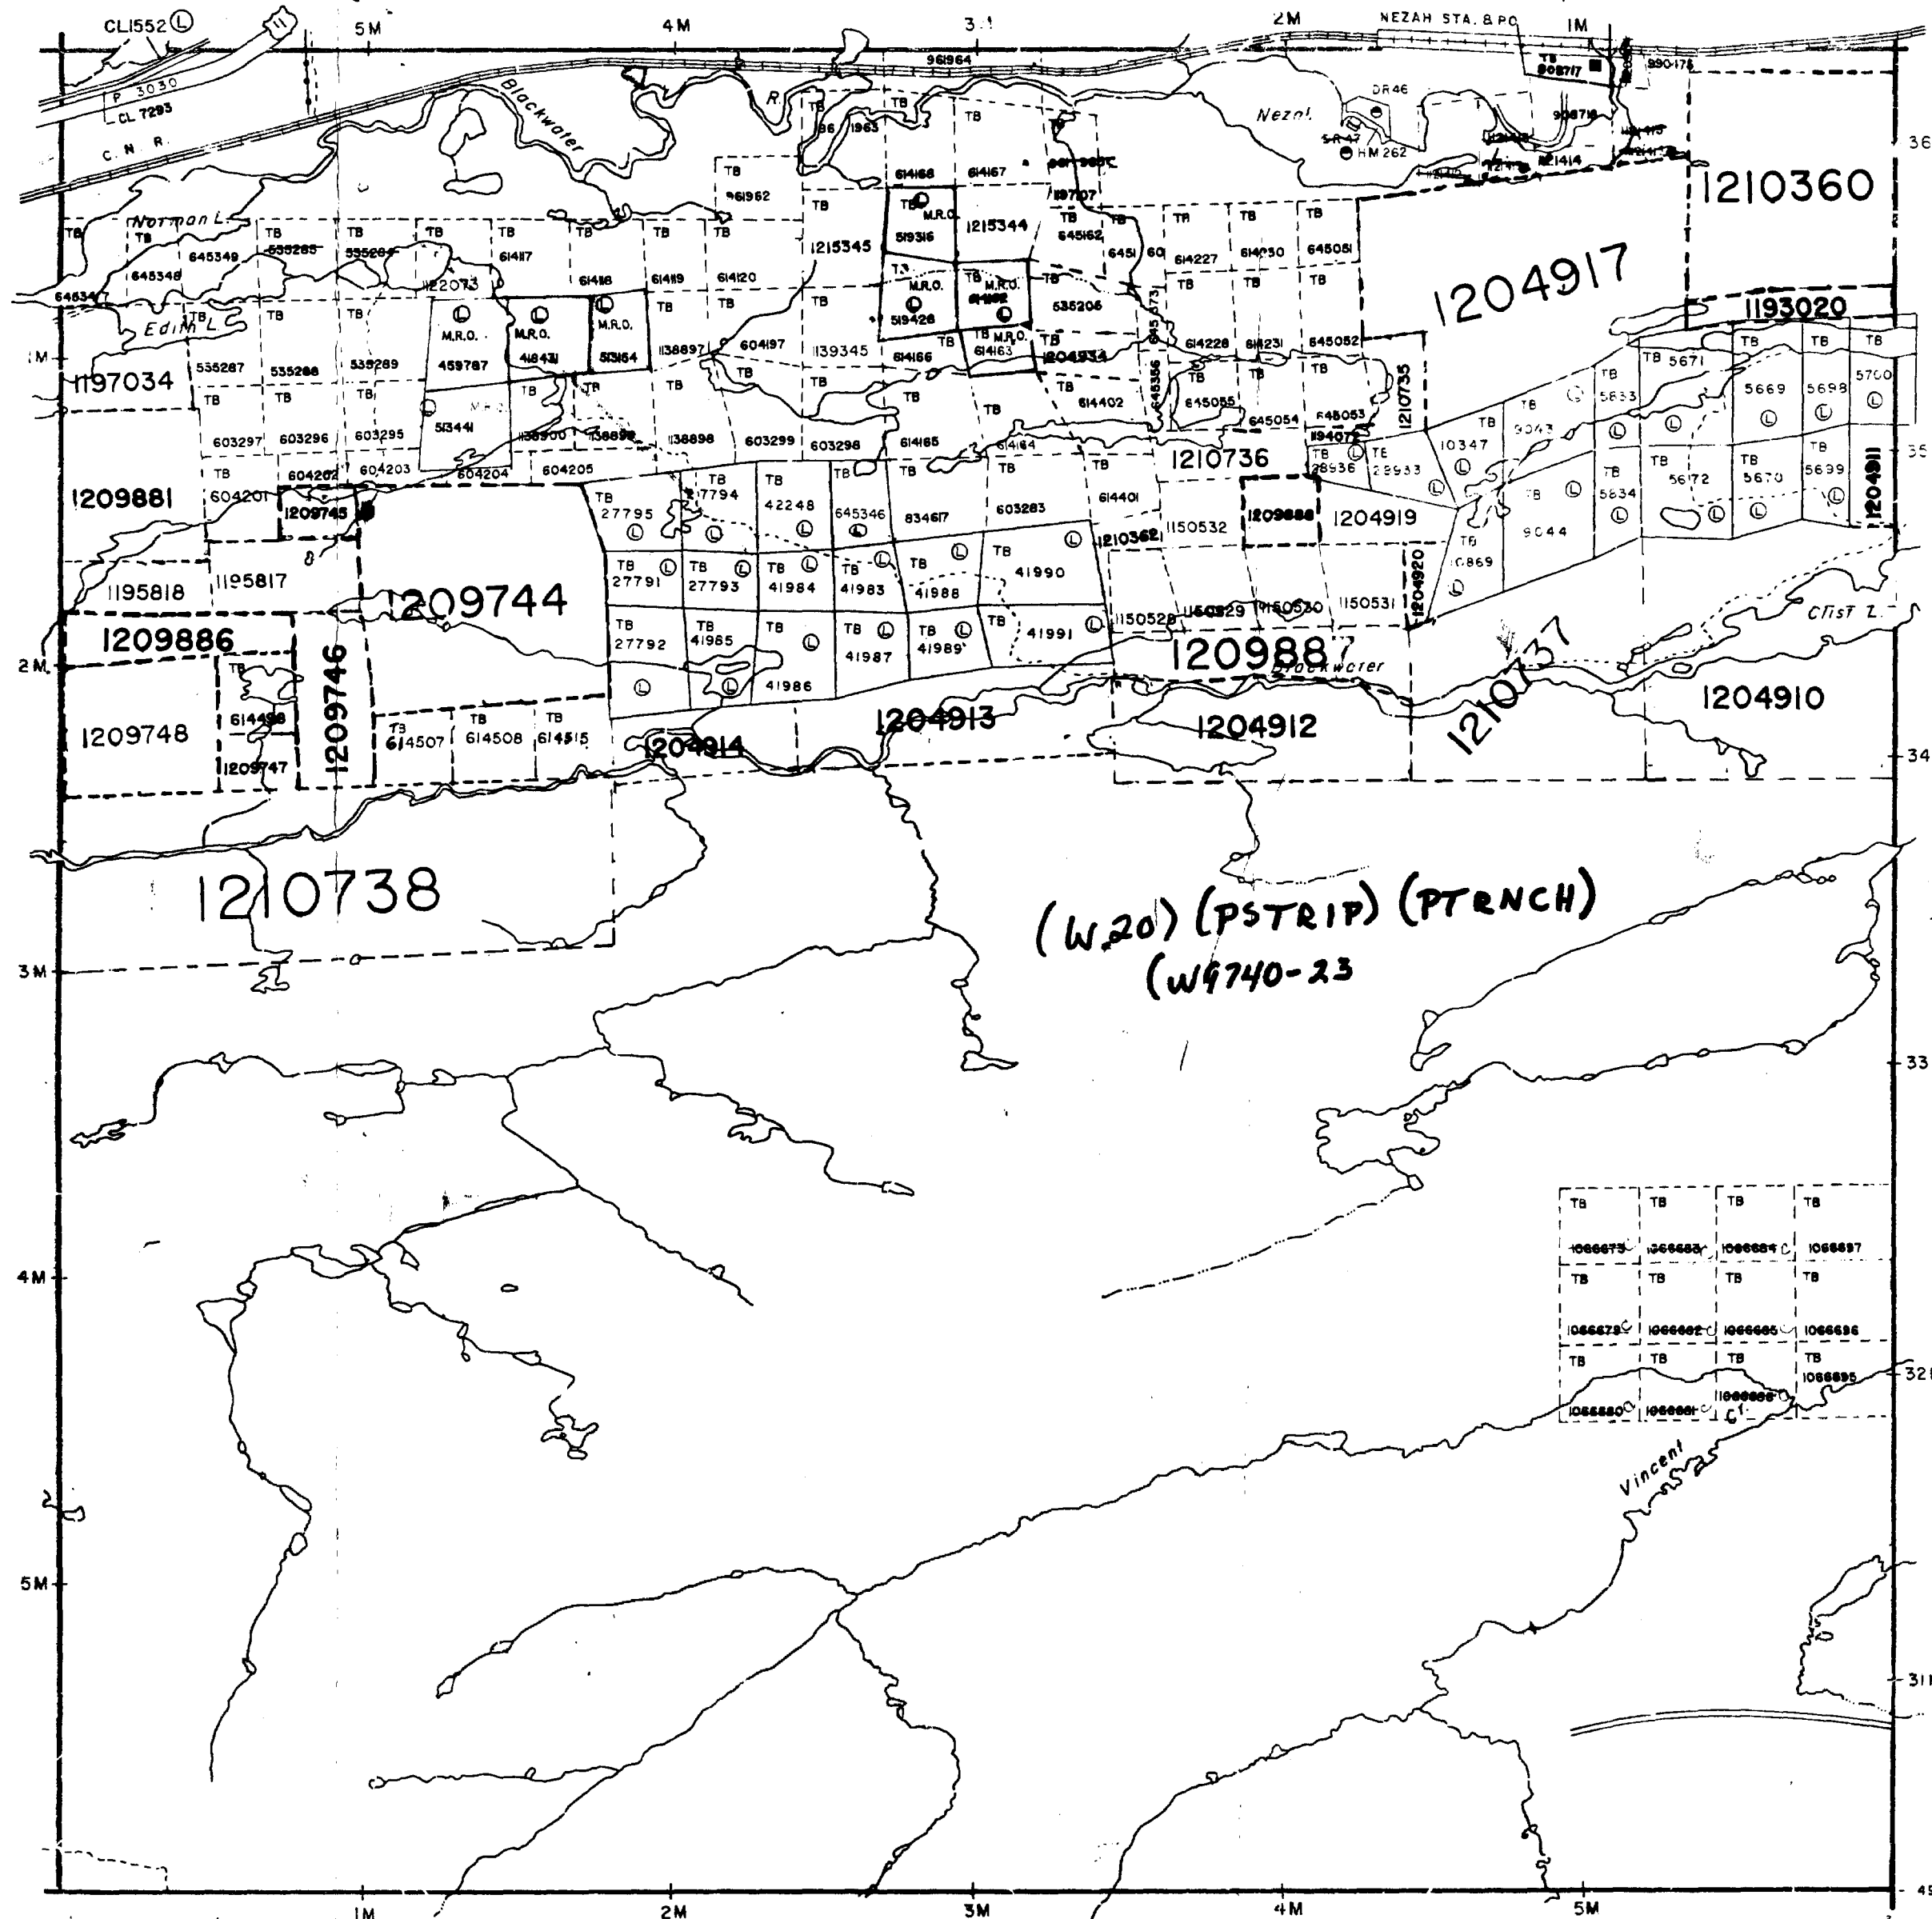

- Work older than 5 years is not eligible for credit.
- A recorded holder may be required to verify expenditures claimed in this statement of costs within 45 days of a request for verification and/or correction/clarification. If verification and/or correction/clarification is not made, the Minister may reject all or part of the assessment work submitted.

Certification verifying costs:

I, HEIL R. MAKI (please print full name), do hereby certify, that the amounts shown are as accurate as may reasonably be determined and the costs were incurred while conducting assessment work on the lands indicated on the accompanying Declaration of Work form as RECORDED HOLDER I am authorized (recorded holder, agent, or state company position with signing authority) to make this certification.
