### Access

The Property can be accessed by  
taking highway #11 23 Km east of Beardmore  
to provincial road #801 Proceed north on  
the 801 to the Sturgeon River

### Geology

The property is underlain by diorite quartz-  
ite and massive feldspar porphyry of the  
Elmhurst Lake stock Numerous quartz veins  
cut the Elmhurst Lake Stock near the Sturgeon  
river. These are found in narrow northeast  
trending shear zones and often carry  
pyrite calcopyrite and gold.

(2)

## Summary of Work done and Results.

One day was spent prospecting in the south eastern portion of claim # 1208215. A series of old grown in trenches were found and appear to be on the same Northeast-trending structure.

One day was spent locating the 500 N Base Line and lines 20 W and 24 W.

Trench # 46-1 was put in to clean out and open up an old trench. Trenches 2-5 were put in to clean out and open up along strike the series of old grown in trenches found while prospecting. Trenches 6-8 were put in in an attempt to explain conductors M-N and O on Curling Gold's Geophysical interpretation Map. Trenches 9-13 were put in in an attempt to explain conductors E-F-G-H and B. On Curling Gold's Geophysical interpretation Map.

(3)

## Conclusions & Recommendations.

Assay results were encouraging particularly in trench #96-4 sample # 7365 returned 5074 PPB. Au and sample # 7365 returned 519 PPB. Au. Trench # 96-13 had values up to 60 PPB Au and 1.0 PPM As.

More drilling Blasting and sampling is recommended in trenches 96-2 - 96-4 and in Trench # 96-13.

Access

The Property can be accessed by following the pipeline<sup>line</sup> west from the Beardmore lagoons for 2 km. to a creek 400 meters north of the Black Water River.

## Geology.

The Pipe Line Property is underlain by mafic metavolcanics of the Southern Metavolcanic Belt of the Beardmore-Geraldton Belt (Wabigoon Subprovince). Metavolcanics consist of massive pillowed and amygdaloidal mafic metavolcanics (basalts) (Shanks) (1993). An Iron formation unit is hosted in the basalts and is made up of iron carbonate, recrystallized chert, magnetite and a green iron amphibole. Milky white quartz veins 5 to 20 cm wide are often conformable with the banded iron formation. Pyrite, arsenopyrite and minor pyrrhotite and calcopyrite occur. Arsenopyrite can be medium to very coarse grained. The strike of the iron formation is  $72^{\circ}$  to  $75^{\circ}$  and dips vertical to  $-80^{\circ}$  north.

Prospecting discovered the new zone on the property in late 1986.

The new zone carried gold values up to 2.57 oz/ton A.V. in a grab sample (Sample # 7357). The mineralized banded iron formation is 11 to 12 ft wide at the point of strong sulfide mineralization and good gold values.

Location.

Quartz # 2.17330  
Dyke # 1107

Windigo Lake Area

Erwin Twp Claim Map # E-164

Thunder Bay Mining Division

NTS. Map Sheet Beardmore 42E-12

Longitude  $87^{\circ} 50'$

Latitude  $49^{\circ} 43' 30''$

### Access

The property can be accessed by taking highway # 11 10 km east of Beardmore to The Windigo Lake Rd. Proceed north on The Windigo Lake Rd to an old bush rd east of the Windigo Lake Rd just before Foxeur creek. The old bush rd crosses the east end of McCambly Lake and turns west following along the north side of McCambly Lake. From here the property can be accessed by pickup to the east boundary of claim # 1196642.

### Geology

The Property is underlain by felsic meta volcanic rock a portion of the Oquirrhos Tashota belt. Structurally the claims are bounded to the north by the Paint Lake Fault: A major Transcurrent Fault that trends  $85^{\circ} A2$ . Topographically McCombly Lake is situated within the fault zone. Massive and pillowed Alalic meta volcanics occur south of the fault. The felsic meta volcanics consist of tuff-breccia and massive flows.

(3)

## Summary of work done and Results

3 days of traditional prospecting were done approx 3 line km. Traverses were generally made in a North South direction.

2 mineralized shear zones were found (py + cp) Traverses area # 2 South central area of Plot # 1196652 and Traverses area # 3 in the South West corner of Plot 1196652. Further prospecting in Trench 95-5 where too much water was coming in at the time the Trench was put in revealed the presence of a 15 meter wide zone of quartz and massive pyrite. Trench 96-1 was put in to further explore this zone. Trench 96-2 and 96-3 were put in to the west on a strike of the zone in Trench 96-1. Trench 96-4 was put in to trace the sulfide zone's in Trench 95-8 to the east. These zones were found to pinch out. Trench 96-5 was put in on a zone of Carbonatized Sulfidic felsic volc. with minor Hem-py + cp which was uncovered with the tractor while getting in the Backhoe trail. Trench 96-6 was put in on a shattered out cropping with minor py. Trench.

(4)

96-7 was put in on a shear zone found on prospecting traverse #2 in South central claim # 119665-2 and trench # 96-8 was put in on the shear zone found in prospecting Traverse #3 in the south west corner of claim # 119665-2.

### Conclusions and Recommendations

Stripping and trenching indicates the westward extension of the shear zone or zones found in previous years work. Values were very discouraging however more sampling should be done in tr 96-4 and tr 96-5 to further evaluate the sulfide zones found in these trenches.

### 4. Certification by Recorded Holder or Agent

I, *Lyle Holt* (Print Name), do hereby certify that I have personal knowledge of the facts set forth in this Declaration of Assessment Work having caused the work to be performed or witnessed the same during or after its completion and, to the best of my knowledge, the annexed report is true.

Signature of Recorded Holder or Agent <i>[Signature]</i>	Date <i>Apr 7/97</i>
Agent's Address <i>Deemed - July 6 197</i>	Telephone Number <i>807 875-2434</i>
	Fax Number <i>807 875-2582</i>

5. Work to be recorded and distributed. Work can only be assigned to claims that are contiguous (adjoining) to the mining land where work was performed, at the time work was performed. A map showing the contiguous link must accompany this form.

Mining Claim Number. Or if work was done on other eligible mining land, show in this column the location number indicated on the claim map.	Number of Claim Units. For other mining land, list hectares.	Value of work performed on this claim or other mining land.	Value of work applied to this claim.	Value of work assigned to other mining claims.	Bank. Value of work to be distributed at a future date.

I, Lyle Holt (Print Full Name), do hereby certify that the above work credits are eligible under subsection 7 (1) of the Assessment Work Regulation 6/96 for assignment to contiguous claims or for application to the claim where the work was done.

Signature of Recorded Holder or Agent Authorized in Writing: [Signature] Date: Apr 7/97

6. Instructions for cutting back credits that are not approved.

Some of the credits claimed in this declaration may be cut back. Please check (✓) in the boxes below to show how you wish to prioritize the deletion of credits:

- 1. Credits are to be cut back from the Bank first, followed by option 2 or 3 or 4 as indicated.
- 2. Credits are to be cut back starting with the claims listed last, working backwards; or
- 3. Credits are to be cut back equally over all claims listed in this declaration; or
- 4. Credits are to be cut back as prioritized on the attached appendix or as follows (describe):

Please Call.

Note: If you have not indicated how your credits are to be deleted, credits will be cut back from the Bank first, followed by option number 2 if necessary.

APR - 7 1997

Calculations of Filing Discounts:

RECEIVED

1. Work filed within two years of performance is claimed at 100% of the above Total Value of Assessment Work.
2. If work is filed after two years and up to five years after performance, it can only be claimed at 50% of the Total Value of Assessment Work. If this situation applies to your claims, use the calculation below:

TOTAL VALUE OF ASSESSMENT WORK                      x 0.50 =                      Total \$ value of worked claimed.

Note:

- Work older than 5 years is not eligible for credit.
- A recorded holder may be required to verify expenditures claimed in this statement of costs within 45 days of a request for verification and/or correction/clarification. If verification and/or correction/clarification is not made, the Minister may reject all or part of the assessment work submitted.

RECEIVED  
MAY 20 1997  
MINING LANDS BRANCH

Certification verifying costs:

I, Lyle Holt (please print full name), do hereby certify, that the amounts shown are as accurate as may reasonably be determined and the costs were incurred while conducting assessment work on the lands indicated on the accompanying Declaration of Work form as recorded holder. I am authorized (recorded holder, agent, or state company position with signing authority) to make this certification.

Declaration of Assessment Work Performed on Mining Land

Mining Act, Subsection 65(2) and 66(3), R.S.O. 1990

Transaction Number (office use) 119740-157 Assessment Files Research Imaging

Personal information collected on this form is obtained under the authority of subsections 65(2) and 66(3) of the Mining Act. Under section 8 of the Mining Act, the information is a public record. This information will be used to review the assessment work and correspond with the mining land holder. Questions about this collection should be directed to the Chief Mining Recorder, Ministry of Northern Development and Mines, 6th Floor, 933 Ramsey Lake Road, Sudbury, Ontario, P3E 6B5.

Instructions: - For work performed on Crown Lands before recording a claim, use form 0240. - Please type or print in ink.

2.17330

1. Recorded holder(s) (Attach a list if necessary)

Form with fields for Name, Address, Client Number, Telephone Number, and Fax Number for two holders: Lyle Holt and Nolan Cox.

2. Type of work performed: Check (✓) and report on only ONE of the following groups for this declaration.

Geotechnical: prospecting, surveys, assays and work under section 18 (regs) Physical: drilling, stripping, trenching and associated assays Rehabilitation

Form with fields for Work Type (prospectings + Assays), Dates Work Performed (16 Oct 96 to 24 Oct 97), Township/Area (Summers), Mining Division (Thunder Bay), and Resident Geologist (Deardorff-Gerrardson).

- Please remember to: - obtain a work permit from the Ministry of Natural Resources as required; - provide proper notice to surface rights holders before starting work; - complete and attach a Statement of Costs, form 0212; - provide a map showing contiguous mining lands that are linked for assigning work; - include two copies of your technical report.

3. Person or companies who prepared the technical report (Attach a list if necessary)

Form with fields for Name, Address, Telephone Number, and Fax Number for Lyle Holt, and a RECEIVED stamp dated MAY 20 1997 from MINING LANDS BRANCH.

4. Certification by Recorded Holder or Agent

I, Lyle Holt, do hereby certify that I have personal knowledge of the facts set forth in this Declaration of Assessment Work having caused the work to be performed or witnessed the same during or after its completion and, to the best of my knowledge, the annexed report is true.

Form with fields for Signature of Recorded Holder or Agent, Date (Apr 7/97), Agent's Address, Telephone Number, and Fax Number.

3. Work to be recorded and distributed from claim to claim, at the mining land where work was performed, at the time work was performed. A map showing the contiguous link must accompany this form.

Mining Claim Number. Or if work was done on other eligible mining land, show in this column the location number indicated on the claim map.	Number of Claim Units. For other mining land, list hectares.	Value of work performed on this claim or other mining land.	Value of work applied to this claim.	Value of work assigned to other mining claims.	Bank. Note: If you have not indicated how your credits are to be deleted, credits will be deleted Bank first, followed by option number 2 if necessary.

<b>For Office Use Only</b> Thunder Bay Mining Division Received Stamp <b>APR - 7 1997</b> <b>RECEIVED</b>	Deemed Approved Date <u>July 6, 1997</u>	Date Notification Sent
	Date Approved	Total Value of Credit Approved
Approved for Recording by Mining Recorder (Signature)		

Personal information collected on this form is obtained under the authority of subsection 6(1) of the Assessment Work Regulation 6/96. Under section 8 of the Mining Act, the information is a public record. This information will be used to review the assessment work and correspond with the mining land holder. Questions about this collection should be directed to the Chief Mining Recorder, Ministry of Northern Development and Mines, 6th Floor, 933 Ramsey Lake Road, Sudbury, Ontario, P3E 6B5.

Work Type	Units of Work Depending on the type of work, list the number of hours/days worked, metres of drilling, kilometres of grid line, number of samples, etc.	Cost Per Unit of work	Total Cost
<del>Prospecting</del> Assays	19 Samples	272 <sup>46</sup>	
Power Stripping + Tranching		8938 <sup>20</sup>	
Prospecting	12 days x 2	3600 <sup>00</sup>	
<b>Associated Costs (e.g. supplies, mobilization and demobilization).</b>			
Moving Equipment		381 <sup>18</sup>	
		<b>2.17330</b>	
<b>Transportation Costs</b>			
<b>Food and Lodging Costs</b>			
<b>Total Value of Assessment Work</b>			<b>13,091<sup>87</sup></b>

**Calculations of Filing Discounts:**

1. Work filed within two years of performance is claimed at 100% of the above Total Value of Assessment Work.
2. If work is filed after two years and up to five years after performance, it can only be claimed at 50% of the Total Value of Assessment Work. If this situation applies to your claims, use the calculation below:

TOTAL VALUE OF ASSESSMENT WORK                      x 0.50 =                      Total \$ value of worked claimed.

**Note:**

- Work older than 5 years is not eligible for credit.
- A recorded holder may be required to verify expenditures claimed in this statement of costs within 45 days of a request for verification and/or correction/clarification. If verification and/or correction/clarification is not made, the Minister may reject all or part of the assessment work submitted.

**Certification verifying costs:**

I, Lyle Hoyt (please print full name), do hereby certify, that the amounts shown are as accurate as may reasonably be determined and the costs were incurred while conducting assessment work on the lands indicated on the accompanying Declaration of Work form as recorded holder. I am authorized (recorded holder, agent, or state company position with signing authority) to make this certification.

Dear Sir or Madam:

Submission Number: 2.17330

	<b>Status</b>
<b>Subject: Transaction Number(s):</b> W9740.00156	Approval
W9740.00157	Approval
W9740.00158	Approval

---

We have reviewed your Assessment Work submission with the above noted Transaction Number(s). The attached summary page(s) indicate the results of the review. WE RECOMMEND YOU READ THIS SUMMARY FOR THE DETAILS PERTAINING TO YOUR ASSESSMENT WORK.

If the status for a transaction is a 45 Day Notice, the summary will outline the reasons for the notice, and any steps you can take to remedy deficiencies. The 90-day deemed approval provision, subsection 6(7) of the Assessment Work Regulation, will no longer be in effect for assessment work which has received a 45 Day Notice.

Please note any revisions must be submitted in DUPLICATE to the Geoscience Assessment Office, by the response date on the summary.

NOTE: This correspondence may affect the status of your mining lands. Please contact the Mining Recorder to determine the available options and the status of your claims.

If you have any questions regarding this correspondence, please contact Steve Beneteau by e-mail at [beneteau\\_s@torv05.ndm.gov.on.ca](mailto:beneteau_s@torv05.ndm.gov.on.ca) or by telephone at (705) 670-5855.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Ron C. Gashinski".
