DEPTH		DESCRIPTION	ASSAY No: Oz. Au
From	To		
0.0	25.0	Fine-grained, dark greyish to greenish, massive, non-magnetic, very few minerals discernable, to the naked eye, slightly sheared, Core angle = 30°, scattered white stringers of carbonate, also very slight carbonate through-out, massive to cubic specks of pyrite, very slight amount of pyrrhotite, associated with the pyrite, rust on seams and joints. Lost core 7.9, f.8, and 15.4 - 15.0	
25.0	50.0	Same as above, more pronounced carbonate stringers, patches etc, slightly less pyrite, slight shearing C.A. steeper to 60°; 42.2 - 50.0 much finer-grained more massive, less banding, mostly dark greyish, carbonate stringers.	
50.0	75.0	Dark greenish fine to medium grained slightly sheared volcanics, slight pyrite and carbonate throughout. 50.0 58.6 very fine-grained, light grey, mainly feldspar with very little dark mineral, as small shreds, slight pyrite,	
75.0	100.0	Dark grey volcanics, slight pyrite and some carbonate, 78.8 - 87.0 very fine-grained, massive carbonate stringers, slight pyrite, with light greyish yellow waxy colored alteration remnants up to 1 / 4" in diameter, scattered, mineralized with very slight pyrite, 87.0 - 100.0 very fine-grained, light greyish green, with numerous round white phenocrysts throughout, phenocrysts

Depth: 216.0	Elevation: Lake plus

DEPTH

From	To	DESCRIPTION	ASSAY No:Oz.Au
0.0	25.0	DIORITE, grano, mottled, greyish white and greenish, large angular and laths of feldspar, blue quartz eyes, two ages of feldspars, alteration product in same crystal, very slight chalcopyrite throughout, occassionally some magnetite, slight, 1.0 - 3.8 possibly flow volcanics, slightly altered, faded, similar in appearance to main mass, silicious, blue quartz, feldspar crystals, chalcopyrite, reddish tinge to pyrrhotite, 23.2, specimen 21.3	0.0 - 25.0 N.S.
25.0	50.0	AS ABOVE Narrow sections very fine-grained, possibly volcanics, greyish green, 30.7 - 31.3, 33.9 - 35.2, 37.2 - 37.6, 38.5 - 39.0, 45.0 - 50.0 with inclusions of main rock type, chalcopyrite, slight pyrite 38.0 - 43.3 Specimen 48.0	25.0 - 50.0 N.S.
50.0	75.0	AS ABOVE: with very minor bands of fine-grained possible volcanics, 65.0 - 75.0 more silicious possible volcanics. slight pyrite and chalcopyrite as pin points, slight banding, L.C. 53.8 - 55.0 specimen 71.0	
75.0	100.0	Volcanics - fine grained, with narrow sections coarse diorite, increasing in silica, specimen 93.0' silicious, more blue quartz, quartz stringers and silicification 81.4 - 82.2, 83.1 - 83.6, 84.5 - 85.8, 87.7 - 88.7, 92.5 - 93.7, Molybdenite 85.7 slight chalcopyrite with higher concentrations in the more silicious sections. 83.2 metallic looking mineral in or with angular grains.	
100.0- 125.0		Diorite, grano, grading more coarser grained - narrow section much finer grained (reverse of the preceding box), fine pyrite, more massive with associated pyrrhotite with an increase in silica coarse grained 119.0 - 120.0 with some reddish metallic mineral possibly magnetite although section not very magnetic. In places high in magnetite, biotite developed in fine-grained sections, 113.6 some molybdenite, specimen 116.0'	
125.0 - 150.0		Diorite, grano, fine-grained 125.0 - 126.2, little chalcopyrite, pyrite, highly magnetic 140.3, 142.9, 145.2 and 146.4. Very slight chalcopyrite throughout with heavier concentration near blue quartz 140.5 - 142.9	
175.0 - 200.0		Diorite, grano, mainly coarse grained, fairly heavy magnetite, stringers of quartz also blue quartz eyes, slight chalcopyrite throughout with heavier concentrations near quartz carbonite and carbonate 186.8 - 187.8, molybdenite, 177.6 associated with blue quartz, fairly heavy magnetite	
200.0 - 216.0		Diorite, grano, fine chalco to the end of the hole.

THE MINING ACT REPORT OF WORK

To the Recorder of Patricia Mining Division

1, MADSEN RED LAKE GOLD MINES LIMITED A - 36278 Miner's Licence

..... MADSEN, Ontario Post Office Address

do hereby report the performance of 360 days of Diamond Drilling type of work

not before reported to be applied on the following contiguous claims

Claim No.	Days	Claim No.	Days	Claim No.	Days
.....
.....
.....
.....
.....
.....
.....
.....

See attached list

All the work was performed on Mining Claim (s) PA 265652, P.A. 265652. (In the case of geological and/or geophysical survey (s) where more than 10 claims are involved attach a schedule)

READ CAREFULLY: THE FOLLOWING INFORMATION IS REQUIRED BY THE MINING RECORDER.**For Manual Work, Stripping or Opening up of Mines, Sinking Shafts or Other Actual Mining Operations** - Names and addresses of the men who performed the work and the dates and hours of their employment.**For Diamond and other Core Drilling** - Footage, No. and angle of holes and diameter of core. Name and address of owner or operator of drill. Dates when drilling was done. Signed core log and sketch in duplicate.**For Compressed Air or Other Power Driven or Mechanical Equipment**

Type of drill or equipment. Names and addresses of men engaged in operating equipment and the dates and hours of their employment.

For Power Stripping - Type of equipment. Name and address of owner or operator. Amount expended. Dates on which work was done. Proof of actual cost must be submitted within 30 days of recording.

With each of the above types of work sketches are required to show the location and extent of the work in relation to the nearest claim post. In the case of diamond or other core drilling the sketch must be submitted in duplicate.

For Geological and Geophysical Survey - The names and addresses of men employed as well as dates. Type of instrument used in the case of geophysical survey. Reports and maps in duplicate must be filed with the Minister within 60 days of recording.**For Land Survey** - the name and address of Ontario Land surveyor.

The Required Information is as Follows: (Attach a list if this space is insufficient).

HOLE NO.	FOOTAGE	DIP ANGLE	CORE DIAMETER	DATES
PS #1	200	-45°	7/8"	September 20 - 26, 1971
PS #2	160	-45°	7/8"	September 27 - 30, 1971

Operator - Nick Marko, Blind River, Ontario

Drill owned by Truco, Canada, Limited - North Bay
