

MRD265 METADATA

GENERAL INFORMATION

Official Name of the Data Set or Information Holding: Regional Geology and Mineral Deposits of Northern Ontario, North of Latitude 49° 30'

Acronyms are Used to Identify the Data Set or Information Holding: MRD265

Describe the Data Set or Information Holding:

Stott, G.M. and Josey, S.D. (authors)

This publication can be downloaded from GeologyOntario: see "Distribution Information".

This digital data release is intended to provide, on an updated regional geology base, a snapshot of the currently available Mineral Deposit Inventory record of mineral occurrences, prospects and past and producing mines in the region of northern Ontario, north of latitude 49° 30'. The contents comprise a GIS-compatible map illustrating the relative distribution of various mineral occurrences in relation to general Precambrian bedrock geology across this part of Ontario. In addition to the locations and types of commodities found to date in the area, the locations of communities and parks across this region are also shown. The updated and reconstructed topographic base map, in conjunction with the revised geology on this MRD, should assist in regional land use planning and predictive modelling of potential mineral occurrences. Files on this digital release comprise ESRI ArcMap® files compatible with versions 8.3, 9.2 and newer. The files are on 1 DVD. This MRD is meant to be used in conjunction with Open File Report 6242, a complementary publication, available separately.

The Intended Use and Purpose for Collecting the Data Set or Information Holding: The objective of this product is to collect and disseminate geoscience information for Ontario. This product should assist in regional land-use planning and predictive modelling of potential mineral occurrences.

Describe any Restrictions and Legal Prerequisites for Accessing the Data Set (Data Privacy/Security): Abbreviated Terms of Use "Content" and/or "Electronic Information Product" (EIP) and its Content: This Content and/or EIP and its Content is offered by the Province of Ontario's Ministry of Northern Development, Mines and Forestry (MNDMF) as a public service, on an "as-is" basis. Recommendations and statements of opinions expressed are those of the author or authors and are not to be construed as statement of government policy. You are solely responsible for your use of the Content and/or EIP and its Content. You should not rely on the Content for legal advice nor as authoritative in your particular circumstances. Users should verify the accuracy and applicability of any Content before acting on it. MNDMF does not guarantee, or make any warranty express or implied, that the Content is current, accurate, complete or reliable or that the EIP is free from viruses or other harmful components. MNDMF is not responsible for any damage however caused, which results, directly or indirectly, from your use of the Content and/or the EIP and its Content. MNDMF assumes no legal liability or responsibility for the

Content and/or the EIP and its Content whatsoever.

Describe any Constraints for Using the Data Set:

Copyright: Canadian and international intellectual property laws protect the Content and the EIP and its Content. Unless otherwise indicated, copyright is held by the Queen's Printer for Ontario.

It is recommended that reference to the Content be made in the following form:

Stott, G.M. and Josey, S.D. 2009. Regional geology and mineral deposits of northern Ontario, north of latitude 49° 30'; Ontario Geological Survey, Miscellaneous Release--Data 265. ISBN 978-1-4435-1480-4 [DVD] ISBN 978-1-4435-1481-1 [zip]

Use and Reproduction of Content: The Content and/or the EIP and its Content may be used and reproduced only in accordance with applicable intellectual property laws. Non-commercial use of unsubstantial excerpts of the Content is permitted provided that appropriate credit is given and Crown copyright is acknowledged. Any substantial reproduction of the Content or any commercial use of all or part of the Content is prohibited without the prior written permission of MNDMF. Substantial reproduction includes the reproduction of any illustration or figure, such as, but not limited to graphs, charts and maps. Commercial use includes commercial distribution of the Content, the reproduction of multiple copies of the Content for any purpose whether or not commercial, use of the Content in commercial publications, and the creation of value-added products using the Content. The complete and entire Terms of Use Agreement may be viewed at http://www.mndm.gov.on.ca/mines/ogs/ims/pub/digcat/licence_e.asp
