## **GENERAL INFORMATION**

**Official Name of the Data Set or Information Holding:** Aggregate Test Results for Various Rock Types in Ontario

**Acronyms are Used to Identify the Data Set or Information Holding:** MRD297

**Describe the Data Set or Information Holding:**

Rowell, D.J., Dodge, J.E.P. (authors)

This publication can be downloaded from GeologyOntario: see Distribution Information section. These data represent the results of "standard" aggregate testing collected and collated by the Ontario Geological Survey (OGS) over many years and at locations throughout various parts of northern, central and southern Ontario. Most of the bedrock test results have been published in a variety of OGS reports; however, some bedrock test results have not been released previously and are being released for the first time through this Miscellaneous Release---Data (MRD). The data and supporting information are provided as Microsoft® Excel® 2003 (.xls) and portable document format (.pdf) files and as Google Earth(TM) mapping service (.kml, .kmz) files depicting sample locations and other information.

Additional information and metadata are found within a readme file provided with the product.

**The Intended Use and Purpose for Collecting the Data Set or Information Holding:**

The data were collected as part of aggregate resources inventory mapping projects. The objective of this product is to collect and disseminate geoscience information for Ontario.
